SALVAGE FROM LOST SHIPS

Specie in Quantity Has on Occasions Been Recovered From the Victims of the Ocean's Fury.

Although the chances of being able to do so are considered doubtful, since she lies in 17 fathoms of water, the Canadian Pacific railway has not abandoned all hope of refloating the MORE CARBO NAPTHA Empress of Ireland. At any rate, every effort will be made to recover the £200,000 worth of silver, in 163 bags, which is still in the specie room of the sunken liner.

The most notable salvage of silver during recent years was made after the Oceana sank in the channel in March, 1912, through collision with the Pisegua. The work was hindered by strong currents and tides, but during the succeeding three months silver worth over £500,000 was recovered at a very low cost. The Oceana was lying quite upright; the Empress of Ireland turned turtle-obviously a very much more difficult position for sal-

vage work. The £200,000 worth of silver, however, represents but a small portion of the money which went down with the ill-fated vessel; for thousands of pounds belonging to the passengers themselves must have been lost. The average passenger on one of these liners usually carries a plentiful supply of loose cash and bank notes with him, and it is estimated, as in the case of the Titanic, that the loss of paper money belonging to passengers themselves must have been enormous.

The banks, it might be mentioned, are the gainers in such cases. The usual procedure when bank notes are lost is to at once inform the Bank of England, giving the numbers. Then it is necessary to wait 12 months. If by miliation to me. By the time I had that time the notes have not been returned to the bank, you may obtain the cash on again presenting the numbers and giving the bank a letter of indemnity, guaranteed by your bankers, to refund the money should the notes ever be presented, in which case the bank is bound to pay again.

If the numbers on the bank notes are unknown, and the notes are never found, the money goes to the unclaimed bank balances, in which there are always huge amounts of other peo ple's money.-London Tit-Bits.

Light Humor.

In the latter half of the eighteentl century one of the members of a little scientific society in Liverpool, England, laid a curious wager. He bet a brother scientist that he would read a newspaper by the light of a farthing dip at a distance of 30 feet. The B. S., finding the feat difficult at even a sixth of the distance, cheerfully accepted the wager.

The layer merely coated the inside of a shallow wooden box with sloping pieces of looking glass, so as to form concave lens, placed it behind his farthing dip, and readily deciphered the small print at the stipulated dis-

The experiment was witnessed by a Liverpool dock-master. He was a thinking man, and saw great possibilities in this learned jest. He straighthouse requirements, and forthwith the modern reflected light, with its miles of reflected range and untold life-sav-

ing powers, sprang into being. Doll Too Much Like Baby. This is a true story: There is a little girl on the East side of New York to whom a beautiful woman wanted to give a doll. The woman brought the little girl into her luxurious home one day and put into her arms a dollsuch a doll as is popularly supposed to be dear to the hearts of little girls who live on the East side. But the little girl drew back with an ugly scowl. She didn't want the doll, and

she said so. The beautiful woman thought her a very ungrateful child. It was not until some time afterward the little girl explained. She'd always had babies to take care of, she said. She'd had them to lug around with her almost as soon as she was able to walk. She loved them, of course, but at play time-when there was such a thing as play time-she really didn't want a doll. It was too much like the babies.

Volcanoes Again in Action. Some of the volcanoes in the Sangir islands are in eruption. The streams of lava have burned down woods and cocoa plantations, and a rain of stone has caused damage throughout the whole surrounding country. Above a small. hundred houses have collapsed. Several of the Sangir islands, which are almost midway between Mindanao, Philippines, and Celebes, have active volcanoes, the most important being lives have been lost. Its worst recorded outbursts were in 1711, 1812. 1856, 1883 and 1892. In the last mentioned year the northwest portion of the island entirely disappeared, car rying 2,000 people with it.

Enamelware Cement. For mending enamelware pots and pans where a hole has been made or the enamel has been chipped off, the following is effective: Equal parts of soft putty, finely sifted coal ashes and sifted table salt. Mix all together and pack it into the hole. Place the mended article on the stove with a little water in it until the cement gets hard. It never fails, and it becomes as hard as the enamel itself.

From "Poor Richard."

When you incline to have new iew clothes, look first well over the old ones, and see if you cannot shift with them another year, either by scouring, mending or even patching, if necessary. Remember a patch on your coat and money in your pocket is better and more creditable than a writ on your back and no money to take

Sconomies "Why don't you try to look more neat?" "I'm economizin'," re lied Plodding Pete. "I jes' heard about de money a railroad kin save by not washin' de car windows. Jes' imagine de expense dis nation could cut out by hoycottin' soap!"

# HINDUS IN BATTLE WITH POLICEMEN

OVER 20 REPORTED SHOT IN FIGHT AT VANCOUVER-COAL AND HATCHETS USED.

### WERE DENIED ADMITTANCE

Hindus Would Not Allow Immigration Officials to Board Japanese Vessel, and They Retire-Canadian Government Firm.

Vancouver, B. C .- Scores among a party of 175 policemen and constables were injured, several seriously, in a battle with several hundred infuriated Hindus on board the Japanese steamer Komataga Maru in the harbor here.

Showers of coal and other missile: rained from the ship on the official force which attempted to board the steamer from a tug. In the face of the fire, the attacking party retreated and the attempt to board the steamer temporarily was abandoned. The Hindus braved the stream from a big hose the tug turned on them and mercilessly pelted the officers with lumps of coal. Fire bricks and pieces of iron from what is believed to have been the wreckage of the engine room on the steamer followed.

The battle grew out of an attempt to rid the harbor of the Japanese steamer on which 350 Hindus came to this port three months ago, only to have the Canadian immigration officials refuse them admission to the country. Their claim of a right to land as British subjects was overruled by the courts and the steamer was ordered to sail with them on board.

The Hindus had been rebellious and several times attempted to land, but were prevented.

## SHIP BURNS IN N. Y. HARBOR

100,000 Persons See Spectacular Battle Against Flames-900 Aboard

Doomed Ship. New York.-More than 100,000 persons gathered on the Battery and the Brooklyn and Manhattan bridges and watched the most spectacular steamship fire New York has seen since the burning of the Gen. Slocum in the East river in 1904, with its record of 1.000 deaths.

The passenger steamer Massachusetts, with 700 passengers and a crew of more than 200, an oil-burner, had cleared from her pier in the North river and swung into New York bay shortly after 5 o'clock, when there came a sudden burst of flames through the upper works amidships, where the after funnel rose from the oil tank room in the hold.

The passengers, frightened nearly into hysterics, were kept from panic only by heroic work of the squads de- a treatment, but all remedies failed. tailed to look after them. smoke grew denser and settled about the decks, it became apparent it would be unable to control them for any great length of time. At last the steamer crawled into the Wallabout Market, directly between the Manhattan and Brooklyn bridges, and made fast. The smoke soon died down, and when the fire boat crews had joined their efforts to those of the seamen on the Massachusetts the blaze was soon extinguished.

## CROP CONDITIONS ONLY FAIR

Improvement in Carolinas, Louisiana and Oklahoma - Many Sections

Dry-Damage in Texas. Washington.-Cotton crop conditions over the belt are decidedly spotted, owing to the scattered nature of the rains of the past fortnight. In the his famous successors was Henry west the weather has been decidedly hot and dry, except that good rains have fallen in Louisiana and portions of Arkansas. In Louisiana the crop improved, normal progress was made in Oklahoma, Arkansas showed very irregular conditions, by reason of the scattered rains, and in Texas there was some loss, due largely to damage done to young cotton by the dry weather and high temperatures.

Boll weevil are still numerous in infested areas, but damage to date is

Wilson on Street.

Washington.—President Wilson took short walk through the business section of the city and attended to some business at his bank. His appearance, Gukong Abu, on Great Sangir, by business at his bank. His appearance, eruption of which many thousands of following his recent slight illness, at tracted much attention.

Waiting on Lever.

Washington.-Final action by the senate and house conferees upon the bill regulating dealings in cotton futures will be taken up on the return here of Representative Lever, one of the conferees, from South Carolina.

Street Corner Sermone. Philadelphia. - The Presbyterian Evangelistic alliance of this city will hereafter send out half a dozen automobiles each night loaded with ordained preachers, who will deliver street corner sermons at every prom inent point in the city.

Illinois Farmer Slage. Springfield, Ill.-Jealous because his wife left him, Charles Jerdes, a young farmer of Loving, shot and killed his wife, Nola, aged 18; probably fatally wounded his mother-in-law, Mrs. Frank Gardner, and then turned the gun on himself, inflicting mortal injuries.

Long Stay in Capital. Washington.-It was learned that resident and Mrs. Wilson have settled down for a long summer siege in the white house, and that negotiations are on foot to consider a summer cottage at some nearby resort.

PAINTS WOE ON HIS BARN HOPE FOR THE BALD HEAD

Town Meeting and Court Failing Riverhead Man, He Appeals in Big Letters.

A sign on the barn of John J. Pigot of Riverhead, L. I., contains the following in large white letters on a black background:

"A thief is in possession of farms and lands hereabouts. Law, court and perjurers are friends of the thief."

Pigot, who is apparently an educated man, past middle age, and reputed to be wealthy, came here from Brooklyn two years ago. He bought a farm on Mill Pand, the water rights of which are controlled by the Riverhead Electric Light company.

Soon afterward he complained to the company that his land was being flooded because the water was held back for power. This was denied.

Then Pigot hired a hall, invited the public, and made an address. He said Riverhead was controlled by a "ring" and assailed several leading citizens.

Subsequently he sued the electric company for \$2,000, alleging that his farm had been damaged. The action was decided by Justice Blackmar in favor of the company.

#### BODY COVERED WITH ECZEMA

R. F. D. No. 1, Tazewell, Tenn.—"My disease started on my legs in a small patch and kept spreading until my entire body was covered. It would itch and burn till I could not sleep at night. I would scratch till the blood would coze out and run down my body skin became irritated, red and ugly looking. My clothing seemed to irritate it. The pimples were on my hands, arms, legs, feet and entire

and then applied the Cuticura Ointment. Cuticura Scap and Ointment cured me, and they also cured my dandruff and falling hair." (Signed) Charley Alston, Jan. 31, 1914.

one to propose to the widow.—Judge.

There are spiders in Java which make webs so strong that it requires a knife to sever them.

Sewing Hairs on Scalp is Proving Successful-Fine Gold Wires Are Used.

A method of sewing hairs in the human scalp in cases of parital or total baldness has been successfully used in several instances by Doctor Szekely, at the hospital of Saint Stephane at Budapest, and a report appears in the London Times.

The number of hairs "planted" in the head of a patient has been as many as 50,000. One hundred hairs scalp at every square centimeter, and ber is thus 200, or over one thousand to each square inch. Very fine gold wires are used, one five-hundredth of an inch in diameter, and fine long hairs from a woman's head are attached to the middle of these. The gold loop or knot acts as an "anchor," into the subcutaneous tissue, where it is slightly twisted, and holds the hair permanently in position. It is stated that 500 hairs can thus be introduced into the scalp within threequarters of an hour.

Doctor Szekely has designed a special instrument for introducing and fixing the gold wires. The latter are so light and so fine that the total amount of gold in the scalp after "planting" 50,000 hairs is only one gramme. The hair is stated to appear perfectly natural, and a sapcule of to 372 Pearl St., New York. Adv. tissue appears to form around each gold wire knot. The inflammation resulting from the treatment entirely disappears in form ten to twelve days, and legs. The eruption came out in and in no case so far has any insmall red pimples and when I tense inflammation or suppuration rescratched the whole surface of the sulted. The hair can be washed, brushed and treated with oil in the ordinary way, and one of the earliest patients so treated, a lady, has retained her hair intact with the orig-

Ointment. I first washed with Cuti- the electrification of performers be cura Soap and warm water, dried well fore they go upon the stage. The room will contain a powerful Tesla coil and the walls will be wound with heavy insulated copper wire carrying high currents. STOLE TO GET NEW START

Bank Cashier Experiences Overpowering Impulse to Get Some Place and Start Life Anew,

A bank teller in a middle western state grew weary of the narrow, circumscribed life in the town where he lived; he wanted wider interests, a new start in a new place, but a start with capital so he could push himhelf ahead. He took \$35,000 of the bank's funds, jumped into his automobile and started for Mexico (this was before the present revolution across the Rio Grande had reached such serious proportions) across Kansas, Oklahoma and Texas. He expected to make a clean getaway by using a motor car instead of taking a train. forgetting that an auto can be traced. The surety company at once put an inspector on his trail, and the man was captured in Texas when he was almost at Laredo, ready to cross the border.

Of the sum he stole, \$25,000 was recovered in the actual wrappers in which he had taken it from the bank. The automobile was recovered and sold, and the proceeds used to make up for part of the money he had spent. This cashier is now serving a long sentence in prison merely because he experienced an overpowering impulse to go some place and start life anew.

Robbed to Play Poker.

In one of the southern states a man whose habits were bad, robbed an express company of several thousand dollars. Instead of decamping he remained in the city. He conare drawn through punctures in the fessed to the theft and said he had lost the money playing poker. The as both ends are left free, the num-surety company sent a man to prosecute the thief. He found the defaulter had been receiving a good salary from the express company and that there was no reason for his taking the money. Further investigation revealed the fact that the county attorney and sat in the poker game and after sterilization is introduced and won most of the money; the other players were friends of the county attorney. The surety company dropped the case at once and paid the express company the amount of the
