CITY OF LANCASTER:

Wednesday Eve'ng, Jan. 12, 1853

A SHARP GAME.—The Journal says that Manypenny was killed off by a sharp game on the part of the Medill men. They got the names of all collectors and superintendants of the canals, &c., (with the salary of each attached) that were delegates, and made a formidable list of some thirty or forty. They then took in hand the *green* delegates from the Northwest, &c., as they arrived, showed them the list, and asked them if they were prepared to endorse such monstrous corruption as that list disclosed! Manypenny is one that appoints the collectors, and they are here by his procurement! The thing looked plausible. There was *prima facie*, fraud and corruption. The green delegates grew indignant, and swore that Manypenny should *not* go in if *that* was his game. So they went for Medill, and he got a majority of *two votes!*

We feel willing to indorse that. It looks plausible because it is natural. It is Fairfield county Locofocoism, with "an Indian behind the bush," to a T. The Medill men played a bold game, a strong game and a "sharp game" as a matter of course. By getting him out of the road, other individuals hereabouts have a much better chance for promotion.

A SAD BEREAVEMENT.—The little boy of Gen. Pierce, killed by the late railroad accident, was an only child, an elder brother having died some ten years since. The Boston *Atlas* says, "there is not a person in the Union who will not deeply sympathize with the President elect and his lady, in the irreparable loss which has befallen them.—Their boy was about eleven years of age, a bright little fellow, and of course the darling of his parents. We met them two years since, on a journey, in Vermont. The lad was the inseperable companion of his doting mother, and no one could see them together, without noticing and being affected by the touching and affectionate attachment they each manifested for the other. Poor mother! Thy lot is indeed a sad one, to see the throbbing of that youthful, guileless heart &to miss forever from thy side tha' trusting, loving companion! The nation will bear with grief of her bereavement, and sympathize in the afflicting dispensation."

STAND FROM UNDER!—We learn from the Seer, a Morman weekly oracle just established at Washington by Orson Pratt, an accredited saint from "Deseret," that there is a bad time coming for this sinful country. Elder Pratt paints the "future of America," as follows:

"The cup of the iniquity of this nation is nearly full; and woe unto them, when the time shall come that they are fully ripe in their abominations, for they shall utterly perish from off the face of this choice land, and the land shall be left empty and desolate—yea, their cities shall be destroyed, and their houses shall be desolate."

"When the Gentiles have been used up, the saints are to have the choice land all to themselves"—they and their many wives and miscellaneous families.

A COMMENDABLE RULE.—The Democrats of Philadelphia city and county have adopted a new set of rules to govern their primary elections in June next, and among them is the following:

"If any candidate for any office, by offers or gifts of meat, drink, money, or any valuable thing, is found guilty of attempting, directly or indirectly, to influence the vote of any Democratic citizen at the election on the second Monday in June, or of any conferee, his name is to be stricken from the list of candidates by the conference, and any votes cast for such candidate will not be counted."

VICE PRESIDENT KING.—A letter from Washington, dated Jan. 6, says that "the Hon. W. R. King cannot possibly recover. His physician has sounded his lungs with the stethescope, and declared that one of his lungs is entirely gone and the other partly so. Col. K's. niece, Mrs. Ellis, is with him." The writer further adds that he has been a very humane master. He never sold but one slave in his life and was compeled to sell him because he was a terror to the neighborhood.

A GOOD COW.—A correspondent of the Cleveland Herald, writing from Mayfield, says "that Wm. Ellsworth, of Mayfield, Cuyahoga, Co., Ohio, has a cow, a cross of Devonshire and Durham, that gave fifty-two and a half lbs of milk per day during twenty-one successive days, and gave as high as three lbs and four ounces of butter per day, her feed being hay and eight lbs of bran per day.

COMMON SCHOOLS, ETC ; IN NEW YORK.—The Secretary of State in New York, is ex-officio superintendent of the Common Schools of the State, and as such, has made his report to the Legislature. He states the whole number of children in the several districts, between the age of 4 and 21, to be 1,100,613, of whom 832,481 have been taught during some portion of the year in the Common Schools of the State; at a total expense of $2,249,814; an excess over last year of $364-987. Of the whole sum, over $90,000 was expended for libraries, and nearly $478,000 for school houses, &c., &c.

THE REFUSAL OF BILLY BOWLEGS TO LEAVE FLORIDA.—The National Intelligencer confirms the report that Billy Bowlegs has been compelled by his followers, particularly his sister and Sam Jones, to refuse the compliance with his promise to leave Florida. He had taken to the everglades, and as a regiment of "Cow-boys" or "Crackers" is being raised in Florida, to pursue him, we may expect to hear soon of the commencement of another troublesome Indian war.

NEWSPAPER BOYS.—The New Hampshire Patriot, the leading Democratic paper at Concord, says the printing office of that paper has been the graduating school of a Governor, a Senator in Congress, several Representatives to Congress, many editors, some ministers, and many other young men, who have filled at various times numerous responsible stations in the community.

IMPORTS AT BUFFALO.—The Buffalo Express estimates the aggregate value of the domestic imports at that port at $45,265,922. Of this amount, grain of all kinds, including that manufactured in flour, shows an aggregate of over 20,000,000 bushels, amounting to $15,065,096.

[Correspondence of the Lancaster Gazette.]

COLUMBUS, Jany. 10, 1853.

EDITOR OF THE GAZETTE:—The eighth of January has come and gone, and the fermentation of public sentiment which its approach engendered, has almost sunk down to the usual temperature. The crowds of Locofocos swarming about the American through the last days of the past week, have scattered gradually away until the streets are once more passable and the atmosphere is once more breathable. The Allen interest is victorious over the combined forces of Medary, Vallandigham and the Miami Tribe. Breslin is a gratuity given by the victors to ease the fall of their once haughty foe; but to all appearance the indications now are that the Great Miami Tribe of Ohio is defunct, completely prostrate and beyond all hope of resurrection. The row so universally expected in the convention was avoided by the skillful management of the Locofoco diplomatists who preferred a surrender to a fight. If a little more firmness had characterized the counsels of the Tribe—the firmness for which they were always credited—the anticipations that predicted a row would not have been disappointed. But Wash McLean, the great chief, was dead, and the glory of the tribe is in his grave.—*Requiescat in pace.* The Baltimore platform was repudiated with the highest desecration and contempt. It was laid upon the table amid mingled groans, cheers and hisses, and though Burns, Johnston and Jewitt toiled like heroes to save it from the hands of the ungrateful parricide, "god-damn the platform, it's *functus officio*" was the only recognition of their efforts.

The difference between the composition of the present convention and those that assembled here of yore, was too striking to escape any one's attention. Instead of the unshaved, unwashed and uncombed locofocos, that we used to greet on such occasions, the fat and slick little well dressed gentlemen, that twirled canes and thumbed watch seals, were visible on every seat in the Convention. The platform of 1852 was re-adopted, with a little fiercer radicalism thrown in for spice by way of tickling the palates that have become accustomed to the usual dish of Locofoco broth. The repudiation of the Platform has called down the exceeding great wrath of many of the old wheel horses of Ohio Locofocoism, and whether it was not an ill-advised measure on the whole remains yet to be seen. It is quite sure that its repudiation will fail of its object—to catch the Free Soilers—and whether it does not repel many National democrats is only determinable on the 2d Tuesday of October next. The expectants of office under General Pierce consider it a death blow to them and feel accordingly like denouncing it in the classic language of a delegate, "as ad—d dirty and cowardly trick to fish after free soil votes."

Medill takes his honors with a submissive spirit and bows with humility to the mandate of the democracy. He has vacated the office of Lieut. Gov. and Gen. Wilson presides in the Senate. Perhaps the labors of the last week, mentally and physically, impaired a constitution not naturally robust (?) and he keeps his room unwell. It would not be surprising if his powers are exhausted. The physical labor that secured it and the mental effort that accepted it, were sufficient to overpower much stronger men than the Colonel. ENCOTHES.

H. G. Farrell's Celebrated Arabian Liniment

We daily hear of the most astonishing cures being effected by that great and popular medicine, the genuine *H. G. Farrell's Arabian Liniment*, and we can truly say, from our own knowledge, that no medicine ever discovered has performed the same wonderful cures that it has, both in man & beast, and it is equally good for both, which makes it so truly valuable. It is therefore hailed by the suffering as the greatest blessing of the age, and no one would ever allow himself to be without this sovereign balm, who had once witnessed its magic power over disease, and its wonderful potency in relieving pain, however severe, in a few minutes' time. We even still desire you to call upon the Agent, who will furnish you, free of charge, a small book containing, besides other valuable information, a large list of certificates from many of the most respectable persons, of cures effected by this celebrated medicine, which surely are enough to convince the most sceptical of its transcend ut virtues. We notice several certificates of rheumatism cured after the patient had suffered every thing but death for five to twenty years. Also cases of paralysis, or loss of use of the limbs, where the flesh had wasted, leaving nothing apparently but dried skin and bone, presenting so horrid a appearance that their *friends looked upon them as death*, while physicians pronounced them *beyond all human effort* to relieve. In the most efficacious remedy known for burns, sprains, wounds, bruises, chilblains, neuralgia, toothache, bites of insects, sore throat, sore or weak eyes, tumors, sun pain, etc etc: and is used with unbounded success in most of the ailments of horses and cattle, such as sweeny, farcy, sprains, bruises, wounds, stiff neck and joints, lameness, swellings, galls or chafes, sore eyes, partial blindness, etc. If used in the beginning of fistula, poll-evil, ringbone and spavin it will invariably stop their further progress. Every family should keep this valuable medicine on hand, ready for any emergency.

LOOK OUT FOR COUNTERFEITS!

The public are cautioned against another counterfeit, which has lately made its appearance, called *W. B Farrell's Arabian Liniment* the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by *H. G. Farrell*, sole inventor and proprietor, and wholesale druggist, No. 17 Main street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrapper, all others are counterfeits.

Sold by G. KAUFFMAN & CO., Lancaster, and by regularly authorized agents throughout the United States. Price 25 and 50 cents, and $1 per bottle.

☞ We have frequently heard the celebrated German Bitters, sold by Dr. C. M. Jackson, 120 Arch Street, Philadelphia, spoken of in terms of the highest commendation, and we honestly believe that it is one of the best medicines advertised for the complaints for which it is recommended. They are pleasant to the taste, and can be taken under any circumstances by the most delicate stomach. The press far and wide, have united in commending this invaluable remedy for dyspepsia, debility, etc; and such are the healing effects of this panacea, that we hope it may be introduced into every family where dyspepsia has, or is likely to have a victim.

TELEGRAPHIC INTELLIGENCE.

Arrival of the Daniel Webster.

NEW ORLEANS, Jan. 8th.—The steamship Daniel Webster, from San Juan de Nicaragua, which port she left the 2d inst., arrived at her wharf in this city to-day, with advices from San Francisco to December 15th—two weeks later than those received by the Falcon. The entire trip from San Francisco to New Orleans has been made in twenty-three days, being one of the most rapid ever accomplished. The Daniel Webster brings 100 passengers, who have among them over $75,000 in gold. One of her passengers reports that the regular mail steamer to Panama would take in the neighborhood of $2-000,000.

In California the news is interesting, but there are no features of startling importance.

A number of passengers by the steamer City of Pittsburgh, which was destroyed by fire at Valparaiso, had arrived at San Francisco.

The rainy season had commenced in good earnest throughout California at the date of departure of the steamer.

The floods had arisen to such an extent as to render many of the roads impassible. The rain, however, had not interfered much with the mines.

The market for nearly every kind of produce had largely advanced since the steamer of the first.

The greatest advance that had been realized was in the price of flour, which had commanded figures never heard of since the discovery of the State. Provisions were very scarce and held at rates too high to admit of transactions except to supply of actual wants. The general feeling of the market was, in consequence of their rapid advance, quite animated.

A bold organization of robbers had been discovered in Los Angelos, who carried on their operations to such an extent as to excite the fear of the neighborhood.

Sacramento had been almost entirely rebuilt. The appearance of the city was very much improved.

Arrival of the America.

HALIFAX, Jan. 9.—The America has arrived from Liverpool with dates up to the 25th. Sales of cotton for the week, 33,000 bales—on a speculation 2000, for export 1000. Orleans, fair, 6¼; middling 5⅝; Uplands, fair, 5⅝, middling 5¼. Western Canal Flour 28s; Ohio in market is in good demand—prices stiffer.

The English Ministry has formally resigned. Aberdeen is the new Premier, with the entire concurrence of Lords Lansdowne, Russel and Palmerston. New Cabinet unknown. It is rumored that Lord John Russel takes the Foreign and Lord Palmerston the Home Office. The proceedings of Parliament are solely with reference to the transition of the Ministry. On the 20th ult. Earl Derby made a lengthened statement of the causes leading to the defeat. D'Israeli made a similar statement. Both Houses adjourned till Thursday, and then re-adjourned till the 27th, when it is expected that the new ministry will be announced.

France quiet, politically, and dull. The Emperor of Austria and the Kings of Prussia and Hanover, are consulting at Berlin.

French news relate solely to the movements of the Emperor. It is stated that overtures conciliatory have been made to the Cavaignac party, but firmly declined.—Abd-el-Kader sailed on the 21st ult. in the French war steamer for Turkey.

The Empire was proclaimed on board the French ships in the river Tagus, on the 17th, when the French flag was saluted by all the English and American ships of war in the river.

The marriage of the Princess Vasa with the Prince of Saxony, is officially announced.

We learn by telegraph that the modifications of the French constitution are officially published in Paris.

SPAIN.—Bravo Murillo's Ministry resigned, and was succeeded by General Roncali, as Foreign Minister. The Government announces the reception of most satisfactory accounts from Cuba.

TURKEY.—Question of Holy Places settled—the Porte acceding to all the demands of the French Ambassador. Money market in a bad state. It is reported that the Bank of Constantinople is suppressed. A formidable rising in Albania is reported. The whole Sclavish race of European Turkey is said to be in a state of insubordination.

Australian dates to the 29th September has been received. Sidney has been declared a free port. The fields are still very productive, yielding at the rate of 15,000,000 pounds per annum. Flour at Adelaide £25 per ton; at Sidney £22.

From California.

NEW YORK, Jany. 10.—The Northern Light arrived on Sunday. The steamer Pacific left California on the 15th.

The Northern Light brings 250 passengers. At San Francisco the prices of all articles have materially declined and have still a downward tendency, particularly flour and provisions.

A terrible gale and flood at Sonora on November 30th. Great destruction of property. The Eagle and City Hotels and Masonic Hall nearly destroyed.

The murderers of Gen. Bean were taken and were to be hung by lynch law.

Floods occurring on the rivers throughout the country. The plains and valleys were filling with water. Marysville and Yuba city inundated.

Mining news Generally favorable.

Immence preparations were making for putting down wheat, corn, rye, &c, the coming season.

From New York.

NEW YORK, Jan. 8.—Private letters have been received from the coasts of Africa, which state that the British government were about to withdraw their naval forces from the coast for the suppression of the slave trade.

From Washington.

WASHINGTON, Jan. 8.—William R. King has made his will. He was born in 1786.—He owns five thousand acres of land in one body, in Dallas county, Ala., and upwards of one hundred slaves. His entire estate is worth $150,000.

From Boston.

BOSTON, Jan. 8.—The American Powder Mill Company's Works blew up yesterday, killing three men—Hudson, Balson and Houson. One hundred and fifty kegs exploded.

Congressional

WASHINGTON, Jan. 7.—The House passed a resolution to adjourn over to Monday, in order to attend the inauguration of Jackson Monument to-morrow. Passed thirty-four private bills, including one relinquishing to Ohio the unfinished part of the Cumberland road in that State. Adjourned.

SENATE not in session to day.

From Louisville.

LOUISVILLE, Jan. 7.—The steamer John Simonds left at noon to-day for New Orleans, and when rounding out from Portland, three miles below the city, collapsed her flues, scalding some 26 or 28 persons, of whom twelve were instantly killed.

From Mobile.

MOBILE Jan 6.—The passengers by the steamer Black Warrior, arrived here from Havana, reports that the small pox is raging there to an alarming extent. The disease was still unchecked, and very many were dying from it daily.

COMMERCIAL INTELLIGENCE.

Lancaster Markets.

THURSDAY, JAN. 13.—During the past week Wheat has further advanced, owing to a speculative demand, and now brings readily 85 for red and 87 for white. These prices are not justified by the Lake markets at the present time, which vary but slightly from these quotations, but the wheat sellers of course will not object to the favorable advance. For Flour, we continue our former quotations, 4,25@4,50. Rye 45; Barley 50; Corn 30; Oats 25@28. In these articles there has been no change. Oats fluctuates between 25@30, owing entirely to the supply and demand. Corn is firm at our quotation.

Seeds—Clover brings 4.50; Timothy 1,50; Flax 75. No change in prices.

Groceries—The market is rather dull, awaiting the spring supplies, and the quotations are merely nominal. Sugar 6½; Molasses 35; Coffee 10¼, an advance; Rice 6.

Pork still commands 5,50@6. Hay 6,50. Wood 1,75.

Retail Market.—The market is but poorly supplied except with meats. Apples 37½@50; Potatoes 35@50; Turnips 35@50.—Green Hams 7½@8; shoulders 6½@7; sides 7@7½; Lard 8½; Beef 5@8. Sugar 8; Molasses 45; Coffee 12½; Rice 7.

Trade, during the past week, has not been very active, owing to the bad roads.—We notice, however, that for the past few days there has been an increased activity over that of the week previous. The necessity of good roads was never more apparent and we may as well make a note of it for future use.

Baltimore Market.

BALTIMORE, Jany. 8.—*Tobacco.*—The Tobacco market is very quiet. Receipts are light; shippers are not in the market. We have no sales to note, and give last week's prices, which are nominally as follows:—Maryland, common frosted, 3,50 a $4,00; common sound dark, 4.25 a $4,75; good brown, 5,00 a 5,50; good reds, 5,25 a 6,12½; fine and extra, 6,75 a 8,12½; ground leaf, 5,-75 a 8,12½; wrappery, 7,25 a 9,12½. We quote Ohio common brown and greenish, 4.-12½ a 4,62; good and fair reds, 4,62 a 5,12½; fine reds, 6,31 a 7,12½; wrappery fine reds, 8,06½ a 10,12½; extra do. 10,12½ a 11,12½; common spangled, 4,12½ a 5,12½; good do 5,62 a 7,62; fine do 8,12 a 9,12½; yellow, 10,-12½ a $14. The inspections of the week are 8 hhds Maryland; 28 do Ohio—total, 36 hhds.

Wool.—The receipts of Wool are light, and the transactions moderate. The market continues firm. Sales of the week about 7,000 lbs., at 27 and 29 cents for unwashed; tub washed do 38 a 40 cents; pulled 36 a 38 cents; and fleece 45 a 52 cents per lb.

New Orleans Market.

NEW ORLEANS, Jan. 7—P. M.—There is an active speculative demand for flour, owing to advices of a large advance in New York. The sales of Ohio amount fully 30,-000 bbls at 4,37@5,00, the market closing firm at 5,10, and most holders now ask 5,25. This is the largest business ever done in one day in this market in flour. Sales of 3000 bales Cotton at firm though rather lower rates; parties are awaiting the news per America; middling 8⅝@9. The sales of the week have been 35,000 bales. The increase in the receipts at all southern points, as compared with last year, is 489,000 bales.

Cincinnati Market.

CINCINNATI, Jan. 10.—River fallen 7 feet since Saturday. Weather warm and cloudy.

Flour in less demand, and sales confined to 300 bbls at $4.44 to 4,50. Foreign news unfavorable. Whisky 18½ to 18¾, which is an improvement. Provision market dull and inactive with a downward tendency—nothing done this morning. Sugar and Molasses active; 1000 bbls sold at 2⅜ to 2⅝, and 150 hhds sugar at 4¼ for common and 5½ for prime. The most astonishing success of the Oxygenated Bitters.

LETTER FROM F. T. WALLACE, ESQ.

PALMER, July 1, 1851.—Sir,—It is to me a source of infinite pleasure, to be able to bear testimony from personal experience, to the great value of the Oxygenated Bitters, as an effectual and complete remedy and cure for Dyspepsia, in many, if not in all of the multifarious forms in which that distressing malady exhibits itself.

I began to be afflicted in 1844 with Catarrh, and the difficulty increased rapidly until December, 1850, producing in the course of that period Asthma. The first symptoms of disease, was an extreme oppressiveness of the head, than followed a difficulty on the lungs, caused by the falling of mucus, of which there was a copious flow from the glands in the head, producing tightness, violent cough, pain in the side, and innumerable attendant evils. The accumulation of mucus on the lungs, was such, that I could not breathe when in a horizontal or reclining posture, and many nights during the last two years, I enjoyed no sleep, except what I could get *walking* my room. My breathing during the day was often loud and wheezing, like an over driven horse, and indescribably distressing.

During all this time I could get no permanent relief. A course of treatment by my Physician, would be a relief only for the time that he kept me prostrated by his laxative potions, and tedious irritating external appliances.

Last December, my attention was brought to the consideration of the Oxygenated Bitters, by the Hon. Myron Lawrence, who at that time was rejoicing in the emancipation of his own lungs, from a twenty years bondage by the use of your medicine. I purchased four bottles of your Bitters. I have not yet used the whole of the third bottle, and I believe I am *cured.*

An excellent quality of the medicine, is, besides its remedial virtues, that it is rather desirable to take, being at all times as agreeable as a glass of lemonade. I meet persons almost daily, to whom I recommend it, having faith that they also can be healed.

Very respectfully, F. T. WALLACE.

☞ The attention of our readers is called to the advertisement of WM. P. CREED, Esq., agent for the Protection Insurance Company. The true theory and practice of insurance is, in few words, very correctly stated; and we recommend our readers to avail themselves of the advantages, offered by this old and well-tried Institution.

POISONING.—Thousands of parents who use Vermifuge composed of castor oil, calomel, etc., are not aware that while they appear to benefit the patient, they are actually laying the foundation for a series of disease, loss of sight, weakness of limbs etc.

In another column will be found the advertisement of Hobensack's Medicines, to which we ask the attention of all directly interested in their own as well as their children's health. In liver complaints and all disorders arising from those of a bilious type, should make use of the only genuine medicine, Hobensack's Liver Pill.

☞ *Be not deceived,*" but ask for Hob nesck's Worm Syrup and Liver Pills, and observe that each has the signature of the proprietor, I. N. Hobensack, as none else are genuine.—*N. Y. Express.*

☞ ANOTHER SCIENTIFIC WONDER!—Important to Dyspeptics.—Dr. J. S. HOUGHTON'S PEPSIN, *The True Digestive Fluid, or Gastric Juice*, prepared from RENNET, or the FOURTH STOMACH OF THE OX, after directions of Baron LIEBIG, the great Physiological chemist, by J. S. HOUGHTON, M. D., Philadelphia. This is truly a wonderful remedy for Indigestion, Dyspepsia, Jaundice, liver complaint, constipation and debility, curing after Nature's own method, by Nature's own agent, the *Gastric Juice.*—Pamphlets, containing Scientific evidence of its value, furnished by agents gratis. See notice among the medical advertisements. 47

At the commencement of the year, we have a few words to say to our many friends throughout the county. We have, it is true doubled our list of subscribers since we have been in charge of the office, but at the same time we have largely increased the quantity of reading matter and bestowed much more care and labor upon the paper. Will not each one take the trouble to show the paper to his neighbor and induce him to subscribe?

There are larger and cheaper papers published than ours, but no county paper in the West surpasses it. We labor to put into its columns what will be of essential and permanent advantage, rather than mere novel sketches designed to please for a moment and then be forgotten. In this age of progress and intelligence, of discovery and invention, a vast variety of news is to be published in a small compass, all of which should be given to the public, and to crowd this out with matter of only superficial importance, is doing justice neither to the age nor the readers of newspapers. Our aim has been and still is, to publish a paper fully worth the price we charge for it, and one that will be interesting and useful to every family. To do this with justice to ourselves, we should have a largely increased patronage, and without any extended remarks, we confidently appeal to our present customers to be prompt in their payments and to our friends generally to have their names placed upon our subscription books.

LONDON QUARTERLY REVIEW (Conservative
EDINBURGH REVIEW (Whig)
NORTH BRITISH REVIEW (Free Church)
WESTMINSTER REVIEW (Liberal)
BLACKWOOD'S EDINBURGH MAGAZINE. (Tory)

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their *literary* character which gives them their chief value, and in this they stand confessedly far above all other journals of their class. *Blackwood*, still under the fatherly care of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer,) "The Green Hand," "Katie Stewart," and other serials, of which numerous rival editions are issued by the leading publishers in this country
