Local News.

—Miss Coralie Rousseau arrived from the city Monday evening last.

—Messrs. Felix Bienvenu and Albert Rousseau and Miss Corinne Winchester arrived here Tuesday evening to witness our carnival parade and ball.

—A conservative estimate of the number of people who witnessed our beautiful Mardi Gras celebration, is put down to eight thousand people.

—Owing to the full and complete details of the Mardi Gras pageant our local news and other interesting matter was crowded out of this issue.

—While firing the canon on Mardi Gras evening Messrs. Chas. Gutekunst, Willie Hadley and B. Friedly were burnt on the hands and face. Their injuries are painful, but nothing serious.

—Misses M. and J. Mignone Robicheaux of Lafayette, who came to witness our Mardi Gras festivities, remained here a few days, with their grand mother Mrs. F. C. Aubert.

—It seems now, that the only hope of the sugar industry is in the Senate. The House has passed the bill finally by a large majority. Congressman Price, Meyer, Davy and Robertson voted against the bill; for this noble action, they have the unanimous approval of the people of Louisiana. Boatner and Blanchard have fallen under the party lash, and voted for the bill. It seems that they hold dearer to their adherence to the Democratic party than to the interest of the people of their state. Such legislators may be put down as politicians, and not as true statesmen representing their people and their interest. What good is a party to a people if that party crushes their industries out of existence and starve them to death? Our people cannot, like politicians, live on the party, as only politicians get in fat offices, the people must live on the fruit of their labor and on the output of their industries. Can they submit to this without protestation? We would suggest that our people, or at least, our board of trade pass strong resolutions upholding the course of our representatives who so nobly stood by their people notwithstanding the party lash applied on their back, and condemn Boatner and Blanchard who sacrificed the interest of the people of their great state to fall in line with the political machines.

Simply Awful

Worst Case of Scrofula the Doctors Ever Saw

Completely Cured by HOOD'S SARSAPARILLA.

"When I was 4 or 5 years old I had a scrofulous sore on the middle finger of my left hand, which got so bad that the doctors cut the finger off, and later took off more than half my hand. Then the sore broke out on my arm, came out on my neck and face on both sides, nearly destroying the sight of one eye, also on my right arm. Doctors said it was the

Worst Case of Scrofula

they ever saw. It was simply awful! Five years ago I began to take Hood's Sarsaparilla. Gradually I found that the sores were beginning to heal. I kept on till I had taken ten bottles, ten dollars! Just think of what a return I got for that investment! A thousand per cent! Yes, many thousand. For the past 4 years I have had no sores. I

Mr. Boatner was too good a democrat to vote against an administration measure, but his democracy did not interfere with his determination to bolt a democratic convention in his district when he failed to get the nomination he sought.—Iberville South.

Popular Everywhere.

Beginning with a small local sale in a retail drug store, the business of Hood's Sarsaparilla has steadily increased until there is scarcely a village or hamlet in the United States where it is unknown.

To-day Hood's Sarsaparilla stands at the head in the medicine world, admired in prosperity and envied in merit by thousands of would-be competitors. It has a larger sale than any other medicine before the American public, and probably greater than all other sarsaparillas and blood purifiers combined.

Such success proves merit.
