Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Address me Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now "Dr. Shoop's Restorative. Sold by A. P. Slocum.

If You Really Want a Swell

RUNABOUT

We can fulfill your most fastidious wish. We have just received a line of the famous Racine Sattley buggies, rubber tired with yellow gear, or any way you may want them, and can recommend them for the best and very latest thing on the market. We have already disposed of a number of the jobs and they are the talk of the country. In fact, we are headquarters for buggies of all kinds.

It makes no difference what you want. We have the durable Runabout, or Road Wagon that sells for a moderate price. This rig will last just as long and wear just as well as any buggy in the house. It is handsomely painted and good enough for anyone who wants a moderate priced buggy.

We have higher priced buggies, the prices ranging to suit everybody.

We handle spring wagons, top buggies, surreys, runabouts, and wagons.

There are cheaper wagons than the T. G. Mandt, but there's not a wagon on the market that will give the service for the money.

IMPORTANT CROP FACTS

Farmers generally in almost every section are very "blue" over the unfavorable grain crop outlook at this time, but there is one crop that they need not feel doubtful about and which becomes of more than usual importance to them by reason of the uncertain outlook as to other crops, and this is the MILK CROP, which continues month in and month out and of which it has well been said "the harvest never ends." There is nothing doubtful about the outlook for the milk crop. Dairy product prices have been high and promise to continue so. The uncertainty about other crops makes it all the more important to make the most of the one that is sure. There is only one way to make the most of it, to be certain of recovering all the butter-fat with the least effort and under the most favorable conditions, that is with the help of

A DE LAVAL CREAM SEPARATOR

Every farmer with milk to separate needs a separator, and there never was a better time to make the purchase of one. There can hardly be good reason to defer putting in a machine or replacing a poor one with a DE LAVAL. Machines are made in all sizes to meet all conditions, and may either be bought for cash or on such liberal terms that they will actually save their own cost while you are paying for them. Catalogue with full particulars is to be had for the asking.
