## Young Man! Young Woman!

Young man, young woman, have you too money you need? If you have not, now are your prospects for getting it. Do you want a good home supplied with good books, beautiful pictures, fine carpets, warmth and light, education, wholesome food, social culture, pleasant companions, broad development of your faculties, to travel and see some of the beautiful places of this our earth of ours, to learn about different people of the different countries; in short, do you want to live a successful life, and enjoy it? If you do, you must launch out, get up and hustle and push, prepare to do something the world wants done and do it, do it better and quicker than the other fellow; the world is full of opportunities for those who have the ambition and are prepared to grasp them. It is said that opportunity knocks at every man's door, but you must not wait for it to kick the panels in. You must be ready to open the door and grasp opportunity as it approaches. Make a sacrifice, if necessary, that you may give yourself the practical education that will lay the foundation of a great and successful future for you. Thousands of young men and women that were only a few years ago in the same position as yourself are today cashiers of banks, owners of progressive business enterprises of their own, or holding high government positions; they are living the life you would like to live, and the life you can live, if you will enter the Tyler Commercial College, of Tyler, Texas, and take their thorough practical courses of bookkeeping, business training, shorthand and typewriting, or telegraphy; they will give you the education that will enable you to hold a good position and advance; they will get the position for you, if necessary. If you have not read their catalog, write for it, it contains 168 pages explaining their modern systems and superior methods of teaching the practical work the business world demands, also indorsements and statements. What thousands of others have done you can do; a thorough business training in America's largest and greatest commercial college is none too good for you, and it is worth making a sacrifice to obtain.

### The World's Best Climate

is not entirely free from disease, on the high elevations fevers prevail, while on the lower levels malaria is encountered to a greater or less extent, according to altitude. To overcome climatic affections, lassitude, malaria, jaundice, biliousness, fever and ague, and general debility, the most effective remedy is Electric Bitters, the great alterative and blood purifier; the antidote for every form of bodily weakness, nervousness and insomnia. Sold under guarantee at all drug stores. Price 50c.
