EGYPT.

A Blast for Cairo—What it Used to Be, and What it is—Triumph of Enterprise over Obstacles—Dickens' "Eden" an Eden Indeed.

To the Editor of the Chicago Evening Post: Did you ever visit Southern Illinois, sometimes called "Egypt"? If not, come with me. This beautiful city at the junction of the Ohio and Mississippi rivers, is called Cairo. Why it received this name I cannot tell, unless it was thought it might eventually outlive in splendor and oriental magnificence the ancient city of the Nile, and become the depository of all the wisdom of the modern Egypt—the center of civilization and the mother of the arts and sciences—the great fountain of light from which should pour rays of such effulgence as to illuminate the darkened understandings of the barbarians of the New World in the nineteenth century.

Now what do we see? Their fond expectations are surely though gradually being realized. The desert has been made to blossom like the rose. Long lines of spacious business houses, elegant residences and beautiful temples dedicated to religion and education stretch across what was once only a marshy flat, where the wildcat and the rattlesnake (to say nothing of the copperheads) fought for the supremacy; where the red man of the forest, hidden beneath its reeds and fens watched the approach of civilization with a jealous more cruel than the Blue Beard of fable, or the Sepoy of India.

eligible of any for the future location of our great political centre. Thus, Mr. Editor, it is easily to be seen that those who speak derisively of Cairo and its surroundings do not know what they are talking about—do not understand its present and prospective glory. Having thus given your readers an introduction to "Egypt's" chief city, I will take pleasure in continuing the tour through this part of Illinois when opportunity offers. BELZONI.
