NEW ERIE YARDS TO BE BUILT HERE

Railroad Planning Big Improvement For New Year.

MUST INCREASE FACILITIES

Present Yards Cannot Take Care of Growing Freight Business.

Yards Planned South of Main Line, Just West of Union Station—Will be Used For East Bound Freight. Yards to Have Many Tracks.

In all probability the new year will witness one of the biggest railway improvements that has taken place in Marion in a good many years. The Erie is planning to build large railroad freight yards just south of the main line and west of the union station and it is being rumored in railroad circles that the yards will be constructed within the next two or three months.

Although Marion now has one of the largest yards on the Erie system the freight facilities are not sufficient to handle the growing business of the company. Only the terminal at Jersey City and the yards at Hammond, Indiana, equal the local yards in size and with the new additions that are being planned the Hammond yards will be surpassed.

The present difficulty lies with the east bound freight. It is generally delayed here much longer that the officials desire simply because it has to be switched around needlessly owing to the arrangement of the yards. But with new yards on the south side of the main track to be devoted exclusively to east bound freight this trouble would be overcome to a large degree.

The new yards will contain from half a dozen to a dozen tracks from a mile to two miles in length and will furnish room for several hundred cars.

The yards will add to the increasing importance of Marion on the Erie system.

It it understood that the Erie annual report will make an excellent showing. The road has undoubtedly been getting more business. The proposed improvements are the natural result.

New Rolling Stock for Erie.

During January the Erie railroad will receive deliveries of forty-five new locomotives, sixty passenger coaches and 4,000 freight cars. The order for this rolling stock was placed some time ago but a delay was occurred in the fulfillment of the order.

Business on the Erie.

Records of the passenger business on the Erie should be completed today for the present year. No great increase will be shown, however, according to Erie men. But, taking the local Erie passenger and freight traffic a large increase over the business last year is particularly noticeable.

Entertains Officials.

Mr. G. M. Knauer, passenger agent for the Pennsylvania railroad here, entertained the local officials at a sing dinner and smoker, Friday evening, at his home on Scofield Heights.

Covers were placed for twelve and an elaborate menu was served. Following the dinner hour and smoker the remainder of the evening was spent at cards.

Five Tons of Mail.

Five tons of mail were taken from Erie No. 8 and Hocking Valley No. 30, Friday morning, which proves that the Christmas rush and heavy work in the mail department has by no means abated. This is four or five times the usual amount and the officials claim that in no season previous has the work in the mail department continued through the week as it has this year.

WHISPERY WHISTLES FOR ERIE'S ENGINES

New York, Jan. 1.—The eerie Erie has got 'em going again.

Folks who catch the 8:32 for New York and particularly those who luxuriously wait for the 9:05, have long been complaining of the screams with which the approach of the 7:30 and the 7:43 have been heralded. Knowing about trains which leave at such shocking hours was bad enough without having slumbers broken, ear drums tortured and coddled eggs made unfit for fastidious eating. Wherefore the complaints.

Yesterday announcement was made that all locomotives in the Erie's suburban service were to be equipped with low tone whistles, whose notes will be like woodland music, and, far from disturbing dreams, will lure the sleeper on to visions still more sweet. The whistles of the past are to be used only in emergencies, such as the arrival of trains on time.

Jersey commuters were so amused last night at the news of the innovation that they accepted without doubting rumors of decindered engines and of upholstered seats in all cars.

MIRROR SUBSCRIBERS

Will confer a favor by reporting promptly any failure to receive their paper, either from city carrier or in the mail on rural routes. Telephone complaints at expense of office. The Mirror is booking new subscriptions daily and adding many new names to its family of readers every week, and errors in putting all addresses on the carriers' and mailers' lists correctly are sure to occur, and it ed at once. If you cannot get the Mirror office by phone in the evening call phone 287.

That Philadelphia policeman who retired after 49 years' service at $1,000 a year worth $250,000 ought to have quit long ago. It seems a shame that a man with such genius for making money on the outsice should have wasted his talents walking a beat.

GUTHERY SAYS WON'T BE THERE

Sunday's city papers carried stories to the effect that Attorney Fred E. Guthery, of this city, would participate in an anti-Harmon gathering to be held in Columbus, tomorrow. Mr. Guthery left this morning on a business trip to southern Ohio, but yesterday informed a few friends that he couldn't quite understand how he had been mixed up in the anti-Harmon affair scheduled for Tuesday. At any rate he will not be there and though he may not be in accord with the governor on all propositions yet his difference is not sufficiently strong to justify his participation in an open attempt to sidetrack the governor's influence in his own state.

A large audience greeted Rev. Zechiel at the First Reformed church yesterday morning. He took his theme from Matthew, "The parables of the hid treasure and pearl of great price." These parables contain the doctrine of complete self-surrender to Christ. In my estimation I remember detailing the emotion as to where men find the greatest pleasure in pursuit or possession. The question, if it does in store, as long goes beats the impossibility of getting things satisfying the deeper longings of the soul. The best at least upon vision of Christ, before we can name the two men who were happiest in possession. They were not content until they had the coveted object. They joyfully sold all, surrendered all to obtain. True, salvation is free, still it has its price not just in dollars and cents, but in self-surrender. Many a man's religion is poor and unsatisfactory to himself, because he does not pay the price.

First Reformed Church.

You can go into any clothing store and buy a shoddy suit if you want or a good one if you pay the right price. So you can get all sort of religion you want, if you pay the price. But I fear many of us are willing to wear a very shoddy cloak of righteousness, because of our lack of appreciation of the gift. "They paid plenty" for joy thereof and" not the first essential was to see the value.

So our first need is to see a person Jesus Christ. Learn His value in studying His nature, His life, His mission. Study the doctrines He taught, the laws He laid down, the principles for which He stood. Study by a fair comparison of values and worth as compared with other religions. Compare the people, homes and setting of those who follow Him with those who do not, and you cannot fail to be convinced that Christ is the greatest treasure for you here for life, death and eternity. Have you this Pearl of great price? Are you willing to make the proper self-surrender and lay all at His feet, with an offer of your God, that you may get the fullness of His blessing?
