THE EXPOSITION TAX.

Crowley, La., Sept. 24.—A petition to the voters of Acadia parish is being circulated, calling upon the voters to register, in order to be in a position to vote against the Panama Exposition tax, Nov. 8.

The petition recites that according to the statement, the country parishes are assessed at \$204,373,526, and the city or parish of Orleans at \$231,045,937 and that as per the present assessment the country will pay \$106,639.50 per year, or \$1,066,398 in ten years, and New Orleans \$173,284.45 per year, or in ten years, \$1,732,844.50.

It states further that the interest on these bonds will be \$280,000 per year, or just about equal the amount of the tax paid in each year, so that at the end of ten years the State will still owe the tax six and one-half million dollars at 4 per cent interest bonds, which by the act the parish of Orleans proposes to pay. The sentiment is divided on this question of taxation, and the promoters of this petition declare that they will push it through.

We are not opposing the Exposition tax amendment as we believe it is worth the outlay to have it held in New Orleans, but we believe that eventually the whole State will have the debt to pay, it is well for us to understand this before we vote the tax.

A NEW PAPER.

No. 1 of Volume 1 of the Chatham Ledger is on our desk. H. C. Baker is the editor and proprietor, and considering the many adverse circumstances attending the issue of the first number it is a very creditable production. The editor is new to the business, but his energy and vim will make up for much inexperience. We believe, from our knowledge of the man that he will make good and we congratulate the people of our little sister town on the prospect for having a paper. Every citizen should come forward with his dollar to make it a success.

How Good News Spreads

"I am 70 years old and travel most of the time," writes E. F. Tolson, of Elizabethtown, Ky. "Everywhere I go I recommend Electric Bitters, because I owe my excellent health and vitality to them. They effect a cure every time." They never fail to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. They work wonders for weak, run-down men and women, restoring strength, vigor and health that's a daily joy. Try them. Only 50c. Satisfaction is positively guaranteed by all druggists.

ROOSEVELT won the first round from the Old Guard, but when they get through with him he will be rolled flat as a pancake.

THEODORE Roosevelt, the political gold brick, won out at the Saratoga convention Tuesday and was elected chairman over Sunny Jim Sherman, the choice of the old guard republicans. Roosevelt may succeed in electing a democratic governor for New York, which will be the best thing he has ever done.

An Awful Eruption

of a volcano excites brief interest, and your interest in skin eruptions will be as short, if you use Bucklen's Arnica Salve, their quickest cure. Even the worst boils, ulcers, or fever sores are soon healed by it. Best for burns, cuts, bruises, sore lips, chapped hands, chilblains and piles. It gives instant relief. 25c. at all druggists.

Senator Lodge of Massachusetts says there is no occasion to worry over the republican reverses, claiming that he has never seen an administration that didn't "sag in the middle." However, there never was an administration before which attempted to carry such a load during the off year.

Safe Medicine for Children

Foley's Honey and Tar is a safe and effective medicine for children as it does not contain opiates or harmful drugs. Get only the genuine Foley's Honey and Tar in the yellow package. Sold by all druggists.

Prolific Stalk and Long Ear.

[Communicated.]

The writer had his attention called to a very attractive exhibition of corn in the window of the Peoples' Hardware & Furniture Co. store.

There was one objectionable feature, however, that marred the beauty and impaired the effect of this cereal display. In two instances, at least, deception was practiced and a false impression was made. It seems needless to say that whatever is put on exhibition for inspection as the fruits of industry or the products of skill should be so displayed as to make no false show and to conceal no real defects or blemishes. They should appear as they are and should rest upon their intrinsic worth. This is essential to real honesty.

We know that no one concerned in the case to which reference has been made, saw anything wrong in it, and that the object was simply to attract attention, to create surprise and to have a little fun.

But when we come to consider the matter thoughtfully, however well-meant it may have been, there is clearly a moral principle underlying it, which is evil in itself and corrupting in its tendency, and which, if encouraged and given free scope, is sure to lead to deception and fraud of a high criminal character. The well-meant hoax may amount to nothing more than transient fun to those whose exhibits are correct and well established, but it is a dangerous precedent to set before youth, who, under the most favorable conditions, will be strongly tempted along this line. Let us see to it that, in presenting incentives to industry and skill, we do not pander to craftiness and deceit.

L. W. M.

Stubborn as Mules

are liver and bowels sometimes; seem to balk without cause. Then there's trouble—loss of appetite—indigestion, nervousness, despondency, headache. But such troubles fly before Dr. King's New Life Pills, the world's best stomach and liver remedy. So easy. 25c. at all druggists.

Don't Appreciate the State.

J. C. Trichel, cashier of the Continental Bank and Trust Company, was at his desk yesterday after a two weeks' vacation, which he spent principally in West Texas, accompanied by his friend Trim-mell Harrison, of the B. & B. department of the Texas & Pacific Railway.

He said he visited Dallas, Fort Worth, El Paso and other Texas points, and made trips to Cloudcroft, New Mexico, and Juarez, Mexico, taking in a big bull fight in the latter place. Texas is a great country with most aggressive people, and in spite of another very bad drouth this year over many portions of the State, many improvements are under way, good roads being one of the main items, but this is the second year of dry weather over there, and a great many people, who could, pulled up and left the State, and a great many more would if they could.

"I never get out of Louisiana and return without being profoundly impressed with the idea that we have by far the greatest State in the South if not in the United States in point of natural resources, and now that the tide is beginning to turn in our direction, I firmly believe that we are on the eve of a great era of improvement and expansion. Our own people don't half appreciate our resources and advantages. If they did, our improvement would come faster. Louisiana certainly looks good to anyone who has spent a week or so in West Texas, and Shreveport is undoubtedly the best and fastest growing city of her size in this part of the United States."—Shreveport Times.

A Reliable Medicine—NOT A NARCOTIC

Mrs. F. Mard, St. Joe, Mich., says Foley's Honey and Tar saved her little boy's life. She writes: "Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Foley's Honey and Tar in which I have great faith. It cured the cough as well as the choking and gagging spells, and he got well in a short time. Foley's Honey and Tar has many times saved us much trouble and we are never without it in the house. Sold by all druggists."

Tide News.

Our new school building, which we mentioned in our last letter, is receiving its last coat of paint although Contractor R. M. Briley has not finished building on account of not getting some extra doors and windows which were special orders. We have planned to seat the building with single desks which have been ordered. Supt. Mixon and ex-Supt. Moss have promised to dedicate the building as soon as we can get ready, which will be some two weeks yet.

Our next step will be to clear off about an acre of land and convert it into an agricultural farm. When we get ready for this work we will look forward for a teacher who can teach this branch as well as other branches connected with the literary schools. Teachers, I think here is a real good thought for you. There is one of the brightest futures before the young man who has or would cultivate agricultural work of anything I have in mind, and yet how few are grasping the idea.

There is not a qualified boy in the State, all of our agricultural teachers are from other States. Boys, I would stop a moment and get busy.

Our teacher, Hugh Smith, contracted for a 9 months term and he is one of those hard hitters, too.

We have preaching once a month and Sunday school twice.

Mr. Cas Moss was with us last third Sunday and delivered a Sunday school lecture which will be long remembered and much good is expected.

A Sunday school celebration will be held the early part of next year and Mr. Moss will head the program.

Our teacher spent Saturday and Sunday at Verda. I suspect there are some pretty girls down that way.

We don't want to forget to mention that Hugh's parents and sisters spent third Sunday with us and had an enjoyable trip.

Success to The Comrade.

TOM.

Saved a Soldier's Life

Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Tex., than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 178 pounds." For coughs, colds, lagrippe, asthma, hemorrhage, hoarseness, croup, whooping cough and lung trouble, it's supreme. 50c. \$1.00. Trial bottle free. Guaranteed by all druggists.
