WASHINGTON LETTER, Chraneville.

(From our regular correspondent.)

I do not think it exaggeration to

say that many of the government plished more work in the last month this writing. than was accomplished in any two months of the preceding year. I say have not done much for the reason that there is not much for them to incompetence of the clerks, are far - 1 00 behind with their work. This is especially the case with the patent, 1 00 pension and land offices, but within the last month wonderful progress - I 00 has been made, and it is probable that the vexatious and unnecessary delays that have driven applicants for patents and pensions to despair will be suffered no longer.

From the president down to his last appointment, the personel of the administration is capable of hard work and it has evidently this object in view more than pleasure, emolument or fame. The cabinet of the new president are not men with itching palms. They are men of sufficient wealth, or rather men to whom their wealth is sufficient. So it is with the recent bureau appointees, a gentleman whose fortune is not less than \$150,000 was last week appointed to an office in one of the departments, the salary of which is only \$3,000. He did not need the ofce but the office needed him.

Heretofore the staples of recommendation for office have been poverty and patriotism. He needs the corder will let him "Rue." a good soldier. No queston as to fitness is considered, and thus the

incompetent to fill, should end.
