HON. HENRY HUNSICKER

Is a Candidate for the Office of Railroad Commissioner.

The formal announcement of Hon. Henry Hunsicker as a candidate for the office of Railroad Commissioner for the Third Railroad District of Louisiana, is welcomed by his friends, who have been anticipating this publication. Until recently he had not determined to enter into the contest for the nomination at the primary election on Thursday, September 6, but the encouragement he has received gives him the strongest assurance of success. Mr. Hunsicker is a man of the people, and is, so to speak, self-made. Through his own efforts he has gradually risen from an humble position to representative from Caddo to the House of Representatives, where his record for efficiency and substantial ability, measured by his work, will compare favorably with the most prominent of the distinguished men of the General Assembly. As a man of the people, he fully understands and appreciates, from practical experience, the needs of the masses with whom he has always been in full sympathy. He is free-handed, untrammeled in action and in speech, and has no connection, direct or indirect, with any combine or corporation. He has no pledge to fulfill nor promises to execute in the future. For guide he has the plain dictates of duty and the law which applies to the Railroad Commission and which he will, if elected, observe and maintain fairly and fearlessly. If it be desired to have a young man on the commission who will be active in guarding the interests of the producer, the shipper and the carrier, the responsibility as well as the honor of the position may well be bestowed on Mr. Hunsicker whose popularity is not confined to Shreveport and Caddo, his home parish, but extends throughout the twenty-one parishes comprising the Third Railroad District of Louisiana. Mr. Hunsicker is thoroughly identified with the best interests of the planter, the farmer and business man, and has the welfare of the masses in mind and in heart. His record of success as a member of the Legislature may be reckoned as an index to his possibilities as one of the people, on the Railroad Commission.

And in this connection it should be said that he introduced and passed, through the Legislature, after a trying contest with the opposition, the law abolishing gambling in pool rooms and turf exchanges. This law was contested radically at every point and through the State court to the Supreme Court where it was finally affirmed.
