Representative Sterling of Illinois led Mr. Schwab into a general discussion of the tariff on steel, particularly as to the relations of the business in this country and Germany.

"The real purpose of the tariff on steel," Mr. Sterling suggested, "is to protect you in the home market. You say you can manufacture rails as cheaply as Germany and you still have the advantage in that they must transport to our market?"

"Yes, but Germany can now transport to our Pacific coast for less than we can ship from Pittsburg to the coast," said Mr. Schwab.

"I do not want to argue the tariff," he said. "but I can not for the life of me see any disadvantage to America from liberal protection. It seems to me to be a mistake to have the tariff so low that a foreign country can even reach our Pacific coast. That s not the practice of Germany, France, Austria or Italy or of any foreign coun try except England."

You could make rails for less than \$28 a ton and still make some profit, couldn't you?" Mr. Beall inquired. "Oh, yes," was Mr. Schwab's reply,

"but I think \$28 a ton is too low. As a matter of fact, since I have been president of the Bethlehem Steel company we have never sold rails for less than \$30. We have sold them as high as \$55 a ton."

Mr. Schwab was a willing witness on all points but one.

When Mr. Beall asked him concern ing an option given before the steel corporation combine by Andrew Carnegie on his steel plants to Judge W. H. Moore and H. C. Frick-a deal never consummated, to the financial loss of Mr. Moore and Mr. Frick-Mr. Schwab said the option was secured for some one whose name never had been mentioned.

"Who was it?" asked Mr. Beall. "I prefer not to say."

"Was it someone now engaged in the steel business?"

There Are More Farms, More Farmers, More Machinery, Better Houses and Growing Values.

Washington .- Texas farm statistics as compiled by the census bureau show an increase of 204 per cent in values by the acre since the census of 1900. They show an increase in the value of farm buildings of 100 per cent. They show an increase of 39 per cent in improved acreage. These figures also show that Yexas farmers own machinery and implements to the extent of 88 per cent more than they owned ten years ago.

The statement shows in detail that the number of farms reported in 1970 was 416,377, as compared with 352,190 in 1900, an increase of 64,187, or 18 per cent. The total value of farm land and

buildings was given in 1910 as \$1,822,-713,000, as against \$691,774,000 in 1900. an increase of \$1,130,939,000, or 163 per cent. The total value of all farm land

alone was reported in 1910 as \$1,613,-513,000, as compared with \$591,551,000 in 1900, a gain of \$1,021,962,000, or 173 per cent.

The total value of all farm build ings alone was given in 1910 as \$209,-200,000, as against \$100,223,000 in 1900 an increase of \$108,977,000, or 109 per

In 1910 the value of the farm land alone constituted 80 per cent of the total value of land and buildings, as compared with 86 per cent in 1900. The reported value of farm imple-

nents and machinery was \$56,533,000 in 1910, as against \$30,126,000 in 1900, a gain of \$26.407,000, or 88 per cent. The total acreage reported in 1910 was 109,226,000 in 1900, as compared

with 125,807,000 in 1900, a decrease

of 16,581,000 acres, or 13 per cent. The improved acreage was returned in 1910 as amounting to 27,120,000 acres, as against 19,576,000 in 1900, an increase of 7,544,000, or 39 per cent. The improved acreage formed 25

per cent of the total acreage in 1910,

and 16 per cent in 1900. The average acres per farm report ed in 1910 were 262, as against 357 in 1900, a decrease of 95 acres, or 27 per cent in 10 years. This decrease is caused largely by the subdivision of many large ranches and by the withdrawal from active use of the 20,000 -000 acres of land to which attention

has already been called. The average value per acre of farm land and buildings in 1910 is stated as \$16.69, as against \$5.50 in 1900, a rise of \$11.19, or 204 per cent.

The average value per acre of farm land alone in 1910 was reported as \$14.77, while in 1900 it was \$4.70, the amount of gain being \$10.17, or 214

Of the whole number, 416,377, of farms reported in 1910 there were 346,negro and other nonwhite farmers, as compared with a total of 352,190 in 1900, of which 286,654, or 81 per cent. were conducted by white farmers, and 65,536, or 19 per cent, by negro and other nonwhite. The increase in the number of farms of white farmers during the decade amounted to 59,911, and in the number of farms of negro and other nonwhite farmers to 4,276.

Bride Had but Exercised Recognized Privilege That Is Universally Granted.

A young couple had been courting for several years and the young man seemed to be in no hurry to marry Finally, one day, he said:

"Sal, I canna marry thee." "How's that?" asked she.

"I've changed my mind," he said. "Well, I'll tell thee what we'll do," said she. "If folks know that it's thee as has given be up I shanna be able to get another chap; but if they think I've given thee up I can get all I want. So we'll have banns published and when the wedding day comes the parson will say to thee Wilt thou have this man to be thy wedded husband?" I shall say: 'I winna."

The day came and when the minister asked the important question the man answered: "I will."

Then the parson said to the woman: "Wilt thou have this man to be thy wedded husband?" and she said: "I will."

PIMPLES COVERED HIS BACK

"My troubles began along in the summer in the hottest weather and took the form of small eruptions and itching and a kind of smarting pain. It took me mostly all over my back and kept getting worse until finally my back was covered with a mass of pimples which would burn and itch at night so that I could hardly stand it. This condition kept getting worse and worse until my back was a solid mass of big sores which would break open and run. My underclothing would be a clot of blood.

"I tried various remedies and salves for nearly three years and I was not getting any benefit. It seemed I was in eternal misery and could not sleep on my back or lean on a chair. I was finally given a set of the Cuticura Remedies and inside of two weeks I could see and feel a great relief. I kept on using Cuticura Soap, Ointment and also the Resolvent, and in about three or four months' time my back was nearly cured and I felt like a new being. Now I am in good health and no sign of any skin diseases and I am fully satisfied that Cuticura Remedies are the best ever made for skin diseases. I would not be without (Signed) W. A. Read what this man says. After using only two cakes of Resinol Soap and one-half jar of Resinol Ointment he cured sores and eruptions of long standing.

"I had a very sore face, and after trying most everything I thought I would try your Soap and Ointment. After using two cakes of Soap and part of a jar of Ointment I found them to be the greatest thing on earth. I advise all those who suffer from any skin disease to use Resinol Soap and Resinol Ointment. I am glad to say that my skin is nice and clear and I intend to use Resinol Soap as long as I can get it. T. K. MATHIEU, Philadelphia, Pa."

It is evident that common sense requires everybody everywhere to have on hand, ready for immediate use, the one standard remedy for all skin troubles. It is Resinol Ointment, put up in screw-top opal containers and selling at fifty cents or a dollar, according to size. This ointment should occupy a prominent place in every bathroom, on every medicine shelf and in every traveling bag, that it may be ready for immediate use. Resinol Ointment does not contain a particle of lead or mercury or other poison. It is absolutely non-irritant, and cannot injure the most delicate skin. It is highly recommended by physicians and nurses. For years Resinol Ointment has remained the standard remedy, noted for its effectiveness and complete harmlessness. It is sold by druggists everywhere.

Ended Cat's Sojourn. Felix Smith of Easton, Pa., bought a cat the other day. He paid \$5 for her. Why did Felix pay five bucks for the cat? Answer-Because she was guaranteed to be a good ratter. Did Felix have rats? We should say he did-the house was full of 'em And the cat cleaned 'em out! No; that's the curious part of it. After the cat had been on the job a week the rats were as plentiful as ever. Felix wouldn't understand it until one evening he concealed himself in the basement to watch the cat. About 9 p. m., as the cat sat with her eye on a rat hole, Felix says that rat after rat came out of the hole, walked up to the old cat, kissed her good-night and then returned to the hole. After that Felix kicked the cat out of the house.-Boston Post.
