If you find any substance in your baking injurious to health made from baking powder in this can there is—

\$1000 In it for you

The makers of certain Baking Powders have recently been shouting, "purity, purity, purity!" All other manufacturers have been openly accused of offering an impure product. Calumet, as the largest competitor, has of course come in for its share. But we simply smiled—as our business grew.

For Calumet has been backed for years by an offer of \$1,000 for any substance injurious to health found in the baking prepared with it. This offer has never been challenged.

Don't you think that if there was the least trace of impurity in Calumet that our competitors would be the first to jump at this offer? Wouldn't this be an ideal way of putting our product off the market entirely?

Does not this and the fact that it complies with all pure food laws, both State and National, prove that Calumet is absolutely pure?

With the purity question settled—then Calumet is undoubtedly the best Baking Powder. It contains more leavening power; it is more uniform—every can is the same. It assures better results—and it is moderate in price.

Received Highest Award World's Pure Food Exposition, Chicago, 1907

CALUMET BAKING POWDER

Pure in the Can—Pure in the Baking.
