Loans money on good Pembina County real estate. Every borrower is a shareholder and participate in the profits the same as the investor. Every dollar paid in pays part of the debt and is also palced at interest for the benefit of the shareholders. From experience it is found that from 108 to 11 monthly payments pays the principal and interest on any sum borrowed. Monthly payments are 50 cents per share and $1 per hundred of sum borrowed. No bonus. This form of borrowin money is especiall convenient and profitable to wage earners and salaried men who want to own their own homes. The monthly payments are less than rent, and this for mof "rent" buys the home.

NOTICE TO CREDITORS.
In the matter of the estate of John C. Westbrook, deceased.
Notice is hereby given by the undersigned Elis Thorwaldson administrator of the estate of John C. Westbrook late of the township of Neche in the county of Pembina and state of North Dakota, deceased, to the creditors of, and all persons having claims against, said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice, to said administrator at his place of business in the village of Mountain in said Pembina county:
Dated May 3rd, A. D. 1911.
ELIS THORWALDSON,
Administrator.
First publication on the 5th day of May A. D. 1911.

The Worral Inquest.
The corronor's jury which has been sitting with adjourned sessions for considerable time at Neche over the body that was found in the Aymond woods, have so far as the evidence has been given out, only discovered that there are some rather suspicious circumstances connected with the disappearance of the man. It will be remembered that the man was confined in the customs detention shack at Neche about a year ago with the object of sending him back to Canada as an undesirable Later he disappeared. It was then thonght that he had broken out through a window and run away. When found there was a bottle that had contained carbolic acid and the first theory was that he had committed suicide. But it was testified that after the man had gone the wire over the window was still intact though it was afterwards cut. Two telephone girls say they saw two men carrying something that looked like a body on the night of the disappearance. Things about the place where the body was found indicated that the body was placed there and some excavating done as for burial. But there seems to be no direct evidence pointing to any person as having done anything criminal. Dr. Burrows who was recently at Toronto, found records of a man named Lawrence Grundy who escaped from the insane asylum there and from the description it would appear that that was the man whose body was found in the woods.

How to Plant Trees.
L. R. Waldon in third annual report Dickenson sud-station, says:— In planting trees we take ground at least two years old. Deep furrows are plowed every 8 feet. The trees that are used are generally saedlings from 18 to 24 inches high. A pail of very thin mud is prepared and a bunch of each kind of trees is kept in it. Trees are planted by one man, using a spade. The spade is inserted at the bottom of the furrow and worked back and forth to form a wedge-shaped opening. The root of the tree is inserted as the spade is withdrawn. After the removal of the spade dirt is pressed firmly around the roots of the tree. The furrow is partly filled in by a corn cultivator straddling each row of trees. It is better to leave the furrow only partly filled in, for by so doing the water from the rains will run into the furrow keeping the trees moist.
