Heavy Fighting Is Reported in Progress Along the Frontier.

# OTTOMANS SEIZE GREEK STEAMERS

London, England, Oct. 8 .- A news agency dispatch from Cettinje this morning says that war has been declared by Montenegro on Turkey. The declaration of war, the dispatch continues, was delivered to the Ottoman government by the Montenegro charge d'affaires at Constantinople.

Heavy fighting is said to be in pro-Heavy fighting is said to be in progress between the Moninegrins and the Turkish troops along the frontier. A brigade of Turkish infantry proceeding from Scutari to Tusi, on the Montenegrin frontier, was attacked last evening by a large force of Malissori tribesmen just before reaching Tusi. The battle, according to the dispatch, still was proceeding this morning.

patch, still was proceeding this morning.

A further dispatch from the same source says the Montenegrin government instructed its representative at Constantinople to break off all diplomatic relations with Turkey today and to leave Constantinople immediately. The Montenegrin government at the same time is said to have handed his passports to the Ottoman charge d'affaires at Cettinie.

passports to the Ottoman charge d'affaires at Cettinje.

Other Invasions May Follow.

The declaration of war on Turkey by the little kingdom of Montenegro forestalled the action of the European powers in favor of peace by only a few hours.

The ambassadors at Constantinople and the ministers at the capitals of Bulgaria, Servia, Greace and Montenegro had been instructed to make representations on behalf of their governments today and a dispatch from Belgrade affirms that their program had been carried out there. It was officially announced in Constantinopie that diplomatic relations with Montenegro have been broken off.

It is thought likely that the other Balkan states may decide to follow the lead of Montanegro and throw their armies into Turkey.

The situation of the Christians in Albania and Macedonia and the demand of the Balkan states that those provinces should be granted autonomous government are the main causes of the crisis.

Dispatches from Constantinople re-

Dispatches from Constantinople received during the night say military patrols were going round the city requisitioning all the horses. The military authorities had placed troops on board a large number of Greek vessels which they had seized in Turkish waters and it is said these are to be used for the transport of troops. The Greek legation has issued permission for the landing of these troops.

Wilson Says Some of Most Highly Protected Industries Pay the Least.

# TRUSTS CONTROL THE LABOR MARKET

Norton, Kans., Oct 8.—"Some of the most highly protected industries in this country pay wages that are below the living scale at the same time that the prices they are making are so great that they can build new factories out of their surplus every second year," declared governor Woodrow Wilson in his speech here today, "It is one of the grandest pieces of bluff and humbug that has ever been known in the history of political deception.

"The very men who have been most successful in building up the trusts are also the very men who have been most successful in preventing the organization of labor.

"Don't you know," he asked, "that one of the objects of their combination is to control the labor market? And do you imagine that they have ever set deliberate plans for giving the workingman anything comparable in the way of wages to the proportion of the profits which they themselves pocket? They do not have to give the laboring man any more than he can get in the competition of the market. And they do not give him any more.

"I want to widen the market for American labor. I want to see conditions exist in which men will compete for American labor. I want again to see a time come when we shall realize that the highest priced labor in the world is the cheapest labor in the world is the cheapest labor in the world, that what is produced by oralns and intelligence and skilful touch is a great deal cheaper than what is produced by stupidity and dullness and the whip of the master.

"American Labor Cheapest in World."

"I tell you this, that American labor up to date is the cheapest in the world. I can prove it. American manufacturers compete in foreign markets in the scale of goods manufactured in those markets, near those markets, by labor that receive only one-third the remuncration of American labor. Now, what does that mean? It means they can afford to pay American workingmen three times as much and still undersell their competitors in the foreign markets, and yet the American workingmen three times as much and still undersell their competitors in the foreign markets, and yet the American workingmen three times as much and still undersell their competitors in the foreign markets, and yet the American workingmen three times as much and still undersell their competitors in the foreign markets for the lines of competition and you stiffen the lines of competition and you stiffen the lines of shor control forget that.

# FEDERALS REFUSE TO GO AFTER THEM

Edward C. Houghton jr. was a witness before the United States senate Mexican investigation committee yesterday afternoon. He sald he had just returned from the Corralitos ranch, where he had been for three weeks. In that time the ranch had lost from 20 to 30 head of cattle every day by the looting of the rebels. Last week they lost two stallions that cost \$1,000 gold lost two stallions that cost \$1,000 gold apiece, as well as 17 other horses and a large amount of provisions. The looting took place only 10 miles from Casas Grandes, and, although Gen. Polo Grounds, New York, Oct. 8 .- Boston won the first game of the world's championship baseball series, taking it from New York on the Giants' home grounds. Score, 4 to 3.

It was a beautiful day with a tremendous crowd present, including a big delegation of Boston fans and the mayors of both cities. It was a real ball game from start to finish.

New York defeated Philadelphia a year ago in the first game of the world series by the same score as it lost to Boston today.

Forty thousand persons saw a pitchers' battle today in which Joe Wood, of Boston, turned back the Giants from the plate time and again by his clever box work. The Giants were the first to take the lead on sharp hitting by Doyle and Murray. Tesreau, the Giants' pitcher, held the Bostons hitless until the sixth, when Speaker's triple and an infield out scored the Red Sox's first run. NEW YORK MAKES FIRST RUN.

New York made the first runs, when the Ginnis scored two in the last half of the third. Devore and Doyle both passed over the home plate on a single by Murray in that inning. Just prior to this Doyle knocked the first two-bagger of the game, which started him well around the diamond for his

When the Boston fans began to root for a hit from the home team in the sixth, old Tris Speaker grasped the bat hard, spat on his hands, pulled his cap over the corner of his face, clenched his teeth and clouted out the first three-bagger of the game. He scored when Lewis knocked a hot grounder. BOSTON SCORES THREE.

Boston followed this feat in the seventh by scoring three runs, and making the score four to two in favor of visitors. The scores in this incing were made by Wagner, Wood and Hooper.

CRANDALL REPLACES TESREAU.

New York took Tesrenu out of the box after Boston got through seering, and Crandall took his place. The slow hall of Crandall, as compared to the speedy one of Tesrenu, worried the Bostonians, and they didn't get to the ne plate any more. New York did not rolly, however, ended with the home team scoring but one more run.

Wood, who pitched for Boston, stood his ground throughout and did some wonderful work. Tesreau pitched a fine game until the Bostonians "found" him, in the seventh. Both showed speedy delivery and put the balls over the base with great force.

When the Glants went to but in the last luning, they needed two runs to tie the score and three to win, and the fans had about given up hope for the home team. The Bostonians were wildly cheering, but still a bit un-

crowd cheered. The Giants were their home uniforms of white with thin black stripes. Larry Doyle, the Giants' second baseman and captain, was presented with an automobile. The Grants began their batting practice.

The Red Sox came on the field five minutes later and were given a hearty cheer. The Boston players warmed up along the side lines while an army of photographers flocked over the field snapshooting the players. The crowd gave vent to its enthusiasm by cheering the team members.

Yerkes was out. Doyle to Merkle, Hooper taking second on the play.

With Speaker up, the crawd gave a cheer, but old Tris went out, Doyle to Merkle. Hooper went to third on the play. Lewis filed out to Snodgrass. No runs, no hits and no errors resulted in this inning.

Second half—Wood opened the second half of the inning with some terrifically thrown balls over the bases for the New Yorkers. Doyle was his first victim. Larry went out, Wagner to Stahl. The lower grandstand was black with people and as soon as the back alsle began to choke with the throng, the gates were closed. There were only a few bare spots in the field bleachers.

The Boston delegation, waving red flars, with the aid of a brass band, helped to keep on edge the feverish excitement of the crowd.

Just before the time for the game it was announced that Tesreau and Meyers would be the batteries for New York and Wood and Cady for Boston.

It is said that extradition charges may be filed against Alanis by the Mexican government. If this is done, the local charge will be preferred against him first.

Senura Alanis ruled Juarez for a day after the rebels had evacuated the town, when Pascual Orozco resumed the field with his forces. She, with a band of armed men, rode into the city, which was awaiting the coming of the federals, disarmed the temporary government's police and rode about the town with her falthful soldlers without being molested.

She was not arrested by the American officers and Tuesday morning called at the federal building for a permit to see her husband in jail.
