**STOCKMEN WORRIED**

Washington, D.C., Nov. 9.—In the city of Washington, the headquarters of the United States Army, a meeting was held to discuss the problem of foot and mouth disease. The disease, which is one of the most destructive and contagious of all diseases of cattle, horses, and swine, has been a serious problem in this country for many years. The United States Department of Agriculture has managed to provide a satisfactory and efficient system of control, which is the result of years of hard work by many dedicated men. It has proven to be an effective means of combating the disease.

**WASHINGTON TRAGEDY**

Washington, D.C., Nov. 9.—The accident occurred to Czar Nicholas of Russia and his family in their royal train. The train derailed near the outskirts of the city, and the Czarevich, who was traveling with the royal party, was killed in the accident. The Czar and his family were on their way to the Black Sea, where they were planning to rest and enjoy the beautiful scenery.

**HOSPITALS Overflow With Wounded**

Washington, D.C., Nov. 9.—The hospitals in the capital city are overflowing with wounded soldiers from the recent battle in the north. The battle was fought against the German army, and the casualties were severe. The hospitals are working overtime to care for the wounded soldiers, and many more are expected to arrive in the coming days.

**ARAB RAIDING SETTLEMENTS**

British and Indian troops have advanced into the Arabian Peninsula and have occupied several of the settlements. The Arabs have been fighting back, and the situation is tense. The British and Indian forces are preparing to launch a full-scale attack on the Arab strongholds, and it is expected that the fighting will continue for some time.

**SOMERSET**

Washington, D.C., Nov. 9.—The British battleship Somersett has arrived in the harbor of the capital city. The Somersett is one of the most powerful warships in the British fleet, and its arrival is a sign of the British government's determination to protect its citizens and interests abroad.

**WASHINGTON**

Washington, D.C., Nov. 9.—The United States Army has mobilized all of its resources to fight the foot and mouth disease in the United States. The disease is spreading rapidly, and the army is working round the clock to combat it. The army has been joined by the navy and the air force, and the three branches of the military are working together to protect the nation.

**CONGRESS**

Washington, D.C., Nov. 9.—The members of Congress have met in special session to discuss the situation in the Arabian Peninsula. The members are concerned about the safety of American citizens in the region, and they have called for increased military action to protect them.
