Auto Repairing Carefully Done

It is much better to have your car repaired by one of our expert workmen, and then you know that the work is carefully and correctly handled.

It is much more convenient to supply accessory needs before you start on your trip, for often out on the road you are not able to secure what you need when you need it most.

We will inspect your car thoroughly and advise repairs only when needed.

Drive in to-day and let us test your engine.

The Automart

What Have You Done to 'Keep 'Em Down on the Farm'

The shorter hours' fad has not struck women on the farm. They are working at least thirteen hours a day.

The Nebraska College of Agriculture has made a survey of 850 Nebraska farm homes and found the situation this:

Only 30 per cent of the farm homes have running water.

Sixty-five per cent of the women carry water on an average of fifty-five feet.

Only 17 per cent of farm homes are lighted by electricity or gas.

Ninety-nine per cent of farm women are doing the family washing and ironing.

Twenty-eight per cent of these are still washing with a board and tub, and only 20 per cent have gas or electric irons.

Less than 3 per cent of farm women work in the fields.

Twenty-three per cent help care for live stock and 42 per cent help with the milking.

Women produce 95 per cent of the poultry products.

Ninety-eight per cent of farm women bake their own bread.

Ninety-seven per cent do the family washing.

Fifteen per cent of farm homes have bath tubs.

Seventy-seven per cent have kerosene stoves.

Rev. and Mrs. Clifford on Way Home

Rev. and Mrs. C. L. Clifford, who have spent the summer at their summer home at Mirror Lake, near Sparta, Wis., are on their way back to Minot by auto. The Independent received the following card from them Monday:

"Dear Friends: Our Summer Home, Pine Cliff Retreat, is at the center of Wisconsin's unsurpassed scenery. God finished some of his 'handiwork' in this region. He neighbors with folks here still. Rare opportunities for rest and recuperation have been ours. We have thought of you all and trust that the weeks have brought to you many enriching experiences. Our hearts are hungry to see you. In a few days we start by auto on our thousand mile return trip back to Minot. We would be very glad to meet you at the services of Vincent church Sunday, August 29.

"Very sincerely,
"The CLIFFORDS."

Harry Hardy Sustains Fire Loss

Mr. and Mrs. Harry Hardy, prominent farmers residing a couple of miles west of Rose, sustained quite a loss by fire last Monday morning. During Sunday night and Monday morning a severe electrical storm passed over this part of the state. Towards the early morning, the Hardy family discovered that there was fire in their granary and auto shed. However the fire was discovered so late that it was impossible to save anything, and their Ford auto, several sets of harness and about 200 chickens were all destroyed by the fire. It is thought that a bolt of lightning must have struck the buildings and started the fire.

Predicts Advance in North Dakota Land

Mr. and Mrs. Paul Evans and daughter, Miss Ruth Evans, of Marshall, Mo., arrived Saturday for a visit at the home of Mr. Evans' sister, Mrs. G. D. Colcord, and with his parents, Mr. and Mrs. Robert Evans of Tarning township. Mr. Evans owns a half section of land in Tarning township which he is considering selling. He recently bought a farm near Marshall, Mo., for \$400.00 per

acre, a very high price as compared with North Dakota values, but he believes that land here cannot help but advance rapidly with two or three average crops.

Do You Want a Public Office?

Here is a chance for two Ward county men to get offices. There are four justices of the peace to be elected in November. C. B. Davis of Minot and Evan Griffith of Kenmare are the only candidates nominated in the primaries. Two more are to be elected and this will have to be done with stickers or by writing in the names. If you want a job that doesn't pay extra well, but one which will keep you fairly miserable, get busy with your stickers.

Cars Collided

Guy F. Humphreys met with an auto accident out on the Burlington road Friday evening, due to carelessness on the part of a driver of a Washington car. The two cars met and Humphreys was crowded to the edge of a ditch, unable to get out of the road an inch farther. The oncoming car struck his rear hub, damaging the Humphreys machine to the extent of about \$15, and nearly forcing the car into the ditch. The Washington car lost a fender and got very much the worst of the deal. No one was injured.

Wm. Ehr's Oats Averaged 70 Bushels

Wm. Ehr threshed 42 acres of oats at his farm west of the city, that averaged 70 bushels per acre and weighed 38 pounds to the bushel measure. He also threshed some wheat last week which averaged from ten bushels to the acre on one field to twenty bushels on another. The wheat while yielding fair, is not considered extra good for seed, as it is somewhat shriveled, due no doubt to the hot weather.

Worth Knowing

Lemon juice improves a white fish salad.

Keep on hand a small brush for washing vegetables.

Lemon juice will improve the flavor of stewed figs.

Egg and milk dishes should be baked in a slow oven.

It is quite true that monotony will kill a healthy appetite.

After a heavy dinner serve a fruit dessert or an ice.

Dunn Visits Mother in Michigan

E. A. Dunn is visiting his aged mother at Gobleville, Mich., who is 83 years of age. Mr. Dunn, who operated a dairy south of Minot for five years, sold most of his cows recently at a sale, the average price received being \$87. One Guernsey cow brot \$147 and another \$145. He sold all but sixteen cows which he will dispose of later. Geo. A. State was the auctioneer.

New York Always at the Fore

New York is the foremost city in more than population. Minot men returning from the metropolis say that whiskey is served openly in the large restaurants for 75 cents a glass, which formerly brot 15 cents over the bar. Whiskey is delivered at your door at \$60 a case of twelve quarts and it is suspected that revenue officers have their fingers in the pie.

Handy Salt Shakers

A handy salt, pepper or sugar carrier for hiking or camping is made by sawing from a bamboo stick a section seven or eight inches in length, having a joint in the center. Fill one end with salt and the other with sugar or pepper. Then insert a cork in each end.

Young Soldier Invests in Land

J. J. Brand's son purchased a 160 acre farm from G. O. Frank, thirteen miles south of Minot. The young man saw service in France and he invested the money he saved while fighting for Uncle Sam in this land.

Erb's Wheat Averaged 12 Bushels

Al Erb from north of the city

threshed Friday and marketed some of his wheat at the Farmers Co-operative Elevator. The wheat averaged 12 bushels and would have gone better, but for damage from rust.

Get rid of those red ants by placing small bags of sulphur in the closets, drawers and cupboards they frequent.

ELECTRIC

Improve the Old Home

Wire for Electricity

You'll hardly realize you are living in the same dwelling when you once have your home wired for Electric Service.

The joy of press-a-button lighting is only one of the pleasures that await you when your home is wired. Electric Service also places at your disposal a score or more of Electrical Servants who will lighten the labor of the home the moment you give them the opportunity.
