The Weekly Gazette.

CITY OF LANCASTER.

Tuesday Evening, Oct. 11, 1853.

☞Attorney General Cushing's opinion on the Texas five million matter, it is stated, has been fully approved by President Pierce. The opinion pronounced by eminent legal men as exceedingly able and learned, occupies about fifty manuscript pages, and is destined to enhance the fame of its author. The opinion recommends the retention of the five millions by the Treasury, until further legislation on the part of Congress is had, and on the main points fully sustains the course of President Fillmore's administration in relation to the subject. Mr. Cushing, in his opinion, it is also said, handsomely compliments the ability and legal learning of the Hon. Reverdy Johnson, Attorney General under General Taylor.

Mr. Soule's Reception in Madrid.—The Spanish official organ at Madrid, the Heraldo, is discussing the subject of Mr. Soule's reception by the government of Spain. It is said that the Spanish Cabinet had agreed to allow him to present his credentials, the government reserving to itself the right of sending him his passport should he depart from the strictest diplomatic propriety in his speech to her Majesty the Queen. The speech delivered by Mr. Soule on the eve of departure for Spain has raked up the old embers of dissatisfaction, and the press were criticising him and his sentiments very freely.

The Release of Costa by Austria.—The National Intelligencer confirms the statement we have already given, that the Austrian Government, about a month ago, consented to the liberation of Costa, on condition that he should be put on board of an American vessel and return direct to the United States. This determination the Austrian Minister at Constantinople was instructed to communicate to Mr. Marsh, the American Minister. The Intelligencer says:

It appears that as Costa was one of Kossuth's party when the Hungarian crown, &c., were taken from Buda, it was supposed that he could give information of the disposition of the articles which might lead to their recovery; and this we learn was their motive, or one of the motives, which induced his seizure at Smyrna. About the last of August the missing regalia was discovered, as our readers are already informed, near Orsova, just without the Hungarian border, to which Kossuth first fled. The recovery of the crown and jewels, together with the necessity of relieving the French Consul General from the disagreeable engagements to keep Costa induced the Austrian Government to consent to his release, on the condition stated above.

France Versus Russia.—It is said that a European letter, received in Washington, from reliable authority, states that France is treating with Sweden and Denmark for an alliance, offensive and defensive, against Russia, in the event of France becoming involved in a war on the Turkish question.—Russia is also endavoring to form an alliance with the same powers. The people of Sweden and Denmark, it is alleged, are in favor of the alliance with France, but the Government will endeavor to maintain strict neutrality. If forced to take position, they will side with France and Turkey.

Great Cranberry Crop in Minnesota.—The papers speak of the abundant yield this year of this valuable fruit. The berries are gathered both by the Indians and whites.—They are worth from $5 to 7 a barrel in Minnesota. There are a great many cranberries in Indiana and Michigan, near Lake Michigan. The regular price there a few years ago was 50 cents a bushel; now it is $2 to 3. So much for Railroads.

Later from Rio.—Advices from Rio de Janeiro to the 15th of August state that yellow fever and diarrhea were still acquiring numerous victims. In Para, Brazil, there were fears entertained of the scarcity of corn, and the municipality had issued an order creating a public depot in the city. There was a project about being realised for building a railroad and electric telegraph between Bahia and Joazeiro.

☞The Sloo Contract for the Tehuantepec road, it is said, is completed. The contract was made with Sykes & Co., of Sheffield, England, to complete the plank road from Suchit, on the Coaty Coalcos river, to the Pacific, a distance of 76 miles, in one year from the first of December, and a railroad from ocean to ocean, 163 miles, in four years from the first of December.

The Returns.—The vote in the different townships of this county is not all in, and we have concluded to wait until the full returns are made out before publishing a synopsis of the vote. Medill's majority will probably reach 1600. It is reported that the Locofoco majority in Franklin will be 1000, and in Pickaway 500.

Rumored Escape of Two More of the Irish State Prisoners.—The late Australia papers state that advices from Van Dieman's Land says:

"John Mitchel is gazetted as an absconder, and a reward of £2 or such lesser sum as may be determined upon by the convicting magistrate, is offered for his apprehension. The Colonial Times says: 'We understand that Messrs. Mitchel and Martin have proceeded to join their compatriots in America. There are only two left.'"

In connection with this rumor, which, by the way, needs confirmation, we may mention that the Cork Constitution, of a recent date, states that a gentleman, recently returned from Hobart-Town, had an interview with Smith O'Brien, at Norfolk Island, where he found him enjoying excellent health; he was living in a hotel, where he was supplied with every comfort and luxury he could desire. He had none of the appearance of a convict; he dressed in a similar style as he had done in Ireland. The government allowed him a circuit of ten miles for exercise, and he had only to report himself once a month to the police authorities.

A Remarkable Woman.—There is now residing in Bowling Green, a woman of color, who, it is said, is the mother of 19 children, the youngest of whom is now in his 68th year.

Further Particulars of the Troubles at the Chincha Islands.—We gave an account, yesterday, of the harsh treatment and imprisonment of Captain McCreren, of the American ship Defiance, by the Peruvian authorities, at the Chincha Islands. The following additional particulars we gather from the New York Express:

It appears that an order prohibiting the killing of pelicans, under penalty of a fine of $1, had been issued, which order one of the sailors of the Defiance disobeyed, was arrested and put in irons. Next morning, the captain of the Defiance went to the guard-ship, paid the fine, and asked the release of the man. This was refused, whereupon the American captains in port, some twenty-five in number, waited upon the commander to endeavor to effect the release of the man. They were received by the commander with an order to his marines to load their muskets with ball cartridges, followed by an order to the captains to leave his vessel, but while doing this some of them were seriously injured with the bayonets as well as the but-ends of the muskets in the hands of the marines.

Sometime after, the Defiance, when going to sea gave a salute to the other American vessels, and in a few minutes after she was boarded by the authorities, and a fine, according to the regulations, was exacted to the amount of twenty dollars, which was paid immediately by the captain, he at the same time saying they might wait, for they would have an opportunity to collect another. On the second gun being fired, the Defiance was again boarded by two boats from the Peruvian man of war Rimac and the guard-ship. One of the men in going over the side accidentally discharged his musket, and was immediately shot by the lieutenant. Capt. McCreren was then arrested, put in irons, receiving a deep cut in the head with an axe, and pitched headlong into the guard boat, and then beaten with the butt end of their muskets, rowed on board the man of war and put in confinement, charging him with the murder committed by the lieutenant. The Defiance was brought to Callao by one of the lieutenants of the Peruvian navy, having arrived in the harbor on the 10th of September. She was subsequently abandoned to the authorities of Peru, and is in their possession, the United States Minister, Mr. Clay, very properly refusing to receive her. He immediately proceeded to the Chinchas to investigate the affair.

A letter in the New York Journal of Commerce, dated Callao, Aug. 26, after narrating the difficulty, says:

Since writing of the affair at the Islands, I understand that an investigation was held before the American Minister, Mr. Clay, and the Peruvian authorities, which ended in removing the commandant of the Islands, and no doubt heavy damages will be recovered, as Mr. Clay, our Minister, has forwarded his despatches by this steamer, concerning the affair.

Movements of Santa Anna in Mexico.—Santa Anna, it is said, intends to proclaim himself Emperor, as soon as his plans can be completed and his proposed army of 80,000 men organized. In a recent speech to his troops, at the capital, he referred somewhat obscurely to compaigns in which they would have to prove their valor. The new Mexican Minister to Spain, late Mexican Consul at Havana, is to be recalled for his complicity in the affair of the Lady Suffolk slaver. Santa Anna, it is also said, has written to the Captain-General, pointing out the necessity of his immediately sending back the Yucatan Indians.

Immense Lump of Coal.—The mammoth coal column to be exhibited in the Crystal Palace, New York, from the Baltimore Diamond Mine, near Wilkesbarre, Pa., arrived at Philadelphia on Tuesday. The coal is a specimen of the valuable deposits of the Wyoming Valley, and the four pieces forming the column are 5 feet square at the top and base, and weigh 27 tons. The pieces when put together in the palace, with cement, will form a solid column 29½ feet high.

Free Navigation of the La Plata.—A letter received in New York from Rio Janeiro, announces the conclusion of an important treaty between the United States and the Argentine Confederation, which is understood to secure the free navigation of the river La Plata and its tributaries, and also the rights of conscience to our citizens who may sojourn there. Similar privileges are secured to us in Paraguay.

Feat of a Submarine Telegraph.—The King of Holland lately delivered his usual speech to the States General, concluding by 25 minutes past one o'clock P. M. It was immediately translated, transmitted by telegraph to London, and composed and published by three o'clock the same afternoon. The line traverses nearly one hundred miles on the bed of the German ocean. The speech contained 1,750 words.

The Yellow Fever at the South.—The Augusta Chronicle learns from Montgomery, Ala., that the yellow fever was spreading in that city, and a perfect panic had been produced among the people. All those who could get away were leaving.—At the Pensacola Navy Yard on the 28th ult., the decease was rapidly declining.—There had been 86 deaths there since it broke out in July, and 8 or 10 at Pensacola, At Milton, Fla., it is said to be still raging. At Port Gibson, Miss., there had been 450 deaths up to the 29th ult., and 150 were still sick. In some cases whole families were down. Six physicians were ill on the 20th ult., and another requisition had been made on the New Orleans Howard Association for the nurses. The publisher of the Port Gibson Herald had fallen a victim to the epidemic, and the paper had been suspended. At Washington, a small town in Louisiana, Dr. Herd and 22 others had died of fever during the first twenty days of September, and 70 persons were lying ill on the 22d ult. A great many citizens had fled, not sufficient remaining to bury the dead. Those who remained were nearly in a starving condition, being dependent upon a few planters, who sent provisions in carts to within a half a mile of the town. The sum of $1,000 has been remitted from New Orleans, by the Howard Association, for the relief of the sick at Galveston.

Alleged Coal Frauds.—Serious charges have been made in Schuylkill county, Pa., against certain coal operators, of defrauding their customers and the Reading Railroad Company by false certificates of weight. These charges have induced a meeting of the coal operators and business men of the county, for the purpose of making arrangements for a thorough investigation.

☞About thirty colored persons have left Washington county, Va., lately for Liberia.

☞It is thought that pork will not command over $4 in Wythe county, Va., this winter, if that.

Weds'day Evening Oct. 12, 1853.

The Outrage at the Chincha Islands.—A correspondent of the Philadelphia Ledger, writing from the Chincha Islands of the outrage to Capt. McCreran, states that he was taken aboard the Peruvian guardship and there chained hand and foot to a ring-bolt in the deck, and there kept like the vilest criminal for three days and nights not a soul allowed even to see him, not excepting his son, a boy twelve years of age. Whilst there confined a man contrived to speak to him, telling him to eat or drink nothing they gave him, as it was poisoned. In this state he was until a doctor, sent down by the minister at Lima to inquire into the affair, demanded to see him in the name of the American minister, when he very unwillingly was allowed to see him. He instantly demanded his release from irons, saying he could not live forty-eight hours longer in that position. His son then was allowed to see him for the first time. He has since been slowly recovering, though terribly wounded. The writer adds that a duel was about to be fought by the Peruvian official who committed this outrage and an American captain.

The Administration and the New York Politicians.—Secretary Guthrie, it is said, at the instance of the President and the rest of the Cabinet, has addressed a letter to Collector Brownson, of New York, and the other officers of the customs at that port, informing them that the President does not approve of their course in conferring the offices at their disposal upon persons who do not stand upon the Baltimore platform. In other words, the "hard shells" are not to be preferred to the "softs," who are recognized as the friends of harmony and conciliation in the party. The "softs" are hereafter to have the preference. The collector, it will be remembered, is a "hard shell," and it is intimated he has been giving all the offices to his wing of the party.

American Bible Union.—The fourth annual convention of the American Bible Union for the Revision of the Scripture was commenced in New York on Thursday, in the Broom street Baptist Church. Rev. Dr. Cone was elected President and A. D. Kelly, Jr., of Baltimore, one of the Vice Presidents. Among the delegates present was Chas. Farquharson, of Baltimore. The annual report states the year's receipts to have been $27,594, and the balance now on hand, $4,487. Various reports were made and speeches delivered. Rev. Dr. Achilli, of Italy, was one of the speakers. Several committees were appointed on the translation of the Bible. Dr. George Austin, of Maryland, was appointed on the German translation.

Chloroform and Cholera.—The London press mentions a successful application of chloroform upon a man of immense physical power, while under a violent attack of cholera. While in the most violent paroxysms of pain and spasm, the chloroform was administered, and the struggling giant tamed into the quiet of a sleeping infant. The functions being suspended, the horrible symptoms ceased, the medicines became absorbed, and in an hour the man was restore to consciousness, and the disease was conquered.

☞The Cholera in Great Britain is steadily increasing. At Newcastle there has been 935 deaths, and 80 a day—seven times as many as in 1831-'32. At Gateshead, in 15 days, there were 227, or nearly twice as many as in 1831-'32. The disease was visible in Hull, Durham, Hexham, Eton, Berwick, Darlington, Windsor and Belfast, but had decreased at Manchester.

Savannah and Florida Railroad.—It is announced that arrangements are about to be consummated between the Savannah and Florida Railroad Company, and the Brunswick and Florida Railroad Company, the result of which is expected to be the construction of a railroad from the Atlantic to the Gulf of Mexico.

Applications for Banks.—The applications for new banks to be made to the next Legislature of Pennsylvania, exceed in amount of capital *seven millions* of dollars, and for re-charters and extension of capitals over six millions—together, about thirteen and three-quarter millions of dollars!

Libel Suit.—H. H. Robinson, editor of the Enquirer, has ordered Messrs. Pugh, Pendleton and Stanberry to commence suit against Gen. Cary, editor of the Ohio Temperance Organ, for libel. The damages are laid at $20,000.

☞Snow, to the depth of one or two inches, fell in Western New York on Monday.

☞Canadian Oatmeal has grown to be an important article of commerce between Canada and the United States. According to the Toronto Leader, Philadelphia, Cincinnati, Boston and New York are the markets to which most of the Canadian oatmeal finds its way.

Maine Liquor Law.—The Whig legislative candidate in Allegheny county, Pa., are all pledged to vote for and support the Maine Liquor Law in the next legislature. Among them is Charles Naylor, formerly member of Congress from the Third District, Philadelphia.

Washington, Oct. 8.—Mr. Marcy returned to the city yesterday when a long Cabinet session was immediately held.

Death of an Old Convict.—John Williams, who is said to have been an inmate of nearly every penitentiary in the United States, recently escaped from the Missouri penitentiary, was pursued, shot and wounded, from the effects of which he died last week.

☞The last St. Louis papers note an advance in the price of lead, and sales of about 4,000 pigs Galena, in lots, at $5,87½ per 100 lbs.

Washington, Oct. 10.—The sudden return of Mr. Marcy to this city, was induced by the receipt of despatches touching the outrage at Shanghea Islands.

☞The tavern keepers of Philadelphia, like those in New York, are about to raise the price of brandy to 10 cents a glass.

☞Good potatoes were sold on the streets in Philadelphia, on Thursday, for 70 cents a bushel.

THE LANCASTER BARBER'S SONG.

Air—"*The Hunters of Kentucky.*"

Come all ye Lancasterians,
Who need the shaving razor,
Come learn how Samuel Watson's ar',
Can give the greatest pleasure!
Beneath the "*Fancy Store*" he shines,
Where *Mrs Keys* is Fashion mover,
And shows by fashionable signs
He's hair and face improver!
O Sam Watson,
The hair and face adorner!

Come all ye gallant gentlemen,
Who love the angel creatures,
How can ye charm the female race
Without well-shaven features!
How hope for matrimonial joys
In Hymen's arms so glorious,
Without those charms my skill bestows
Which makes each beau victorious!
O Sam Watson,
The hair and face adorner!

Come all ye spruce Fairfieldians,
From country and from city,
Come learn at *cheapest rates I sing*
The truth in this my ditty!
Come with your faces, long and short
Of every rank and station,
The dimes to make or girls to court,
And shine by transformation!
O Sam Watson,
The hair and face adorner!

Come try my skill each gentleman,
A golden thought, by gracious,
The fools are keen as ever cut,
The room is fine and spacious!
Come find that *Samuel Watson* shaves
The face, but not the pocket,
And has not learn'd, like other shops,
To brag like David Crockett!
O Sam Watson,
The hair and face adorner!

THE CITY BARBER SHOP.

JAMES HALL & JOSEPH BLANCHARD, (the former having formerly shaved under Shaffer's Hotel,) have established themselves as City Barbers on Columbus Street, opposite Mrs. Beecher's and near Stump's Swan Hotel, and gratefully address the generous public in the following lines:—

The Public know, the Public tell
Who shave them clean, who shave them well:
No wonder that our Shop is found
The best of all the Shops around,
Where we, in spite of envious carpers,
Officiate as *City Barbers*—
With highest skill and razors keen,
Our work is in our custom seen,
So pleasing to the gentlemen,
They're very sure to come again!
Just ask, who beat can fit them all
For private party or for ball:
To go to church, and be while there
The admiration of the fair;
To chat with ladies at their home,
Or glad attend them when they roam?
The answer is—and all combine
'Tis HALL & BLANCHARD take the shine!
We fire no braggadocio rockets;
We shave the face and not the pockets!
We cut the hair in the latest style,
And use the fashionable oil.
So sweet with ev'ry Paris charm,
It takes the ladies' hearts by storm!
We have perfumery for sale
As rich as Ceylon's spicy gale:
The finest in the market sold
And worth its weight in precious gold!
Come one, come all, who need our aid,
And help the *City Barbers'* trade—
We know our logic must prevail:
The Lancasterians never fail,

ROBINSON & TROUT.

HAS just arrived from Cincinnati, and is arranged for public inspection and purchase, at the celebrated Scoville's (Shaffer) building, diagonally opposite Spurr's Planter's House. As our motto has always been "*The Littlest Profits* and the *Biggest Sales*," our sales and our fame have been proportionably extensive, affording the cheapest, finest, and most enduring articles in our line. In fact, they speak for themselves in language of electric brilliancy which the public perfectly understand!—

Young Ladies, when a shopping out
Remember Robinson & Trout,
Their services commanding
To get the best of *under-handing*,
And following the golden rule
A vast improvement of the *sale*—
Young Gentlemen, who hearts have won
By wearing work we pride upon,
Don't pass by Trout & Robinson,
Whose Boots and Shoes in ev'ry creak
Their strong and lasting nature speak:
We bet we'll *Shoe* you sights this time,
And g'ue you *Boot* in way sublime!

Thanking the public for their very liberal patronage, we solicit a continuance of it while directing their attention to our cheap stock, comprising, in part, the following:—For Gentlemen, the fashionable Red Top, Congress, Kip, and the best coarse Boots, Shoes and Slippers, of every grade. For Ladies, the Jenny Lind, the Bronzed, Patent Calf, French Morocco, Rosette, None Such, Gaiters, Buskins and Bootees, including the most celebrated Gem Shoes for both Gentlemen and Ladies. In fact, we have for the Ladies the most fashionable and extensive variety ever offered in this city. For Children every kind which cannot fail to please. Findings of every description for the trade.

☞We respectfully direct attention to the workmen employed in our manufacturing and repairing department, who are famous for our fine, especially Buckskins, who out-*Rivals* the Shakspeare's *Richard*, for he "*is himself*" (and nobody else), always in the superiority of his workman hip.
