DICKINSON SAYS WE GET WIRELESS

Declares His Company Is Going to Send a High Power Tower Here.

J. B. Dickinson, manager of the Texas Fiscal agency, "underwriters, wireless securities," writes The Herald from San Antonio that the small wireless machine recently sent here and then shipped away, will be replaced by a larger one more suitable for El Paso.

"I have always endeavored to do the right thing at all times, but have been unfortunate in securing representatives," he says, and continues:

"The small machine which Mr. Beauchamp, the trustee, shipped from El Paso to Ft. Worth recently, will be replaced with a high power equipment that will work successfully between your city and the coast, and will work with stations in this part of the state."

A letter from Mr. Dickinson dated last week at San Antonio and addressed to F. W. DeCroix, then local agent for the company in El Paso, said: "I have made up my mind to 'cut out' for the present."

A letter also received last week by DeCroix from Chas. House Beauchamp, the trustee, said:

"I believe you can do business there. However, Mr. Dickinson says you can't, and he says that is not all—nobody else can sell anything to those people in El Paso. He says they all talk big and make big statements, but they are a bunch of windies."
