## HIGH-GRADE REFRIGERATORS

Here are five representative values that we have selected from this co-operative sale of Refrigerators. The prices present a strong story of savings; about the quality of the Refrigerators there can be no possible doubt, and we would esteem it a personal favor if you will do us the honor to come in and inspect the Refrigerators.

The cases are built of solid oak, or Northern ash; they have double walls, with a heavy sheathing of mineral wool between. This prevents the warm air from entering and keeps the cold air from coming out, thus saving your ice bills and protecting your stuffs.

### COUNTIES STIRRED

#### BY SUNDAY GAMES.

Old-Fashioned Sabbath is Now in Danger, Declares Editor of Snow Hill Messenger.

Echoes of the auto campaigns Dr. Howard A. Kelly and Dr. W. W. Davis, of the Lord's Day Alliance, have been making through the counties on Sundays and stirring up the country people as to the Sunday recreation movement in Baltimore are beginning to reach the city through the columns of the county newspapers.

In the rural communities, with their peculiar conditions, the "old-fashioned Sunday" is regarded with the greatest veneration, and the Lord's Day Alliance speakers have convinced these that dire danger threatens.

For instance, down in Worcester county, the Snow Hill Messenger, published in Senator John Walter Smith's town, under the caption "Protect the Sabbath Day," says:

"We were surprised to read in the Baltimore papers that some ministers of the Gospel and some Sunday-school teachers were in favor of Sunday baseball for Baltimore. If this thing 'goes' in Baltimore, it will wind up in the counties, and we will have in the end a Continental Sabbath, with Sunday no more than any other day.

"When the people who profess to follow the teachings of Christ hold ideas they should be kicked out of the ministry and put out of the Sunday-school. Those who want the youth of our country to violate the commands of God to 'Remember the Sabbath Day' that the desire for play be gratified, ought to remember that it is greed for money that prevents such enjoyment.

"The solution of the problem is a Friday pay-day in Maryland and a Saturday half-holiday—the Friday pay-day to enable them to take their wages and make preparations for the holiday, so the whole family can have Saturday afternoon off.

"We notice that the men foremost in the movement for the violation of the Sabbath day have foreign names, and no doubt, they believe in a liberty that will break down the commands of the Holy Book, cast our true American ideals to the winds, to be followed by a social condition that will prove the greatest burden the working man has ever had to carry.

"Sunday baseball will be followed by other games; other games by other work; other work by all work, and then the working man will get seven days' work, no rest day and six days pay for seven days' work.

"Give the people a Saturday half-holiday for their enjoyment and health and let them keep the Sabbath day as God has commanded."—Baltimore News, June 14.

#### REGISTERS ANOTHER COMPLAINT ABOUT THE COUNTY HOME.

A Woman Visitor Finds Fault With Existing Conditions.

(Communicated.)

Mr. Editor:

At South river stands a beautiful old colonial home. Yes, "beautiful," for the keeper and his family. But oh, the poor old man in the end "cell" on the right in the basement, bent with rheumatism, infirm with age, and in a room so damp water stands on the walls.

Why cannot these old men have a room upstairs? Let them have the best the county provides, not the keeper and his family. Give the inmates the comforts which that home provides. Cross the beautiful grounds; see the poor colored folks in their "home." The flies are eating them. Not a screen. Belle Chase and another woman sleep in one small single bed on the left of the corridor.

See the poor old blind man that puts two of the colored women to bed at night! Last, but not least, go in the next room, (they call it the hospital), and see the dear old white woman. I am sure she is a lady. She has a clean feather bed under her, but the spring on the bed touches the floor. Her husband attends her. He, in his turn, declares that if things do not get better he is going to leave the "Home" and let the county take charge of her. That's a man's way of looking at things—run from it—(some of them.) New beds have been promised, but are late in coming. Can't some of the people of Anne Arundel county give this old woman a spring for her bed? Will not the people see to having the place screened for the poor souls? (Signed)

MRS. JOHN PARKINSON,

#### WOULD VIGOROUSLY PROTEST.

Against School System—Average Child Should Get Through Grade Each Year.

(Communicated.)

June 19, 1915.

The Evening Capital,

Mr. Editor:

Can you tell me the percentage of scholars that failed this year in our public school. (Grammar.)

I have heard it was, as high as forty per cent. Is this so? If this is so, then, I desire to protest most vigorously against our system which retains an incompetent staff of teachers.

I have two children attending school. Both the average normal child. Both failed, one of them for the second time. This means that when the next school year begins, he will for the third time enter the same grade. It is difficult for me to believe that, with average teaching, any average boy could not get through a grade in two years.

Very truly yours,

J. S. DANIELS.
