C. A. Saxby.

LETTER TO J. W. TURNER.
Welsh, La.
Dear Sir: You may like to know what you pay for the paint in a gallon of "paint," assuming the pure-paint part of all "paints" to be all alike; which it isn't; and worth \$1.75 a gallon.
Of paint adulterated 10 per cent, the pure-paint part brings \$1.94 a gallon. 15 per cent brings \$2.06 a gallon.
25 " 2.33 "
33 " 2.62 "
50 " 3.50 "
75 " 7.00 "
The average adulteration of paint in this country is about one-third; so, you see, the average price the American people are paying for paint is about \$2.62 a gallon.
It is a game of wits. Adulterators are always too sharp for the bulk of consumers. People won't pay \$1.75 a gallon for paint. So they pay \$2.62 a gallon for paint and something that looks like paint mixed with it. (They pay the painter, besides, from \$2 to \$4 for painting those useless gallons.)
Why do they do it? They don't know Devoe.
Yours truly,
F. W. DEVOE & CO.

A DOLLAR IN YOUR POCKET
and more coming Saturday night—the chances are you will spend the dollar; probably for something you do not need, possibly for something you would be better off without. If that dollar was in the bank you would keep it and add to it until you had enough to make an investment so you could make more money.
Many of the larger bank accounts were started in a very small way and gradually builded to their present size.
Why not start an account with us and build up to where you can live on the interest of your investment? It's worth while trying—making the start helps—start today.

FIRST NATIONAL BANK,
L. E. Robinson, President. Jno. H. Cooper, Vice-President.
E. C. Willard, Cashier.
