Organizing Shop Employees.

Chicago, March 12.—New plans have been completed for the organization of a gigantic federation of all shop employees on every western railroad under the aegis of the federation. The main organization will be a federation of federations.

A meeting at which an organization will be perfected will be held in Kansas City April 15. A second conference just concluded here determined that representatives of all shop organizations should be present at Kansas City and that determination will then be made as the classes of employees to be included in the big federation.

Dr. Wiley Again.

Washington, March 12.—Dr. Harvey W. Wiley, chief chemist, is thinking about resigning to become a contributing editor. Wiley himself, gave credence to the report this afternoon by absolutely refusing to affirm or deny that he had already discussed the matter with Secretary of Agriculture Wilson.

Men leave the government service," said Wiley, "for three reasons: they die, they go out voluntarily, or they are kicked out. I hope I am not kicked out, and I don't expect to die."

New Incorporation Granted.

A new incorporation of the J. W. Clark Real Estate company has been granted by the secretary of state at Columbus. The capital is valued at \$15,000, and the firm includes J. W. Clark, Clyde Wogan, Thomas O. Clark, Lloyd DeBoyle and Adam Lauer.

The real estate business will be conducted by the company on an enlarged scale, the same office rooms and the same name being used for the firm.

Philadelphia is to have a new convention hall. It is to cost \$4,000,000, and, together with its grounds, will cover four acres of ground.

HUNTING A RUNNING-MATE

For President Taft With Senator Borah a Big Probability.

(United Press Leased Wire.)
(By Winfield Jones.)
(Special to The Mirror.)

Washington, March 12.—Political gossip is rife in Washington as to who is to be President Taft's running mate in the next presidential campaign. The political dopesters have been flapping all over themselves in prognosticating likely choices and the field of available men has been nearly exhausted. The question has been contemplated by every standpat republican and in some instances the "know all" have predicted that a progressive will be picked for second place, under the theory that concessions must be made by the G. O. P. to the new element that has sprung up within its ranks.

Old party leaders, like Ex-Senator Scott of West Virginia, Ex-Senator Du Bois of Idaho, Senator Lodge, Senator Crane, and others are sticking close to the capital city, conferring daily over the political situation. The phase of the "running mate" has been discussed a number of times at the White House with President Taft and with but few exceptions, the suggestion of candidates has met with his approval. A number of men, likely to command a strong following in the country as a whole, have been suggested.

The latest recruit that has been suggested to add to the list of possibilities is Senator William Edgar Borah, author of the famous "Moth-eaten Day" senate resolution. He is a big man in the west and generally known throughout the United States. The mention of his name in this connection comes from quarters close to the administration, and it is beyond question that if the political facts see fit to impose the nomination for second place on the sturdy shoulders of the senator from Idaho there will be satisfaction in the White House.

Vice President Sherman is still in the game of politics, but whether he intends to try again for the vice presidency is not known. Notwithstanding the fact that some months ago he signified his intention of not running again. There is no doubt in the minds of leading statesmen that the New Yorker is stronger with the Old Guard in New York state than ever before. Mr. Sherman is still a factor. Opposition in the national convention may develop should his name be placed before that body and for this reason it is believed he will not consent to have his name used as candidate for second place.

Anticipating that Sherman will not offer any opposition to the selection of Taft's running mate, the old party leaders and standpaters are looking for a "big" man for the job. Senator Cummins of Iowa and Senator Kenyon of Iowa have been mentioned as men who are likely to have a large candidacy for president. Senator Kenyon on the other hand it is said is too young in national politics to be considered as a running mate for the president.

The disposition therefore of the leaders is to reach out and get some man recognized as a progressive the country over to make the race. Senator Borah looms up as the one of the best possible choices.

It is not known whether Senator Borah will accept the nomination if it is tendered him, as he too occupies an influential place in the senate, but it is thought that he might be induced to run under pressure from President Taft on the ground that it was his duty as a Republican to make the race.

He is recognized as a good campaigner and one of the strong men of the United States senate. He is only forty-six years old and could easily stand the hardships of a strenuous campaign. He is not a Taft man, in fact he has had some differences with the White House, but his ability is not underestimated in that quarter. Senator Borah is certain to support the nominee for the presidency who ever he may be.

It may be that the Taft boomers are pulling off a great stroke of diplomacy in suggesting Borah's name for second place. They can readily see influence he can bring to bear for the Taft ticket.

Senator Borah has aspiration for the presidency himself, but is biding his time.

He is at present of the opinion that it is much better to start his campaign for the presidency in 1916 in the manner in which the Cummins and La Follette booms were launched.

TELEGRAPHIC TABLOIDS

New York.—Rev. Robert Parkey, negro preacher, who carried a mole foot and a wish bone, is in jail. The police charge that he collected money from prisoners, telling them he could "charm" judges.

New York.—To save a nickel, William Schrock, an electrician, gave his life. He entered the wrong platform in a subway station, and a train struck him as he attempted to cross the track.

Chicago.—Displeasure makes the blood leave the feet and causes them to become cold, says Prof. Walter D. Scott of the Northwestern university. Cowardliness causes the same blood action, he declares.

New York.—Mrs. Esther Barkins, to cure a rash on her baby, put tobacco leaves in her bath water. She is in St. Mary's hospital in Brooklyn suffering from nicotine poisoning.

Kansas City, Mo.—D. C. Steison, Pueblo, Col., and his bride rode to Ballina, Kas., the first stage of their wedding journey on a snow plow. Fifteen inches of snow had blocked all the trains.

"I'M NOT ASKING FAVORS," SAYS ROOSEVELT. OFFERED EXEMPTION FROM JURY SERVICE

ROOSEVELT LEAVING GRAND JURY ROOM

Theodore Roosevelt is here shown leaving the grand jury room of the Nassau county supreme court at Mineola, L. I., after being drawn for jury duty. Informed that he was exempt because of his army service the colonel replied:

"I am not asking any favors. They say I'm fighting the courts. I'll show them my obedience to the courts. Roosevelt will receive \$3 a day and mileage between Mineola and Oyster Bay during his term of service."

New York.—George Brown, Watchmaker, Staten Island, says lumps of hail fell on the roof of his house, weighed as much as six ounces and that one piece was as big as a baseball.

Winston Salem, N. C.—On a wager of \$2,000, J. H. Lehman and J. H. Nixon of this place will try to run an automobile backward from here to New York City starting April Fool's day.

Washington.—Mrs. Taft is writing her own letters and "pruning" her own guest lists, her social secretary, Miss Katherine Letterman, having been operated upon for appendicitis.

Chicago.—Declaring that two women in a quarrel could make more trouble than an army of men, Judge Hopkins dismissed the slander suit of Mrs. Marie Berberich against Mrs. Anna Christoph as not "justiciable."

Chicago.—Observing that this is a free country, Julius Forst declared it would be slavery to take his money for the support of his wife. He was ordered to pay her \$4 a week nevertheless.

Chicago.—Mayor Harrison wants a deputy mayor to add him in delivering addresses to the 799 conventions scheduled for Chicago this year, each of which demands an official welcome.

Chicago.—"Think of all persons you do not like as being in your coffin," is the advice of Bishop J. H. Vincent. "I find that many persons who do not like us show their good sense in not doing so."

Pittsburg, Pa.—Taft advocates have sent out a call for a mass meeting tonight signed by 2,200 vice presidents.

Pittsburg, Pa.—Because she befriended Mrs. Margaret McCausland, 85, during the last 33 days of her life, Mrs. Ida Rosenstiel was bequeathed \$20,000 or more than \$600 per day for her kindness.

Pittsburg, Pa.—The W. C. T. U. will petition the courts here asking for the abolishment of blinds and screens in saloons so that the public can see who is imbibing.

Philadelphia, Pa.—The celebrated portrait of Washington by Gilbert Stuart brought \$14,100 at the sale of the art collection of the H. Joseph H. Harrison.

Cleveland.—A verdict for \$1 damages for alleged slander was awarded Louis Hultukonis in his suit against Rev. Joseph Halaburda, a Catholic priest.

Dismissed Cases.

Lawrence, Mass., March 12.—Judge Mahoney today dismissed the cases of alleged neglect against ten children who were arrested by Marshal Sullivan during the riotous outbreak of February, when city authorities forcibly prevented parents from sending their children to Philadelphia. Two children belonging to Mrs. Ada Brown, a widow, who is on strike, were held on the ground that they had been fed by county officials.

TEST SEED AT ONCE.

If every grain of corn planted should grow, you could double your corn crop. The process of testing is so simple that any child can learn it in ten minutes. The children of the public schools can do all the testing, and if you plant only tested seed, you can depend upon an increase of 10 bushels per acre. The average corn county has 100,000 acres of corn land; ten more bushels than you ever had before would mean 1,000,000 bushels, which at 50 cents, a very conservative price, would add \$500,000 to the annual wealth of your county.

What applies to corn, applies to other grains. Teach the children to test it all.

If you are in doubt as to the condition of your seed corn, it would be well for you to make a shallow box, some two or three inches deep, large enough to hold a lot for ten acres; that is, twelve squares one way by ten across. The box should be about 50x50 inches. Fill the box about half full of moist dirt, sand or sawdust. We prefer sawdust because it is lighter and can be handled in the house. Press it well down so that it will have a smooth even surface.

Take a white cloth about the size of the box, rule it off checkerboard fashion, making squares two or three inches each way, numbering 1, 2, 3, etc. Take a flour sack, or make a pad to fit the top of the box, padding it with an inch or two of moist sawdust or sand.

Remove six to ten kernels from each ear selected, numbering each ear and putting the kernels from each in the corresponding square in the box. Place the box in a warm place, where it will not chill. Keep the pad well dampened and warm, and in five or six days you can roll up the pad carefully, and you will find that your seed will show its quality; kernels which show both sprouts and rootlets in healthy condition are fit for planting; ears from which the kernels show sprout only, or rootlets only, may or may not grow, but it is best not to take any chances with such ears.

All weak and dead ears should be thrown into the feed box and the test repeated until you are sure you have enough perfect ears to plant your acreage.

Remove six to ten kernels from each ear selected, numbering each ear and putting the kernels from each in the corresponding square in the box. Place the box in a warm place, where it will not chill. Keep the pad well dampened and warm, and in five or six days you can roll up the pad carefully, and you will find that your seed will show its quality; kernels which show both sprouts and rootlets in healthy condition are fit for planting; ears from which the kernels show sprout only, or rootlets only, may or may not grow, but it is best not to take any chances with such ears.
