Night, 50c, 75c, \$1.00, \$1.50—Seats ready Tues. at Ryan's.

NOTE—"Granistark" has no connection with "Beverly" being entirely different and far superior in every way.

FRENCH JURIST AND
NURSE MURDERED

Double Murder is Believed by Paris Officials to be Act of Vengeance by Automobile Bandits.

Paris, France, Feb. 5.—Edouard Pelletier, a high official of the French department of justice, was murdered in his residence here today. A woman nurse, who was attending him, was also killed.

It is supposed that the crime was intended as an act of vengeance and warning.

Pelletier was formerly chief of the bureau of pardons at the ministry of justice, but had been in ill health for some time. He was a man of considerable wealth.

He was found strangled in his chair in his library. The nurse's body lay in another room, where she had from all appearances been hacked to pieces with an ax.

An investigation by the police of the young woman's past has given rise to the theory that she and Pelletier were associated with the "demon chauffeur" Bonnet and his gang. It is thought she admitted the murder to the police, and he, after strangling Pelletier, made an end of the sole witness. About \$1000 cash was stolen.

ATTORNEY DARROW
GRILLS HIS ACCUSER

Hert Franklin Admits He Obtained Immunity After Bribing Jury By Testifying Against Darrow.

Los Angeles, Calif., Feb. 5.—Against acting as his own counsel, Clarence S. Darrow, former chief counsel for the McNamara brothers, cross examined Hert Franklin today and obtained an admission that Franklin, his quidnam chief "investigator" in the dynamite trial had procured immunity for testifying against Franklin admitted he had pleaded guilty to having bribed Robert Bain, the McNamara juror for the corruption of whom Darrow is now on trial, and that he also had been "exempted" from punishment for testifying against Darrow in the case growing out of the alleged bribery of George N. Lockwood, a McNamara venalman. Darrow was tried several months ago on the Lockwood charge and was acquitted.

Franklin declared his immunity was a "matter of opinion" but at length accepted a stipulation made by assistant district attorney Joseph Ford that he had obtained immunity. The immunity feature was credited with having exercised great influence with the jury which acquitted Darrow in the first trial.

FRENCH BANKERS AGAIN DELAY
BIG LOAN TO CHINA

New York, N. Y., Feb. 5.—Confirmation of reports from Peking of a further hitch in the Chinese loan negotiations was received by American representatives of the syndicate today. Some of the objections advanced by the French bankers were unexpected. It was said, but these, the American bankers thought probably will be sustained because of the French position in the French interests in the proposed loan.

It appears that Russia is to finance only half of her one-eighth interest while the Japanese participation will be financed entirely by the French. In effect, France is to supply nearly half of the loan. For that reason, the American, British and German bankers are willing to concede some of the claims made by the French group.

Subscribers failing to get The Herald promptly should call at the office or telephone No. 2030 before 6:30 p. m. All complaints will receive prompt attention.

Window No. 3

You should look in this window. It has some very attractive articles at very much reduced prices, which we find by inventory ought to be sold.

The A. D. Foster Co.
El Paso's Popular Jewelry Store.
J. F. Daniels, Mgr.

HOW MUCH DO YOU PAY?

The real cost of life insurance can not be determined by one year's payment alone. You may pay some companies a little more or less the first year than we charge—BUT—the dividend we return our policyholders at the end of each year often exceed those paid by other companies \$2.00 to \$15.00 per \$1,000—which means just that much saved. We can do this because we earn more. Still other companies pay NO dividends at all—but ask you to let their stockholders have the excess profits earned by your money. Get that?

Productive farms are the backbone of the nation, and over 80 percent of our assets consist of farm loans. The farm produces regardless of seasons—foreign wars—pestilence—or stock jobbing in "Wall Street." We own no fluctuating stocks or bonds—therefore the stock market can't affect the Two Hundred and Fifty Million Dollars of real value behind our farm loans. You can save money by having your life insurance with us—make me prove it. Write me at P. O. Box 121, El Paso, for cost at your age; phone 4570, or call at 217 American Bank Building—any way—so you "Obey that impulse." The coupon below will enable you to "do it now."

J. J. TYNDALL, District Manager,
P. O. Box 121, El Paso, Texas.

PEARSON MILLS GET
92 CARS OF LUMBER

Shipments Over the Mexican Central Road Will Keep Mill Running to March 1.

Lumber sufficient to keep the Pearson plant in El Paso operating until March 1 is being received at the El Paso Milling company. A shipment of 92 cars has been received from Chihuahua over the Mexican Central and 20 more cars are expected this week. This is sufficient raw material to run the mills until March 1, with a reduced force.

WRECK STORE IS
WRECKED BY FIRE

Early Morning Blaze Threatens Business District; Explosion in Drug Store.

Fire believed to have originated in a trash box in the basement of the Kress store, 211 and 213 Mesa avenue, at 5:30 o'clock Wednesday morning, was responsible for the almost total loss of the stock in that building and \$5000 damages done to the building. Due to the arrival of the central fire department, shortly after the alarm was turned in, a disastrous fire was probably averted, the store building being located in the heart of the business district of the city. The fire had gained considerable headway before the alarm was sounded and when fire chief W. W. Armstrong arrived, a second alarm was turned in. The Mesa and Sunset fire companies responded to the alarm.

The stock in the store which filled the basement was a complete loss. It was estimated that 40 percent of the stock on the first floor was destroyed by fire and water. The flames from the basement burst through the flooring of the first floor. It required one hour of the combined efforts of the three fire companies to extinguish the fire.

A. S. Howard, the manager of the store, who was on the scene shortly after the alarm was turned in, stated that he was unable to account for the fire. It was chief Armstrong, who expressed the opinion that the fire was in a trash box, which he said, was located in the basement underneath a chute through which the trash was sent down. Mr. Howard stated that the trash with charcoal in the damage to the stock, as an inventory had not been taken for some time.

At 1:45 Wednesday, the central company responded to an alarm for a fire in the Merchants block building, on Oregon street, in the 400 block on North Oregon street. Almost the entire stock in the building was destroyed. No fire followed the explosion, which although believed to have been produced by chemicals, have not been accounted for.

A fire in the Merchants block, at noon Wednesday, the central company responded to an alarm for a fire in the Merchants block building, on Oregon street, in the 400 block on North Oregon street. Almost the entire stock in the building was destroyed. No fire followed the explosion, which although believed to have been produced by chemicals, have not been accounted for.

ASSERTS WOMEN DRINK
MORE LIQUOR THEN MEN

Senator John Hecker, of Denver, Is Attacked for Saying That Women Drink More Liquor Than Men.

Denver, Colo., Feb. 5.—Twenty women to one man in Denver drink intoxicating liquors, according to a statement made by Senator John Hecker, of Denver. It followed a vigorous attack by Mrs. Helen Ring Robinson, Colorado's first woman senator, upon a statement published in a Washington newspaper, and attributed to Hecker, to the effect that "women in Denver drink more liquor than men."

Senator Robinson denounced the quoted statement as an insult to the women of Colorado, and demanded more the expulsion of Hecker from the state senate if it should be repeated.

BOMB CONSTRUCTOR IS
HELD ON MURDER CHARGE

New York, N. Y., Feb. 5.—John Paul Farrell, janitor, charged with the construction of the bomb which exploded in the Bronx, was held on a charge of murder today and remanded to await the action of the grand jury. Unhappy, unshaven, shabby and almost unrecognizable, Farrell, slouched before the coroner's jury.

The police after careful investigation, have confirmed all the details relative to the explosion, the three bombs, which they have not established, however, whether he had or has hallucinations with reference to the bomb which killed Mrs. Helen Taylor and that sent to Judge Otto Rosenthal.

This Farrell made to an assistant district attorney sweeping denial of all statements credited to him yesterday. He declared he knew nothing of the matter, and that he had never constructed nor sent any of them. He admitted he had made a "confession" at police headquarters and explained that he had been "hounded" until he decided to "get it over with."

CINCINNATI GIRL WEDS PRINCE
MICHEL MURAT AT PARIS

Paris, Feb. 5.—The wedding marriage of Helena Stallo, of Cincinnati, and prince Michel Murat took place at 4 o'clock today. The marriage was celebrated before the mayor in the presence of relatives and friends.

Prince Michel Murat and the Duke de Montpensier, who arrived here on Tuesday, were the guests of honor at the wedding. The bridegroom is an American fisherman, who arrived here on Tuesday. He stated that in spite of the efforts of the American consul, Claude Guyard, bail was refused.

Koch and Lundquist were charged with the wedding ceremony. They were when they were captured in Mexican waters contrary, it is claimed, to the terms of the fishing concession granted to them.

The Mexican prosecutor at Ensenada reported his findings to Mexico City. He stated that it was decided there was not enough evidence to hold the two men. A telegraphic order for their release was received at Ensenada Saturday.

They took the first boat for San Diego.

WIFE OF "BEAUTY" BEACH AGAIN
ACCUSES HIM IN COURT

Albion, N. Y., Feb. 5.—The trial of Frederick O. Beach, the New York millionaire, known as "Beauty" Beach, charged with assaulting his wife with intent to kill, was resumed here today.

Beach's wife, Mrs. Beach, was again attired in brown and seemed to be suffering from a slight cold. Mrs. Beach said she had been assaulted by a negro, but had an investigation the charge was made against her husband.

PRISONERS ARE TAKEN TO
IN HIGH WITH KNIVES

Alma, Colo., Feb. 5.—Howard Trevelyan is dead and Fred Kemper is perhaps mortally wounded, while Mr. and Mrs. John Roberts are seriously hurt, as the result of a fight with butcher knives at the Roberts ranch, 19 miles from Alma, Trevelyan and Kemper, employees of Roberts, began fighting and Mr. and Mrs. Roberts were injured in trying to separate them.

RAIN IN INDIA
AFFECTS WHEAT

Prospects of Liberal World Shipment Give Market a Setback.

Chicago, Ill., Feb. 5.—Rain in parts of India with more predicted, where drought has been a serious menace, gave the wheat market a setback. Prospects of liberal world shipments had a further influence against the bulls. Offerings, however, were not especially heavy. The opening prices ranged from 1/2 to 1/4 c. May started at 53 1/2 to 53 3/4 c. The same change from last night as the nearest taken altogether, and then dropped to 53 1/4 c.

The close was firm with May 1/2 c. net lower at 53 1/4 c. and 1/4 c. to 1/2 c. off at 53 1/2 to 53 3/4 c. and fell to 53 c.

The close was steady at 53 1/4 c. for May, 1/2 c. to 1/4 c. under last night. May oats, which were at 16 1/2 c. to 16 3/4 c. down to a shade up at 16 3/4 to 16 1/2 c. descended to 16 1/4 c.

Provisions advanced on active buying due to an upturn at the yards. The first transactions were a shade to 1/2 higher, with May at 19 1/4 to 19 1/2 c. for pork, 18 1/2 to 19 c. for lard, and 10 1/2 to 10 3/4 c. for ribs.

STOCK LEADERS
SHOW DECLINE

Reports of Unsatisfactory Conditions in Copper Trade Depress Market.

NOTE—All Market news on this page reflects closing sale prices (unless buy or bid be specified) on Wednesday, February 5.

New York, N. Y., Feb. 5.—Interviews with leading representatives of financial and railroad interests setting forth optimistic views, received scant consideration in the face of falling prices in Wall Street today. More attention was paid to motives behind the sales of various securities, and weakness permeated the whole market.

Legal obstructions to the conclusion of the subway negotiations, failure to pay off at this time the back dividend on Can preferred, and reports of unsatisfactory conditions in the copper trade were responsible for the spread of the bearish sentiment. Some resistance was offered at first by the railroad leaders, but ultimately they gave way with the rest of the list.

Tobacco was active within a range of four points on the announcement of the 5 percent quarterly dividend and an extra payment of 15 percent. On the curb Standard Oil shares continue their recent advance.

Retraction of rumors about impending financing by Pennsylvania caused steady sales of the stock, and it lost 1 1/2. There was not much life in the rest of the market, but the tone continued depressed.

Selling ceased in the middle of the afternoon and prices recovered slightly. In the market closed heavy. Shortage showed no desire to buy back stocks sold early in the day and the list accordingly kept dropping in spots on light offerings.

Copper issues reflected the publication of unfavorable trade view, and there was intermittent selling of Reading and Union Pacific.
