### THE DAILY EMPIRE.

ROBINSON & SHEWARD Office, 110 Main st., bet. 3d and Market

DAYTON, OHIO.

Monday. - - - February 11, 1867

Our National Bank Heavy Weights. A few days since the Columbus Journal, in a furid moment of political virtue, made the remark that "there is no other country than ours in the civilized world, where the Government would be guilty of the absurdity of paying a corporation a bonus of something like nineteen million, eight hundred thousand dollars per annum in gold, for undertaking the pleasing duty of furnishing the public with notes, payable there is a region of the states adoption of the constitution only of the States adopting it. It is a Federal Constitution and not a National Government."

Now if Winners was made by the States, and not by the people of the states, unlied. It was voted for by the states unlied. It was voted for the states unlied. It was voted for the states unlied. It is a very large that the constitution was made by the States, and not by the people of the states unlied. It was voted for by the states unlied. It was voted for by the states unlied. It is a very large that the constitution only of the States adoption of the constitution of the states unlied. It was voted for by the states unlied. It is a very large that the convention, submitted in the constitution only of the States adoption of the constitution of the states unlied. It was voted for by the states unlied. It is a very large that the convention, submitted in the constitution of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the convention of the states unlied. It is a very large that the very large that the very large that the very large that the very large that th in a fueld moment of political virtue, made furnishing the public with notes, payable at no particular time, without interest, to be and circulate as money. Yet, the Government of the United States, like a good and patient old donkey, carries this load with only occasional groams; pays the National banks interest to the amount of from five to six per cent. per annum in gold on its own notes, while it allows them the privilege of circulating their notes as money, free of interest—guaranteeing, in addition to this, that they shall not be required to pay any tax upon capital invested in Government obligations, for which they receive interest."

We made a brief note of this Radical infidelity, at the time, thinking, possibly it might be a count in the indictment of the Journal's "loyalty," terminating in its conviction and execution-from the party. Strange as it may seem, however, there has, as yet, been no procedure of the kind instituted. The Journal, too, went abroad bor of a large number of men and some for evidence to convict one Black Republican statesman of a high crime against the deprived of their liberty! substantial monetary interests of our people; saying that the Bank of England, on its issue of £14,000,000, is required to pay to the Government a bonus of £180,000 auis exempted, only, from stamp duties on the statute by which they had been congland upon its circulation-the Bank paying the money to the Government for the National Banks a bonus of not less than the privilege of issuing notes payable in white trush!" other notes, on demand.

The actual investment made by the Banks in government bonds, for the security of their circulation, is only ten per cent. of the amount upon which they draw interest from the Government. That is to say, for every million deliars in U. S. securities deposited by Banks, they receive back \$900,-000 in "lawful money," (their own notes, which they use in their business the same as any other money.) while the Government pays high interest on the total amount just weak enough to imagine that the people of the securities, one million dollars. Thus the Banks, having disbursed but \$10,000,-000, draw interest upon \$1,000,00 in govern-

This is certainly very sensible talk for the central organ of Ohio Radicalism.

We noticed the other day an article in the Journal, of this city, professedly editerial, commenting somewhat severely upon the Day Book, because of the assertion by the latter that a few years ago the masses of the people egged and otherwise ernments of the Southern States, why can't maltreated Abolition lecturers, and were the next Congress abrogate Governments' only restrained from committing further recognized by this Congress, and one Conassaults by the intelligent class of the community; and as we conned it over, we could not help thinking that the Journal was making a wrong application in its unjust erament does not cut a very respectable censure. What the Day Book said is true, figure." Certainly not; but then the Dem-Abolition lecturers were mobbed and ocratic party is not running it now. egged, but who were the men committing those deeds of violence? Will the Journal ask the members of its own party-its own immediate supporters in this city? If Central Insurance Company it will do so, and a truthful answer is given it will be discovered that in nine cases our of ten, they will be found in the ranks of the Abolition Radical party, and among that class who were the loudest and most blataut in their cries for similar, and worse treatment of Democrats, who then, as now oppose mob violence and ill treatment of persons because of their opinions, social, religious or political. Let the Journal be wise henceforth, and heed the admonition once given: "Let him who is without sin cast the first stone."

Indemnification for Stolen Property.

Governor Cales Lyon, of Nevada, has petitioned the Senate to pass a bill which OHIOINSURANCE COMPANYof \$45,660 in gold, belonging to the Government, and of which, he alleges, he was robbed while on his way to Washington some weeks since. He also states he has been unable to obtain any information which will lead to the discovery of the theft. Cales, while in California, was but highering humbur. Instead of being allowed to petition, in this matter, he should be in the hands of the police.

An Abolition paper published in Pennsylvania, called the Tideout, says that SIMON CAMERON, lately elected United States Senator from that State, is a "sneaking thief." We don't believe it-in fact, we know better-for if we remember rightly. it was about the year of "loyal" grace 1861. that the House of Representatives accused him of taking two million dollars at on haul from the United States Treasury, and that was "cracking the crib" in a way that none but the most bold and desperate thieves undertake. Sneak thief, indeed, why you might as well tell us that Bus BUTLER was a sneak thief, Mr. Tidcout.

What the impeachers are after is made strongly significant, by the late hint made by old THAD, the Radical leader in Congress, that an obstacle to the Radical plans is met with in the person of General GRANT. It tells a whole chapter in itselfa chapter of the desperate and dangerous course on which the party are embarked and that its leaders are auxious to remove all obstacles in the military path as in the civil departments that may be likely to interfere with their premeditated resort, at the right moment, to revolutionary vio-lence. So much for Mr. STEVENS and the BUSINESS TRANSACTED IN GERthe right moment, to revolutionary vioplans of the leaders.

Radical Reconstruction.

While the Rumpers are discussing their dans for reconstructing the Southern states, might they not with propriety be equested to pause a few moments in their levilish mad work and read the following from him who some of them were in days past won't to term the "God like"-DANIEL WEBSTER? It might serve to remind them States. WERSTER, who was always admitted to be a great constitutional lawyer, once

there but a Rumper that doubts it, what right have the conspirators at Washington to meddle with State governments, some o which were formed before the Federal Government under its present Constitution had an existence? Can a body politic. with well defined, limited delegated powers, become superior to the power creating it except through revolution or usurpation There is nobody but a knave or a fool will argue that it can. And we will say this much for the Rumpers, we do not believe that they are fools. And to the people we say, be watchful—look well to the preservation of your State governments, for by and through their preservation only, may you hope to preserve your individual rights and liberties.

WHITE SLAVERY?-The officers of the Ohio Penitentiary advertise that they will sell, to the highest and best bidder, the lawho are now confined in that institution

When some of the Maryland Courts lately ordered the sale of the labor of some negro criminals, the Radicals, in and out of Congress, stirred up such a sensational nually; upon its issue in excess of that hullabaloo, that the Legislature of that amount it pays to the entire net profit. It State became intimidated into the repeal of its demand notes; and adds, that the En- vieted. The negro convicts there, howglish Government receives a bonus of 154 ever, were sold to work our farms-one of per cent, per annum from the Bank of En- the fellows having the "stamps" with which to buy hissef!

We venture to say that many of those privileges of issuing notes payable in Ohio white criminals-horse-thieves, coungold on demand. The Government of the terfeiters, burglars, &c.—would jump at United States, on the other hand, rays the chance of having the facilities which the chance of having the facilities which were afforded to the Marylander to enjoy five per cent, per annum in gold on every the fresh air in farm labor or by his own dollar of their circulation, for exercising freedom. However, they're only "poor

The the course of the debate on the Tariff Bill, Mr. Sprague took occasion to say that he paid more duties than any dozen men in the United States, and that in his efforts to obtain high duties he was not actuated by his own interests.

The above is an extract from a Washington letter in the Baltimore Sun. The duties paid by Mr. SPRAGUE are all collected by him back from the people, with about one hundred per cent, added for profit, and he is can't see it.

The Commercial says that the Republican "party is committed to Negro Suffrage by the vote of its representatives in Congress." That's so. And so are the Republicans of the Ohio Legislature by indorsing that votes But they tremble in their boots when goaded by Cheesedom to have it tried on in Oblo.

The Boston Post asks: "If the pre ent Congress can abrogate the present Govgress after another go on in the same way?

The New York Times says "our Gov-

They always keep on hand, of their ewn mar refacture, and the best vale work, a large assortmen of Boots, Shoes, Garters, Silppers, etc., for ladic misses, men and boys, wear, and at prices to su i customery.

KEEP COOL.

W is wish, by this means, to inform the public that we have at J. F. Edgar's Grocery, Main street, and at J. Oblinger's, Huston Building, Jef-

Filterer and Cooler, Combined

And we say unhesitatingly and advisedly, that it is the only article of the class which has ever been offered to the public that in every way file own expectation. We sell if at a moderate price. It will run for years without teaching. When teaches are can be re-packed in twenty minutes.

Every Family, Store, Manufactory, Hotel, &c., should have one. The Filthiest Water in the World will pass through it.

And come out ley cool and clear as amber. Besides its filtering properties, it purifies. It is a weil known fact that lime and other minerals in water are injurious to health, and when the cholora was least in our midst, those who drank rais stater were less liable to be attacked and to die by his scourge of man than those who used the impare waters.

The filtering materials used in this patent arrangement (patented by BESTA HOGLEN) are white sand, suimal and vegetable charcoal, &c., and are so combined as to do their duty perfectly.

For said in any quantities (one or more lipses) waters.

BEST & HOGLEN, DAYTON, OHIO.
