#### Millinery opening tonight.-Calisher's, PROBLEM IS PUT UP TO RAILROADS

Must Meet Constantly Increasing Cost of Operation, but-How? Chicago, Ill., Sept. 22.—The inter-

state commerce commissioner, Lane, today indicated at the rate hearing in progress here that the railroads would lave to meet a constantly increasing cost of operation by some other means than that proposed-increase of rates. "As the country develops," said the ommissioner, "there will be more and more freight delivered to carriers and by the reasoning of railroad officials here, that means increased cost per unit of service upon which they will demand an increasing scale of rates. I regard it as a serious menace to the western country if the rates are constantly increased. We must work out this problem on other lines. If not there is no time when we can say the

maximum rates have been reached." Millinery opening tonight.-Calisher's,
