### MINOT and VICINITY

Miss Mildred Baker, a student at the Normal school, is recovering from an attack of the flu.

Ira L. Rush, architect, has moved his offices into permanent quarters in the Stons of Norway block opposite the viaduct.

Martin Engeseth, Register of Deeds, is suffering from the flu at his home. He is reported better. Mrs. Engeseth has recovered from the disease.

Mrs. J. J. Ryan of Missoula, Mont., who arrived in the city two weeks ago to attend the funeral of her brother, Joseph Reichert, and has since been visiting relatives here and at Burlington, left Wednesday for her home at Missoula.

Mrs. O. G. Nordmarken, First street N. E., is slowly convalescing from a long siege of the influenza. Mr. Nordmarken, who travels for the DeLo lighting systems, has been obliged to remain at home for the past three weeks as a consequence of his wife's illness, but expects to be able to enter an active season's campaign for his firm in this territory.

The Atlantic elevator at Douglas, the Farmers elevator at Greene and the Farmers elevator at Russell were all destroyed by fire on Tuesday of last week. The fire at Douglas was caused by an overturned lantern, the accident happening while repairs were being made to the machinery in the pit. We have not learned particulars regarding the other fires.

Martin Jacobson attended the Williston stock sale last week. The sale was a fair success, however the supply of stock exceeded the demand. Powers & Lowe, breeders of Scotch bred

Shorthorns, Culbertson, Mont., sold the best heifer at \$1250 and their cattle sold at an average of \$800. The best Hereford, which was not an extra good one, sold for \$550.

Howard Nichols, of the Ward Drug Co., returned Saturday from Roundup, Mont., where he had been for a few days on business. He says Roundup is a hustling little city of about four thousand people. He says the oil wells are all situated some distance from town but none are in operation at present, having been capped while storage tanks are being constructed to care for the oil as it is pumped from the wells. He says these tanks or reservoirs are enormous affairs, having a capacity of several hundred thousand gallons each.

### Novak-Texel Ladies' & Men's Tailors Enlarge Quarters.

J. A. Novak, Main street tailor, owing to the immense increase in his business, has taken Ludwig Texel in as a partner under the firm name of Novak & Texel, Ladies and Men's Tailors. Their former quarters in the Le-Sueur block have been enlarged to include all the rooms on the main or basement floor, occupying the rooms until recently used by the Gross Printery. With this addition to their quarters the new firm now has a suite of very convenient rooms for their business. The display and salesrooms will occupy the front rooms while the workmen will be at the back where there is excellent light facilities. This firm is attaining an enviable reputation for the superior quality of their work and their clientele is daily increasing. The location of their business makes it particularly convenient not alone for the local trade but for the transient visitors as well. We bespeak for the firm a goodly share of

the custom in their line from the trade of both the city and vicinity.

**WANTED—Clean cotton rags at the Independent office.**
