

## SHORT ITEMS OF USEFUL INFORMATION

Germany is making synthetic gas-  
the brown coal-tar.

As aluminum bearing deposit, be-  
lieved to contain one hundred and  
fifty million tons of aluminum, has  
been discovered near Tapoleza, Hun-  
gary. This is one of the largest de-  
posits in existence.

Four women, arrested in Chicago  
for stealing from department stores,  
were sentenced to go to church every  
Sunday for a year. They must be  
there at 10 o'clock every night and  
wash and dry the dishes every day.

The Knights of Columbus are plan-

ning to purchase twenty-six hundred  
acres at Nassau, Bahama Islands,  
which includes the authentic landing  
place of Christopher Columbus, the  
patron saint of the order. The estate  
will be maintained in perpetuity by  
the New York State Council of the  
order.

To commemorate the termination  
of the war, the coinage of "peace" dol-  
lars of an appropriate design is pro-  
posed in a bill recently introduced in  
the House.

A 23-year old aviatrix recent-  
ly broke the world's loop-the-loop re-  
cord when starting at the height of

8,000 feet she performed 199 complete  
loops before she landed her plane.  
The entire flight consumed one hour  
and twenty minutes.

Federal prohibition agents are di-  
recting their attention to druggists  
who are profiteering on whiskey sold  
for medical purposes. Liquor bought  
on prescriptions for sick people have  
in some instances been found to have  
been adulterated with prune juice and  
water and sold at the price charged  
for pure liquor.

The highest and lowest points of  
land in the United States are but  
ninety miles apart. Mount Whitney,  
the highest point is 14,501 feet above  
the level of the sea and a depression  
in Death Valley lies two hundred and  
seventy-six feet below sea level. Both  
are in California.

The Bakerfield, California, high  
school boys recently sent out mys-  
terious S. O. S. radio calls which re-  
sulted in the dispatching of two de-  
stroyers from Southern California in  
search of a vessel in distress. The  
maximum penalty for sending out  
false distress signals is a fine of \$2,  
500 and five years' imprisonment.

Such a flood of gold from all the  
world has been pouring into New  
York in recent weeks that the Assay  
Office has not kept up with the in-  
coming shipments even by working a  
twenty-four hour shift. Shippers have  
been requested to divert import con-  
signments to the Philadelphia mint.  
Most of it is coming from France,  
England, Holland, Sweden, Turkey, In-  
dia, China and the South American  
countries.

Hot storage as opposed to cold  
storage for many things may be re-  
alized soon if the experiments of  
scientists connected with the Univer-  
sity of West Virginia prove satisfac-  
tory. Great success has been attain-  
ed in showing the practicability of  
hot storage for such articles as cloth-  
ing, carpets, furs, cereals, dried fruit,  
products and other materials unaf-  
fected by dry heat. Hot storage with uni-  
form and constant temperature of 100  
degrees Fahrenheit would prove more  
effective than cold storage in many  
cases.

### SALT IS INJURIOUS

If while dining you dally with the  
salt sprinkler, shake it sparingly, or  
"shake it" altogether.

That is the advice proffered by Dr.  
Charles Woodward in a paper read in  
Chicago at the convention of the Tri-  
state Medical and Surgical Societies  
of Wisconsin, Michigan and Illinois,  
recently. "Fifteen to thirty grains of  
salt a day," said he, "is the maximum  
amount that should be taken into the  
human system. Yet people in general  
are digging their own graves by eat-  
ing too much salt. In fact, it is a  
common thing for some persons to eat  
from 100 to 300 or even 400 grains of  
salt a day, counting the amount found  
in salt foods."

And here is an opinion carefully  
dictated by Dr. Royal S. Copeland,  
commissioner of the city's department  
of health:

"A man who sits down to the table  
and begins his meal by shaking the  
salt sprinkler over every article of  
food, on his plate is counting disease.  
Excess of salt in the system ex-  
tracts from the tissues their fluid contents,  
causes hardening of the arteries, re-  
sults in degenerative changes in the  
various organs and predisposes to var-  
ious degenerative diseases."

### NOTICE OF APPLICATION FOR LEAVE TO SELL MINORS' LAND

Notice is hereby given to all whom  
it may concern, that Mariah Eugenia  
Knight as guardian of Sam B. Knight  
and Lunis Knight minors will, on the  
27th day of July, A. D. 1921, apply to  
the Honorable L. E. Futch, County  
Judge in and for Marion County, at  
ten o'clock a. m., or as soon there-  
after as the matter can be heard for  
authority to sell, at private sale, the  
following described real estate, in Mar-  
ion County, Florida, to-wit:

Commencing twelve chains south of  
the northeast corner of northwest  
quarter of southeast quarter of sec-  
tion 1, township 15 south, range 22  
east, thence south eight chains, thence  
west 10 chains, thence north eight  
chains, thence east ten chains to point  
of beginning, and also southwest quar-  
ter of northwest quarter of southeast  
quarter of section 1, township 15  
south, range 22 east.

Said land belonging to the estate  
of Samuel Staten Knight deceased  
and to be sold for the best interest  
of said minors. Dated June 23, A.  
D. 1921.

MARIAH EUGENIA KNIGHT,  
Guardian of Sam B. Knight and  
Lunis Knight, Minors. 6-24-21.

### SUGAR

## Civilization's Greatest Achievement

Some Eskimos were brought down to  
Edmonton, Alberta, on official business.

They had never before been south of the  
Arctic Circle.

They had never seen a street, a town, a  
window, or a wooden door. A bed, a water  
tap, and an electric light produced completely  
new sensations. Street cars were unknown  
to them; telephones unheard of; trains not to  
be believed even when beheld.

They had never seen an automobile until  
someone took them riding in one. They had  
never set their eyes on an airplane until some-  
one did his most daring stunts in one to thrill  
them. They had never even seen a movie!

But what do you suppose moved them most  
in the whole bag of tricks which civilization  
produced for their amusement and amazement?

What seemed to them the greatest wonder  
of all?

The cold storage plants!

The White Man didn't always have to  
hunt and fish when he wanted to eat!

Here was civilization's greatest gift, its  
greatest benefaction.

This feature of civilization makes it possible for  
Swift & Company, in the season of over production,  
to store a supply of food for distribution in the season  
of scant, or non-production. Thus we are able to  
maintain for all a constant supply of such choice and  
necessary foods as Premium Milk-fed Chickens,  
Brookfield Butter and Brookfield Eggs.

Swift & Company, U. S. A.

## Sure enough, the old bus went back on me

IT WAS a whale.  
OF A hill, and the old bus.  
GROANED AND shuddered.  
AND FINALLY stalled.  
AND YOU could fry eggs.  
ON THE radiator.  
WELL, WHAT I know.  
ABOUT BUZZ wagons.  
COULD BE written big.  
ON A postage stamp.  
BUT I fiddled around.  
AND TORE my new shirt.  
AND GOT all smeared up.  
THE ENGINE would start.  
BUT LIZZIE wouldn't.  
NOT ON that hill.  
SO I quit and lit up.  
ONE OF my cigarettes.  
AND THOUGHT it over.  
THEN I had a hunch.

PUSHED HER around.  
PULLED A thing-a-ma-jig.  
AND THE blame boat.  
BACKED UP the hill.  
WITHOUT EVEN hesitating.  
SO I learned a trick.  
WHICH EVERY driver.  
SHOULD REMEMBER.  
WHEN IN doubt, light up.  
A "SATISFY" cigarette.  
FOR WITH one of those.  
GEARED TO your teeth.  
YOU CAN start anything.

IT didn't take much persuasion to  
get Chesterfields going—they're  
self-starters. That blend of fine Turk-  
ish and Domestic tobaccos makes  
friends by the millions. Another thing  
—you don't find a Chesterfield smok-  
er "shifting" brands—he's in "high"  
all the time.

They Satisfy **Chesterfield**  
CIGARETTES

LIGGETT & MYERS TOBACCO CO.

### Whooping Cough

This is a very dangerous disease,  
particularly to children under five  
years of age, but when no paregoric,  
codeine or other opiate is given, is  
easily cured by giving Chamberlain's  
Cough Remedy. Most people believe  
that it must run its course, not know-

ing that the time is very much short-  
ened, and that there is little danger  
from the disease when this remedy is  
given. It has been used in many ep-  
idemics of whooping cough, with pre-  
nounced success. It is safe and pleas-  
ant to take.—adv.

### Chamberlain's Colic and Diarrhoea Remedy

Every family should keep this pre-  
paration at hand during the hot of the  
summer months. It is almost sure to  
be needed, and when that time comes,  
is worth many times its cost. Buy it  
now.—Ad-1 mo.
