

## CONSTITUTIONAL ISSUES TAKEN UP

Good Meeting Held in Prospect Church Last Evening

### NEED OF DIRECT LEGISLATION

Explained by Marion Speakers—Widespread Feeling For It.

Candidate Snyder Would Give the People More Power—Rev. Bourke Emphasizes Need of Initiative and Referendum.

The Presbyterians of Prospect with an altruistic spirit highly appreciated the opportunity for the benefit of the campaign for delegate to the Constitutional Convention, Thursday night and a good meeting was held. Free-men Fleming was called to the chair and explained the purpose of the meeting. He introduced H. R. Snyder, Editor of the Mirror, who is a candidate for delegate and who discussed the important issues involved.

The question of candidates was first considered. The Cincinnati Enquirer printed a symposium on this subject last Sunday, and the correspondent sent in the following report for this county.

But four Marion county men have filed petitions as candidates for delegate to the Ohio Constitution. They are Judge C. H. Norris, Democrat; W. G. Harkness, Republican; H. R. Snyder, Independent, and W. J. Robinson, Socialist. Norris and Harkness refuse to make pledges of any kind. Snyder, who is editor of the Democrat Mirror, is for the Initiative and Referendum but not for the Recall. He is "dry." Robinson is progressive and stands on the Socialist platform of last year.

The speaker explained that he is not opposed to the Recall, with proper limitations, but believes in team work in politics and the propriety of taking up only such measures as political conditions may suggest. It was agreed at the Progressive convention to limit the limitations of the campaign to direct legislation although such men as Rev. Herbert Bigelow are strong champions of the Recall when they think such championship profitable.

The matter was fought out there with some bitterness the ablest exponents of the Recall in the state opposing bringing it into this campaign. Having been at that convention with Attorney J. Wilbur Jacoby the speaker knew exactly what business was transacted there.

The relative importance of the issues of the campaign to bring back the saloons and that of framing up a new State Constitution were considered and it was held that while the former may seem the most important for the present yet in its far-reaching effects the latter may more largely effect the good or evil of the State and hence the supreme importance of giving it due consideration.

The problem of the evening was divided into three parts as follows:

1. A discussion of direct legislation.
2. Consideration of the liquor traffic.
3. Suggestions for modernizing the State Constitution.

The Enquirer's symposium brought out the fact that only two questions are eliciting any general interest with regard to the revision of our magna charta. These are with regard to direct legislation and the management of the liquor traffic. With regard to the former the position was taken that the Initiative and Referendum are needed to arrest the corruption of our lawmakers—our councils, legislatures and congresses. The way the trusts and monopolies and corporations have undermined the officials of our government was emphasized and illustrated with several examples. It was shown how the Union Pacific Railroad by its infamously corrupt practices held California and other states and territories in its grasp for more than thirty years and how that people never were able to break their bonds until last year when under the lead of Governor Johnson they smashed to shinders that tremendous organization. It was shown how the United States Steel company levied a contribution of \$700,000,000 on the American people—how we pay the dividends on their watered stocks. And that is but one of some hundreds of big trusts.

It was also shown how the Sugar trust used a corset steel spring with which to corrupt the senators. These officials were no doubt the parties guilty of placing that spring on the machines to make the sacks weigh lighter and thereby they stole like the petty thieves that they are several millions of dollars. They were fined and restored to the government \$3,000,000 but now they have raised sugar from 5 to 8 cents per pound and are taking back their fines with compound interest.

We are paying their fines. This is the importance in terms of monopolistic power. This is the government of King Morgan who at the head of the monopolistic Frick, Gary, Rockefeller, Stillman, Armour & Co., seeks to sup-

## ALL YOUR STOMACH TROUBLE VANISHES

Indigestion, Gas, Heartburn and Dyspepsia go and You Feel Fine in Five Minutes.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diaprepain, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Get from your Pharmacist a 50-cent case of Pape's Diaprepain and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diaprepain is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

plant the government of the United States. These are the men who over even the man of Teeth and Blood, Colonel Roosevelt, and enjoyed him into breaking a law, of the national government when he was president in the Tennessee Coal & Iron company's side to the monopoly. These were cited as instances of the embezzlement of power.

The case of our corrupted city councils and state legislatures—our indicted Diegels, Huffmans, Nyctones, Andrews, were given as illustrations of the embezzlement of power which we seek to correct by the Initiative and the Referendum. As for the speaker, he wanted these strong instruments and implements of power to lay up as a club or rather as a shield to prevent corruption. If the people insist on "holding the reins of power in their own hands their representatives cannot sell out because they will not be able to turn over to monopolistic corruption any goods."

On the matter of the regulating the liquor traffic the speaker believed he had the only honest platform—that is to submit to the voters two propositions, one as the temperance people would draw it and the other a license proposition and let the majority decide the issue. He was willing to argue the justice of that proposition before a Distillers' Congress or a Prohibition convention. The proposition to submit only a proposition for license or no license he held to be a trick, an unfair amendment and one unworthy a respectable statesman's consideration. It offered the great segment of temperance voters nothing.

On the subject of new and interesting problems of Constitutional amendment the speaker discussed the Short Ballot, Governor's Model Cabinet suggestion bringing in the flexibility of the British system in making the chief's secretaries and heads of departments members of the legislative body, better recognition of our educational interests in the Constitution.

Change of the jury systems to allowing a verdict by a three-fourth vote was thought an improvement. The speaker said he believed that good opinion was gravitating towards female suffrage.

The next speaker was Rev. Bourke of Marion. He first spoke of the growing interest which is being manifested in the Initiative and referendum all over the state. At a synod of the Presbyterian church recently held in Mansfield men from nearly every county in the state spoke with great earnestness about this great question and declared it to be one of the paramount issues in their home towns. And so great is the importance of this question that we should all be talking and thinking about it. We must decide whether we stand with the people in this fight for the rule of the popular will or whether we prefer to remain in the power of selfish and wicked officials.

The speaker wished that great fervor might be aroused in the defense of right in the present liquor fight—particularly among the citizens of the out lying villages of the county. Without them the cause is lost and if they will think of the destruction and poverty caused by the liquor habit they cannot but work to ward off the impending evil. Rev. Bourke recently visited a boys' reform school and every one of the twelve boys who were there waiting for parole told him that drink was the cause of his fall. These boys were not degenerates either morally or physically. They were fine looking set of boys as could be found anywhere. One boy in particular impressed him as showing promise of a brilliant future if his progress were not retarded by further temptations to indulge in drink.

Much of the work which good citizens will do in this fight must be directed toward polling the full vote. There is no doubt but that a glorious victory would be gained if this could be done for the forces of good are always superior to the forces of evil if they can be mustered in.

J. L. Huff, Rev. A. L. Baumgartner, Rev. Woodworth and Rev. Chapin make strong and stirring speeches endorsing the previous speakers' views and urging the people to push the fight for local option.

Don't worry. Use Marion Flour.

## 'NOTHER WHITE HOPE LOOMS ON HORIZON: NAME'S JACK GEYER; HAILS FROM DENVER

With the Carl Morris "white hope" boom effectually exploded by Freeman Jim Flynn, Gotham fight fans are now giving attention to Jack Geyer, a stalwart young man, who has dropped in from Denver, intent upon fighting his way to the heavyweight championship. Geyer stands six feet, one and a quarter inches in height and weighs 193 pounds in condition. He has fought several times on the coast and was one of the members of Johnson's camp when the negro was preparing for his battle with Jeffries.

## MEN ATTEMPT BOLD HOLD UP

Ride With Henry E. May Into Country and Then Pull Guns.

### THROWS ONE FROM WAGON

Other Jumps and Both Sides Shoot—Bullet Grazes May.

Horses Run Away and Men Hurry Back to Marion—Blood Hounds Put on Trail But Seem Lost at Railroad—Men Probably Disguised.

Henry E. May's altruistic spirit came near costing him his life, about \$100 in cash and other valuables, Thursday evening about 7 o'clock, while returning from this city to his home in Brush Ridge, three miles east of Morral. May, who is a farmer and poultry dealer, was made the victim of an attempted hold-up by two men, colored or disguised as colored men. By displaying an unlimited amount of bravery, he saved his pocketbook but today is wearing on his chin the mark where a bullet grazed his lower jaw and powder burns on his face. The men escaped, presumably on a Pennsylvania freight train.

At the north Main street crossing of the Pennsylvania railroad, May was accosted by two strangers who asked if he would permit them to ride with him. They claimed they were on their way to a farm in the northern part of the county where they had been employed as farm hands. May stopped, and the two men and the hold-up men boarded his wagon.

When about one-half mile from the crossing, on the Upper Sandusky road, one of the men flashed a revolver and ordered May to throw up his hands. May, who, incidentally, is a powerful man and by no means easily frightened, obeyed the order half way by thrusting one arm skyward but with the other he threw the man with the gun from his seat to the roadside. His accomplice jumped.

Gun play followed and both men were exceedingly lucky in escaping with their lives. No sooner had the hold-up men landed in the road than May drew a revolver which he had in his coat pocket. The stranger fired at May. The bullet grazed his lower jaw and the explosion of the cartridge burned his face so close was the stranger to him.

May returned the shot and claims that he hit his mark but no evidence could be found which would indicate that the assailant had been wounded. The shooting frightened the horses and May was carried from the scene. The two men escaped and came to this city.

May telephoned the police of the attempted robbery from the residence of Frank Coons. An auto was hired and Captain Bond, Officers Thompson and Shrock were hurried to the scene with two bloodhounds. The dogs readily took up the trail and traced the men back to the city. The trail led through alleys and back yards in the northern part of the city to the Pennsylvania railroad yards. Here it was lost and it is thought by the officers that the men escaped on a freight train.

Police think the hold-up men are from this city as they were acquainted

## MARION GIRL WEDS LIMA MAN THURSDAY

Miss Emma Belle Merchant Becomes Bride of Homer C. Hamilton. Leave For Lima Immediately After Wedding Dinner.

Thursday evening, at 6 o'clock, Miss Emma Belle Merchant, of Marion, and Mr. Homer C. Hamilton, of Lima, were united in marriage by Rev. G. M. Rourke, at his home on south Main street.

The young people were unattended. Immediately following the ceremony, Mr. and Mrs. Hamilton were entertained at dinner at the home of Mr. and Mrs. Paul Chase on Avondale avenue. At 11 o'clock they left for their new home in Lima.

## STRENGTH COMES

Not From What You Eat, But From What You Digest. A Tablet Digests a Meal. Trial Package Free.

Most people eat most foods without discrimination—it matters little what. Few stop to think what that food does for them. This is the first turn on the road to dyspepsia. Reckless disregard of the proper choice of foods, rapid eating and improper mastication are the unquestioned causes of all stomach disorders from the slight ache to the malignant cancer.

There is nothing more revolting than a dyspeptic stomach—a very bad for putrefaction, sending forth its poison throughout the entire system, depressing the brain, befouling the breath, souring the taste, deadening the muscles, incapacitating the liver and kidneys for their work, debilitating the heart, choking the lungs and clogging the bowels.

All of these disagreeable and dangerous conditions are due to the improper digestion of food and the consequent assimilation of poison. What else can you expect? If the food lies in the stomach, if the system is constipated, fermentation is the natural outcome. It shows itself in sour watery risings, belchings, heartburn and painful breathing.

There is only one way to remove this condition. If the stomach refuses to digest your food put something into it that will. Stuart's Dyspepsia Tablets are nothing but digestive. They are not a medicine. They work when the stomach will not.

Each tablet contains enough pepsin, diastase, golden seal and other digestive elements to reduce 3,000 grains of ordinary food to the proper consistency for assimilation into the blood.

Stuart's Dyspepsia Tablets are absolutely pure. There is nothing harmful in them as shown in their endorsement by 40,000 physicians in the United States and Canada.

Ask your family physician his opinion of Stuart's Dyspepsia Tablets and if he is honest toward you he will state positively that they will cure your stomach trouble whatever it may be, unless you have waited too long and have allowed your disorder to develop into cancer.

Act today and begin to end your suffering. A free trial package will be sent to your address upon request. The 50-cent size packages are for sale at your druggist. F. A. Stuart, Co., 150 Stuart Bldg., Marshall, Mich.

## ENFORCEMENT OF FOOD LAW ASKED

Dr. Wiley Approved and Free Hand Requested For Him.

By United Press Wire.—Washington, Oct. 12.—Resolutions of endorsement and approval were received by Dr. Harvey W. Wiley today from the National Consumers' league which has gone on record for a rigid enforcement of the pure food law.

The league expresses "sincere appreciation of the great work done by Dr. Wiley."

Congress is petitioned so to amend the pure food and drugs act "that hereafter Dr. Wiley may be given a free hand to enforce the act, as was originally intended."

The resolutions say that the enforcement of the law has been seriously interfered with by the "concessions obtained by the special interests through the influence of certain government officials."

The charges against Dr. Wiley are denounced as "foolish and unfounded" and the removal of Secretary of Agriculture Wilson is urged.
