THE BULLETIN.
BY TELEGRAPH.
NEW YORK.

NEW YORK, September 4.—George E. Thrall, pastor of the Emanuel church, on Fifty-seventh street, has, at the request of his congregation, adopted the study of urban prayer book, which differs from that in use in the diocese of New York.

Mr. Thrall states that this ritual is the work of a number of divines, but this country and England was far from its passage which had given rise to a controversy of contention in the church. The congregation seemed pleased with the changes made in the old, and responded with great heartiness. This withdrawal from the Protestant Episcopal church it is thought may prove the beginning of serious schism.

Several natives of the Province of Hohenzollern, Germany, yesterday took action to contribute to the fund for the erection of a monument in the town of Sigmaringen, in memory of the native Hohenzollerns who lost their lives on the battle-fields of France.

The executive committee of the German national association has issued a circular calling on the members to attend a mass meeting at the Cooper Institute in reference to the condition of the city financial affairs and the corruption of the city government, this evening.

An inmate of the house of Madam Van Bakirk, the alleged abortifacient, says that the deceased girl, Emily A. Hoyt, gave birth to a child, August 26th. On Saturday the child died, and the physician who made the post mortem examination, thinks its death was caused by accidental suffocation, but circumstances in the case create suspicion. The infant was buried today.

Some accounts of the county expenditure are again published to-day. These accounts, said to be taken from the list furnished by the mayor and comptroller, show that in 1869 and 1871, nearly thirteen and a half million dollars were taken from the public treasury, of which five and three quarters million went to Enger, and nearly three million to A. J. Garvey, and a million and a quarter to Keyser & Co., and three-quarters of a million, which is said to be unpaid, to J. A. Smith, who is believed to be a myth.

The Irish are beginning action in reference to alleged frauds on the city treasury. At a meeting of the Irish democrats Saturday, resolutions were passed calling upon the comptroller to resign, and denounced generally the speculation ring.

It was decided to have a public meeting to further carry out the objects of the association.

An announcement was made that the democratic state committee will meet at Albany on Wednesday next to designate the time and place for holding the democratic state convention.

ENGLAND.
LONDON, September 4.—A correspondent who, on an invitation, accompanies the king of Spain on a three week's journey through the provinces, telegraphs from Alhambra that the royal party had reached that place Saturday evening, having made thirty-six stages that day.

On the route from Madrid the king was everywhere received with enthusiasm. Deputations presented him addresses of loyalty to which he graciously replied. His spoke, even with the poorest, listening with the greatest patience to his requests, suggestions and petitions he is receiving, and he is winning the hearts of everybody.

In a personal conversation with the king he said that he desired that Spain should be well understood by the United States, and that friendship between the two countries should be cultivated.

LONDON, September 4.—Queen Victoria is still confined to the house.

The steaming Bristol, of New York, touched at Queenstown and proceeded to Liverpool.

Remonstrances touched at Plymouth and proceeded to Hamburg.

IRELAND.
DUBLIN, September 3.—A monster demonstration was held to-night with a vast procession. A hundred thousand people were present at the meeting at Phoenix Park. Messrs. Smyth, Bull and Norton spoke. Resolutions demanding the release of the Fenians were adopted. As the people were returning several collisions took place. The police officers drew their staves and the people used sticks and stones. The latter gradually dispersed. Many arrests were made.

DUBLIN, September 4.—In the riot yesterday only six policemen were injured, and is slightly hurt. Twenty-seven rioters were arrested. Disorderly persons in the streets all night singing sedition songs. The police station was beset with the blows of the wounded.

CHINA.
DIABETIC TYPHOUS.
HONG KONG, Sept. 4.—A most disastrous typhoid visited this vicinity yesterday. Three vessels were driven ashore and much damage done on land.

FRANCE.
PARIS, Sept. 4.—To-day being the first anniversary of the downfall of the empire and the proclamation of the republic, military precautions were taken against any dangerous demonstration. The day passed off quietly.

DISARMAMENT.
 The disarmament of the national guards in the cities of southern France will begin on the 15th inst.

Troops have been concentrated in such a manner as to insure prompt obedience to the law.

As soon as the disarmament is completed the state of the siege will be raised.

In the assembly to-day the minister of war informed the chamber that the commission appointed to investigate the capitulations during the late war would meet on the 15th.

A bill providing for a tax on new papers was adopted.

BERLIN, Sept. 4.—Bismarck Bohtens has been relieved from the government of Alsace and Lorraine, and promoted to the rank of general.

LONDON, Sept. 4.—A special despatch to the Standard, from Spain, says that the progress of king Amadeus from Albatte is one continuous ovation.

The steamer Colodon, from New York, arrived out.

CHICAGO.
DIRECT FROM EUROPE TO CHICAGO.

CHICAGO, Sept. 4.—The Tribune of this morning contains another editorial on the advantages of importing goods to the west direct from Europe via the St. Lawrence river.

This advantage arises from the delays in the New York custom house, the charges of storage, cartage and various other plundering devices. It is a demonstrated fact that a Chicago merchant has a stock of goods reach New York by steamer on a given day, and he orders a duplicate stock from a New York house on the same day, the latter will be delivered and sold off before the stock imported will be allowed to reach Chicago. The result of this is that fifty millions dollars worth of imported goods sold in Chicago in 1870 less than fifty million dollars worth were imported direct from Europe. It was found to be less expensive to pay from 20 to 30 per cent. profit to New York importers than to bear the losses of delay and thieving in and around the New York custom house.

Fortunately, however, there is a means of escape from the New York custom house and the importers and jobbers of that city, and that is by direct importation by way of the St. Lawrence.

If we have to pay tolls in New York on all goods passing through that city and can have the same goods delivered at the custom house in this city by way of Montreal free from all such tolls, it certainly will not require much consideration as to which is the best route. We understand the daily receipts for custom duties in this port, on direct importations, averages about twenty thousand dollars.

It is not saying too much to assume there will be sold in Chicago, during the year 1871, \$70,000,000 worth of imported goods of all kinds. They are distributed to all parts of the west, north and south. Every cent added to their cost is a cent levied upon consumers, and when this vast amount of foreign goods can be delivered in Chicago 20 per cent. less than they can be purchased from New York jobbers, or less than they will cost after going through the New York custom-house, it becomes a matter of deep interest to consumers, and of great importance to the trade of this city.

We have just had an importation of dry goods from Liverpool to Chicago by steam in 22 days. Even this time can be shortened; but at present we can compete in sales of foreign goods with New York.

We can deliver grain from Chicago on board Liverpool steamers at Montreal for less money per bushel, than we can deliver it at New York, and in less time and better condition than it can be delivered at the latter place by the Erie canal. This brings the Liverpool market that much closer, and makes Montreal, proportionately, a better market.

The increase of trade, both exporting and importing, will hasten the completion of the improvement of the canal, and by increasing the depth and width of the river and canals, will shorten time, increase the capacity of the steamers employed, and reduce freights. Everything demands a general adoption of the St. Lawrence river route by the merchants of Chicago and the west for their foreign trade.

Rev. Charles M. Fox, D. D., rector of the church of the Epiphany, died this p. m. of malignant carbuncle. Mr. Fox came from New Jersey to this city but a short time since to accept the rectorship of the above church.

Southern Illinois is suffering from drouth. The wells and cisterns are fast drying up.

The internal revenue receipts in this district for the month of August aggregate \$121,330.

MARKETS BY TELEGRAPH.
CHICAGO, September 4.
PROVISIONS—Quiet.
