

### A Redfern Corset

is recognized as being the one corset that fills all requirements on occasions where every detail of the costume must be absolutely correct.

Corset catalogue will be mailed upon request. Write for it.

## CONSERVATION SAVES FISH

### Government Puts a Stop to the Waste of Young Fish in Rivers and Lakes.

#### MANY HATCHERIES ARE ESTABLISHED

(By Frederic J. Haskin)  
Washington, D. C., Nov. 25.—It was the decrease of the supply of natural fish in various parts of the country that led to the establishment in 1871, of a federal conservation bureau, now known as the bureau of fisheries and is under the jurisdiction of the department of commerce and labor. In its 40 years of existence, this bureau has accomplished an almost unbelievable amount of good work in securing a better recognition of the importance of fish cultivation and protection. In the beginning the bureau or commission was only given authority to conduct investigations as to the causes of the decrease of fish, both upon the coast and in the interior waters. It soon developed the possibility of rendering practical service in the way of supplying the fish to remedy the decrease and in the meantime this fact, congress from time to time has increased its authority and enlarged its functions until it is today recognized as one of the most important agencies in the conservation and increase of the food supply of the nation.

#### Conserving Supply Sources.

First of all, as the work of the bureau is now conducted, attention is given to the conservation of all sources of supply. Much of the decrease of fish was due to the fact that the fishing industry fish were caught and killed without reference to their size and condition, and the sacrifice of female fish during the spawning season meant the loss of the young fish for future seasons of spawning. For this purpose fish hatcheries were established and arrangements were made to have the fishermen preserve the fish eggs and turn them over to the government officials, who provided facilities for hatching them and afterwards distributing the young fish where the need was greatest.

A most important feature of this work has been the planting of cod fisheries along the New England coast. One of the most important of the United States fisheries stations is located at Gloucester, Mass., where hatched millions of fish eggs each year. When the cod fishermen go out in their boats, they carry with them the apparatus provided by the government for the preservation and the fertilization of the eggs taken from the fish. In this way the young fish or fry are raised to supplement those that are naturally taken in a manner. It is claimed that a much larger percentage of the eggs are hatched artificially than in the natural state, as they are kept undisturbed and the conditions are better. For the securing of these eggs a man employed by the government goes upon the vessels in New England and collects them. In other parts of the country they are frequently brought in to hatcheries by the fishermen and in some instances are sold to the government.

#### Many Hatching Stations.

There are 32 main hatching stations and 82 auxiliaries in 31 states, all operated by the United States bureau of fisheries and during the year ending June 30, 1912, the output was more than 3,450,000,000 fry, over 22,000,000 besides 22,000,000 fish eggs consigned to the hatcheries which are now being raised in the hatcheries. The value of the 22,000,000 which were shipped to foreign governments. Most of these fish planted were of the kind most valuable for food, such as the Pacific coast salmon, yellow perch, cod, mackerel, pike, perch, flounder and lobster. There are hatcheries upon the Great Lakes and by special arrangement with the Canadian government the United States bureau of fisheries has back two egg collecting stations for white fish, steelhead and lake trout at points in Ontario. In the inland states there are a number of hatcheries which are established in the production of eggs of rainbow trout, land locked salmon, brook trout, and steelhead.

#### Unique Transportation Method.

It was surely an ingenious American who devised the fish transportation cars which are used by the bureau. These cars contain tanks in which the fish are placed and which can be made to keep the water at the required temperature. In the transportation of such fish as brook trout, there is great danger if the water becomes too warm, and arrangements are always made to have ice provided at certain stations along the route. The cars are attached to the fastest trains in order that no time be lost and they are supplied with the best possible springs to avoid the slightest unnecessary jolt to the delicate passengers. The comfort of the fish is not overlooked, for the cars are supplied with comfortable movable seats for the daytime and Pullman sleeping berths for the night. Frequently fish eggs will be hatched in the tanks upon these cars while they are traveling at the rate of 60 miles an hour.

One of the most important functions of the work of the bureau of fisheries is its biological investigation which is being continually increased. During the past year considerable attention has been given to the study of the life history of the rainbow trout, a kind of parasitic larval stages of two kinds of musgell valuable to pearl button makers which have heretofore been puzzling to scientists. The life history of the rainbow trout has been studied and the results published in some circulars which it is believed will be of value both to natural fishermen and to button manufacturers. In this work, the bureau has had the active cooperation of the professors and the laboratories of the universities of Iowa, Minnesota and Missouri.

#### Diseases of Fish Studied.

Attention has also been given to the

#### SWAMP-ROOT

Is not recommended for everything, but if you have kidney, liver or bladder trouble it will be found just the remedy you need. At drug stores in fifty cent and dollar sizes. You may have a sample bottle of this wonderful new discovery by mail free. Also pamphlet telling all about it. Address: Dr. Kilmor & Co., Birmingham, N. Y.—Advertisement.

# Thanksgiving

## TURKEYS

### THE BEST BROUGHT TO EL PASO

#### We Take Pleasure in Repeating "Nowhere Like NATIONS for the Thanksgiving Turkey"

IN past seasons the majority of El Paso people have depended on Nations to supply the Thanksgiving turkey, and they have never been disappointed. This year we will receive the best lot of turkeys ever brought to the El Paso market. While we will have an ample supply, we suggest that you place your order early. Prices on turkeys are—

Live Thanksgiving Turkeys 20c Per lb. Dressed Drawn Turkeys, 25c Per lb.

### Other Appetizing Thanksgiving Items

- Eastern Capons
- Geese
- Ducks
- Hens
- Broilers
- Spring Chickens
- Suckling Pigs
- Fresh Lobsters

#### Special Invitation

We extend a special invitation to everybody to visit our market on Wednesday next, when we will make a special Thanksgiving display. This display will be entirely out of the ordinary and will be composed of everything on the Thanksgiving market.

#### BLUE VALLEY BUTTER

Best on the Market

- Jumbo Frog Legs
- Sealship Bulk Oysters
- New York Count Oysters
- Baltimore Canned Oysters
- Blue Point Shell Oysters
- Quohang Clams
- Fresh Water Black Bass
- Fresh Crappie
- California Fish

### Thanksgiving Items in the Grocery Department

- Apples of all kinds
- Fancy California Celery
- Fancy California Lettuce
- Fancy California Artichokes
- Fancy California Cauliflower
- New Jersey Cranberries
- California Red Emperor Grapes
- Spanish Malaga White Grapes
- Heinz Celebrated Mince Meat
- Arizona Oranges

### Full Line of New Nuts

- (In the shell and shelled)
- California Walnuts
- California Almonds
- Brazil Nuts
- Naples Filberts
- Texas Pecans
- Jordan (Jumbo) Almonds
- Valencia Almonds
- Shelled Walnuts
- Shelled Pecans (halves)

#### Plum Puddings

Franco-American Plum Puddings; individual, 2 for 25c; 1-lb tins, 35c; 2-lb tins, 65c; 3-lb tins, \$1.00. Franco-American Custard Sauce, per can, 20 cents.

#### DEVELOPMENT

### MILE OF TRACK IS PUT DOWN EACH DAY

#### Four Hundred Men at Work on Orient Extension to Alpine; Nestorium in Alpine Said.

Alpine, Tex., Nov. 25.—Fifty cars of steel have arrived at Fort Stockton for the Orient extension to Alpine, and the track laying has been started at the rate of a mile a day. Four hundred men have been at work on the yards in Stockton, and a large part of this force will be transferred to the Alpine work.

A. J. Edwards has sold his natural-gum property to the west of Alpine, to H. B. Cowles, who will develop the irrigated farm which Mr. Edwards has started there. Mr. Edwards will move his family to Ballinger at once, hoping that the lower altitude will be of benefit to his wife's health.

### BELEN HAS BOOM IN HOUSE BUILDING

Belen, N. M., Nov. 25.—Considerable building is being done in Belen this fall, a number of new residences and other buildings being in course of erection at this time. The People's Lumber company is building two houses for rental purposes. The renting program still exists in Belen, there not being enough available houses to supply the demand.

Other houses are being erected by Gobel & Sons on property owned by them. One of the best houses now being built is owned by G. A. Banker.

A building is also being erected which will be used for a hotel by Mrs. R. C. Kuhn. This structure is being drilled with a 20-inch bit, it has reached a depth of 85 feet and already has 25 feet of water bearing sand and gravel.

J. Wiley Taylor has also closed a contract to drill an irrigation well on his farm three miles east of Belen. Work to begin at once. Other farmers are arranging to drill wells and a great increase in acreage under irrigation is assured for next season.

### PAPES DIAPEPSIN ENDS INDIGESTION

Time it! No sour, gassy stomach or Dyspepsia in five minutes.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapepsin is noted for its speed in giving relief; it's harmless; it's a certain unflinching action in regulating sick, sour, gassy stomachs. It's millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles has made it famous the world over. Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store, and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas, causes headache, dizziness and nausea, eruptions of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. It's promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

### EASTERN GRILL

Mar Chew, Proprietor. Will open Sunday, November 25th, at First Class Chop Suey and Noodle Dining Room, upstairs over Eastern Grill. Entrance through main dining room.

### LEVY GROCERY COMPANY

EVERYTHING GOOD FOR THANKSGIVING.

- Cranberries, 1 qt. 25c
- Evaporated Milk, 2 lbs. 25c
- Dates, 2 lbs. 25c
- Nuts, all kinds, lb. 25c
- Plum Pudding, 2 for 25c, 35c, 65c
- Cluster Raisins, lb. 25c
- Seeded Raisins, 2 pkgs. 25c

#### DEVELOPMENT

### WORK IS PUSHED ON THE LUBBOCK CUTOFF

Clovis, N. M., Nov. 25.—Construction work on the Lubbock-Clovis cut off on the Santa Fe is progressing well and the expectations now are that the grading will be completed by the middle of December and the laying of rail will commence immediately thereafter. The character of the country through which this road runs has enabled the contractors to make good headway. There are only two places where any cuts or fills have been necessary. The new road will be laid with 90-pound steel and the ballasting and rail laying will begin simultaneously, so that when rails are laid the ballasting will be done and the road can be immediately opened for traffic. Trains will be running over this piece of track early next summer, and president Hipley, of the Santa Fe, announces that through passenger service from Galveston to California will be inaugurated in the fall of 1913.

### GRADING GANG IS MOVED FROM STARK TO HEREFORD

Naco, Ariz., Nov. 25.—Contractor Scott, of Douglas, with his grading gang and the ballasting crew have moved from Stark Station to Hereford to complete the main line road to the west of El Paso & Southwestern railroad.

### WOMEN CROWD COURT AT SNEED TRIAL

Fort Worth, Tex., Nov. 25.—Testifying today in the case of John E. Sneed, on trial a second time for the alleged murder of Capt. A. G. Boyce, W. A. Weaver, a Bokchito, Okla., lawyer, said he was in the Sneed hotel lobby on the night of the killing. When Sneed entered the lobby, Weaver testified, he saw Sneed with a group of men where Boyce sat. "There comes the witness now," said the judge, but after the first shot was fired, he could not see at whom Sneed was shooting and did not know who made the remark.

The announcement that Sneed probably would take the stand in his own defense late today brought a throng of women to the courtroom.

### TWELVE KILLED; 100 HURT IN FACTORY EXPLOSION

Waukegan, Ill., Nov. 25.—Twelve were killed and 100 more than 100 injured in an explosion in the starch house at the plant of the Corn Products company here today. Twenty-five seriously injured workers were taken from the burning building and hurried to hospitals in the city. It is feared at least 15 others are still in the hospital here today. Firemen were unable to quench the flames, which burst from all quarters of the building after the explosion.

### RESULTS TELL

There Can Be No Doubt About the Results in El Paso. Results tell the tale. All doubt is removed. The testimony of an El Paso citizen can be easily investigated. What better proof can be had? Mrs. L. Griner, El Paso, Texas, says: "We use Doan's Kidney Pills in our family whenever we need a kidney medicine. It gives me the greatest pleasure to endorse this statement. I gave in their favor some years ago. I have induced many people to use this preparation and they have all come back to thank me for doing so. I consider it a duty to tell how effective Doan's Kidney Pills had been after doctors had failed. One of our relatives was so that there was no hope for him as he was a victim of kidney complaint. Doan's Kidney Pills, however, saved his life and this person is now healthy." For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.—Advertisement.

### UNDERSSELL OTHERS

- Currants, 2 pkgs. 25c
- Lemon Peel, lb. 25c
- Citron, lb. 25c
- New Apple Butter, 2 lbs. 25c
- Syrup, 1 qt. 25c
- Bananas, dozen 25c-25c
- Oranges, dozen 25c
- Chestnuts, lb. 25c
- Canton Ginger Jars 25c

204-206 E. Overland St.

### RUSTLERS KILL TWO NEW MEXICO DEPUTIES

Albuquerque, N. M., Nov. 25.—In a pitched battle with a band of sheep rustlers Saturday night at San Isidro, 45 miles from Albuquerque, Pablo Lacerro and Manuel Archuleta, deputy sheriffs, were instantly killed and Moses Aboushman, a wealthy sheep raiser, was seriously injured. Aboushman and the officers, with a posse of nine men were in pursuit of the men who had stolen 200 sheep from the Aboushman ranch. The posse had lost the trail and had given up the chase. At dusk they sighted a camp fire. Without thought of danger they rode up and were shot down. The rustlers escape into the mountains, where they are being pursued by a strong posse.

### Wake Up! You Lazy Stomach!

Send Your Underwear To This Laundry

People who complain they are worn to a frazzle are nearly always dyspeptic and are recommended to use Stuart's Diapepsin Tablets. The stomach gets lax, food ferments and sours, gas belches up, there are symptoms of bloating, the blood becomes thick and sluggish, the liver is blamed, the head is heavy, the mind a blank and the dining room is a chamber of horrors. One of the greatest evils of our modern life is the quick lunch. To this evil, as much or more, than any other, may be traced the preponderance of the stomach troubles of our time. Instead of taking time to thoroughly masticate the food before swallowing it, the average person rushes through the meal, bolting the food, deglutition taking place while it is only partially mixed with saliva, and only half masticated, thus leaving the stomach to do the work the teeth should have done. Stuart's Diapepsin Tablets contain digestive elements, a single grain being capable of digesting 3,000 grains of food, including meats, eggs, grain, vegetables, starches and minerals. They prepare every particle of food by thorough digestion for ready absorption and assimilation by the intestinal glands, which pass it into the blood, whence it is conducted to all parts of the system, rebuilding and revitalizing it. Every drugist has Stuart's Diapepsin Tablets in stock and sells them at 50 cents a box. (Adv.)

### CHINAMEN RELEASED

Five Chinamen who had been ordered deported were given their liberty Monday on orders from the commissioners' court. They were Wing Hop, Yee Sing, E. Moy, Woo Chee Gung and Lee Hing. All had appealed their cases.

### TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO QUININE TABLETS. Drugists refund money if it fails to cure. E. W. GROVES' signature is on each box. 25c.—Adv.

Send Your Underwear To This Laundry. Gentlemen! Soft Water, Pure Soap. Care in Washing and Drying. So the Flannels do not shrink and Sanitary Conditions are reasons why you should. For your comfort and the sake of your underwear—try us. Phone 2177. Elite Laundry Sanitary and Fireproof 412-414 S. Oregon St.

### THIRD TRIAL FOR MRS. AGNES ORNER

(Continued from page 1.) worried about her case in El Paso, is more noticeable now. Mrs. Orner looks rested. The tired look has gone from her eyes and they look clear and bright, and she speaks confidently of the outcome of her case. When comment was made on her good physical condition at the jail, she said: "Yes, you see, sheriff Joe Harrison came here a week ago and he feeds me good and plenty. They starved me at the El Paso jail. There I got nothing but beans, beans, beans. My, but a person gets tired of beans. Here I get everything good to eat. I could not wish for anything better to eat."

### WILL NOT POSTPONE DEPARTURE FOR ENGLAND

Washington, D. C., Nov. 25.—Reports that the gravity of the European situation had brought about a change in diplomatic plans and had indefinitely postponed the departure of James Bryce from Washington were denied at the embassy here today. As announced at the time of Ambassador Bryce's resignation, his departure will depend on the settlement of the Panama canal situation and the adjustment of Great Britain's protest against concessions to American shipping.

### Navy Helps Commission.

The first investigations carried on for the purpose of studying the conditions of deep sea fish were made possible by the cooperation of the United States navy, which placed a small steamer at the disposal of the fish commission. But as the need became apparent facilities for this work were provided by special appropriations.
