

WOODLAWN FARM

(J. B. McGEHEE 1836-1913)

Success Lies In Mutual Service.

The entire civilized world seems plunged into one of those abysses of chaos that usually precede a portentous change for the better.

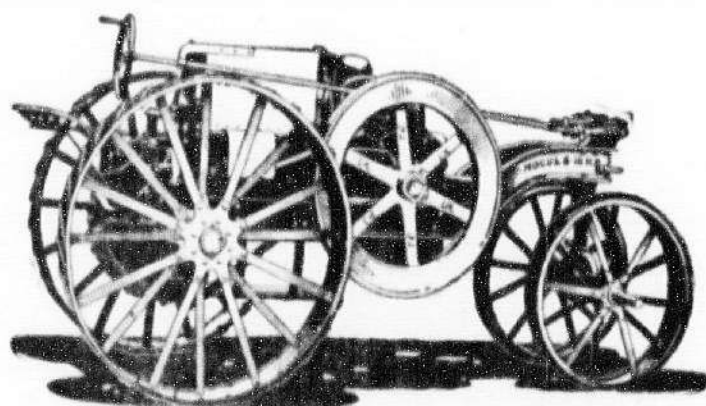

It is time for every man to remember that God is still overhead and our brother man beside us.

Such times as these are necessary to test our faith and maybe our courage. In the meantime we should grow every pound of food we can.

J. S. McGehee, Laurel Hill, La.

SEED OATS; LESPEDEZA SEED; RED POLLED GRADE CATTLE
(In Season)

The Tractor That Makes Good.

I. H. C. Mogul 8-16 Kerosene Tractor

This tractor is made for farm work and to operate medium-sized and large threshers and other belt-driven machines. It will operate on kerosene, distillate, naphtha, and other low-priced fuels, or on gasoline, thus giving MOGUL owners the advantage of being able to use the fuel that can be bought at the lowest price.

If you need more power, a MOGUL 12-25 or 30-60 will fill the bill.

CHAS WEYDERT.

FANCY GROCERIES---

the kind that gives satisfaction.
The best service possible, with
prices as low as the other fellow,
and, above all, correct weights.

GEO. RETTIG

What Price Should You Pay?

There's a fair price for everything. Nothing can be worth more than the benefit provided.

Good buying is really the most good at any cost.

Superior quality means the greatest satisfaction—and goods should have quality to warrant buying.

The longer goods wear the cheaper the cost. Toilet articles, brushes, etc., just as well as clothes.

If goods are bought right they satisfy. Our goods satisfy—so it's cheaper to trade here.

HOW TO WASH CAR

The commonly used rubber hose is perhaps the best method of cleaning the lower portions of the car, such as wheels, running gear, mudguards, etc. But it is positively injurious when used on the body and highly finished surfaces, says a writer in the current issue of American Motorist. The force with which the stream of water impinges on the surface causes the sand and dirt adhering to the body to be driven into the varnish, destroying its brilliancy, and no amount of polishing and rubbing will restore its former luster. The body should be washed with lukewarm soap and water and

immediately dried with a soft chamois. Many owners use a mixture of cylinder oil and kerosene, which they apply on the body, rubbing it dry afterward.

Another scheme is to use a mixture of boiled linseed oil and turpentine, applied sparingly, and rubbed absolutely dry. The use of this polish will restore even an old car to a degree of splendor that will please the user.

"What are you knitting my pretty maid?"

She purred, then dropped a stitch. "A sock or a sweater, sir," she said, "And darned if I know which."

—Kansas City Star.

WEST FELICIANA FAIR

(Continued from page one.)

A. Mackie, Albert A. Frederick, Chas. L. Mackey, and they announced the following named as scoring highest. Division 1, under one year—Birdie May Davidson, six months, 59 per cent; James G. Perkins, Jr., nine months, 93 per cent. Division 2—Earl Wayne Spillman, 12 months, 97.5; Julia Emma Wood, 20 months, 95. Division 3—Joseph Leslie Dupuy, 25 months, 95; May Elizabeth Wilcox, 35 months, 94.5. Division 4—Bernice R. Daniel, 45 months, 96.5 per cent. All of these were awarded diplomas and certificates.

The prize baby of the contest was, of course, Birdie May Davidson, infant of Mr. and Mrs. Gordon Davidson, who led the score at 99 per cent. She and Earl Wayne Spillman won the bronze medals offered by the Woman's Home Companion for the girl and boy baby, respectively, making the highest score. In addition, Birdie May received the five dollar gold piece given by the Metropolitan Life Insurance Co. of New Orleans. James G. Perkins won a set of pinless, buttonless garments given by the Earnshaw Mills, Chicago, making the highest score of any boy under 12 months.

Other babies entered can get their certificates and score cards by applying to Mrs. Barrow.

Red Cross Exhibit

The Red Cross booth was attractively decorated with the symbol that moves the heart: the red cross. Garments and surgical dressings were shown. The box for contributions had only 25 cents in it, this claim being crowded out by the attractions of the hour. Some one contributed \$2.00, but by far the most valuable donation of all was the coral colored sweater, knitted by Miss Margaret LeSassier and put on exhibition in the needlework department. After the garment was awarded first prize, Miss LeSassier graciously presented it to the Red Cross. It was sold, bringing \$39.00. The fortunate owner is Miss Lottie Daniel.

School Exhibits

Star Hill school had a small but good exhibit. Its good example and that of Julius Freyhan High School and Wakefield school should be followed by the other schools of the parish next year.

The map of Louisiana showing its various products in the various localities neatly bottled in tiny phials was among the best things in the school exhibit. It was done by Wakefield school. Other maps done by Frank Stirling and Thelma Funnish were excellent.

The work of Mrs. R. E. Crump's classes was as usual on a high level.

Basket Ball

A basket ball game was played Friday afternoon between Clinton and St. Francisville teams, the visitors winning by a score of 7 to 2.

Football

Probably the first game of football between two well-matched teams ever to have been played in the parish was played Saturday afternoon, the Baton Rouge High School team defeating the Newman Manual Training School team of New Orleans, by a score of 27 to 0. A nominal admission fee was charged for the game, and the fair management did not lose any money on the attraction.

Negro Educator Speaks

Prof. J. S. Clark, president of Southern University, spoke Saturday afternoon. Separate accommodations were provided for the races, and this speaking was well received by both white and black. He is an accomplished orator, has a keen perception of the relations of the white and black races in this community, and his advice to both white and black was timely. He encouraged the black man to stay in the South and to stay on the farm, stating that the white man's problem was the black man's problem and that they should work out their salvation together. His advice to the people of his race was especially good. The True Democrat considers Prof. Clark's speaking a good feature of the fair.

Miscellaneous

Remarkable were the paintings on velvet and satin, done by Mrs. C. M. Barrow with a toothpick.

The beautiful tatting collar in a unique pattern, shown by Miss Hattie Ard, was especially admired. It should be sent to the State Fair.

Not in competition was the basket-work done by Miss Nina Hamilton.

The restaurant section was a decided improvement over last year. But oh, how those ladies and girls did work!

The Norwood Canning Co., Norwood, La., had an attractive exhibit of the different varieties of canned goods in their output. On the closing night, through the generosity of the company, these goods were auctioned off for the benefit of the Fair Association and brought a neat sum.

See those good brooms in the colored people's department, made here at home.

Thus endeth successfully West Feliciana's second annual fair. Too much
