

Buen Muechacho WANTS NEW LEG

Jesus Paez, Shot by U. S. Soldiers at Columbus, Has Leg Amputated.

Little Jesus Paez ("Buen Muechacho") wants an artificial leg and an American education so he can stay in the "nice United States" and be a good boy.

Jesus is the 12 year old Mexican boy who was shot in the hip by American soldiers at Columbus when Villa raided that town.

Jesus is the 12 year old Mexican boy who was shot in the hip by American soldiers at Columbus when Villa raided that town.

"Grippers shoot too straight." "Villa never told us where we were going or when we were across the border."

"I begged them to take me with them for I had heard from Villa's men how the Americans killed all of the men they took prisoners. All they did was to shoot me to one side and ride off with my leg."

"To have leg and education. The Paez boy is at the ladies' hospital in Deming and is said to be receiving every care from the people of Deming, who have taken an interest in his case."

RIFLES AND AMMUNITION BE LONGING TO HEARST, SEIZED

ranchees in Mexico, told the police that the ammunition had been purchased by him at an auction sale at the federal building.

He stated that he intended to ship the ammunition to the Babicora ranch to be used by his employees in protecting themselves against bandits.

NEGRO SOLDIERS OF 24TH BROUGHT IN WITH PNEUMONIA

Five sick soldiers came in from Columbus on the Golden State limited Wednesday afternoon. One, a negro from the 24th Infantry, had pneumonia.

The other four were from the infantry regiments at the front and were suffering from intestinal troubles.

FIRST OFFICER OF COLUMBUS DIES

Lieut. Allison, of Texas, Dies of Pneumonia Contracted in Mexico.

Second Lieut. Joseph W. Allison, of the 13th cavalry, died at the Fort Bliss hospital at 3 a. m. Wednesday from pneumonia, which had developed from a severe cold contracted while operating in Mexico with Gen. John J. Pershing's column.

Lieut. Allison, the first officer of the American army to succumb as the result of the punitive expedition into Mexico, was a native Texan, having been a resident of Dallas at the time he was appointed to West Point by a Texas congressman. He was 26 years old and was well known in El Paso, as his command was stationed at Washington park before going to Columbus, N. M.

Lieut. Allison is survived by his father, who is now on his way from Dallas; his mother, who lives in Houston, La., and his wife, who has been living at her home in Elizabethtown, N. Y. since her husband has been on border duty.

Military Funeral. No arrangements have yet been made for the funeral of the Texas officer, although plans are being made for a military funeral. The arrangements are in charge of the J. W. Pershing taking company. It is probable that the remains of the officer will be returned to Dallas for burial. His father will arrive here this evening to arrange for the funeral.

CARRANZA FORCES KILL BANDITS IN TORREON ZONE

Monterrey, Mex., March 28.—Carranza forces under command of Gen. Filsondo, Ignacio Ramos and Matias Ramos are in pursuit of Villista bandits in the Laguna district and large numbers of them are being captured and shot.

Large forces of Carranza troops are in the Laguna district and supervise the entire campaign against Villa and his outlaws, who have arrived here on his way to Torreón where he will establish permanent headquarters. Gen. Trevino says the whole of his territory from Tampico north is now absolutely peaceful.

Large forces of Carranza troops are in the Laguna district and supervise the entire campaign against Villa and his outlaws, who have arrived here on his way to Torreón where he will establish permanent headquarters.

JUAREZ BARRACKS GIVEN INSPECTION BY GAVIRA

Gen. Gavira, commanding the Juarez garrison, was not at his headquarters Wednesday morning, but sent the chief of the border station of the barracks under his command. His aides stated that no news had come up from the headquarters of Gen. Luis Gutierrez, and that they were in the dark as to the whereabouts of Villa.

The general feeling among the officers stationed in Juarez is that the chief of the border station has been reached and passed and that the Wilson administration will have no cause to complain of the lack of cooperation on the part of the Constitutionists.

TWENTY-FOURTH INFANTRY SIN

Big Regiment of Negroes and Part of Fifth Cavalry Enter Mexico.

Arrivals from Columbus report that all but two companies of the 24th infantry (negro) entered Mexico Tuesday morning. The long column also included the larger part of the Fifth cavalry, save several troops that are being retained at Columbus for border patrol. A train of auto trucks loaded with supplies accompanied the new column.

Great quantities of supplies are being received in El Paso by the quartermaster's department and only the most urgent consignments are going on to Columbus. This fact is taken to mean that the matter of shipment over the Mexican North Western is nearing settlement.

Mules Supplanted Trucks. Already the mule has supplanted the costly motor truck, after the Casas Grandes country has been negotiated. A shipment of 175 of these animals was received Tuesday from St. Louis and 300 more are due at the base within the next several days.

The mules, according to reports brought to El Paso, are given a two weeks' rest after they make the trip from the country "down there" and full peace rations. That the animals are standing up well under the tax upon their energy and strength is shown by the fact that one of one batch of 103 which did strenuous work, only seven died.

Bookies Broken In. In addition to Columbus being a rendezvous for mules that are being broken in, there are also a colony of raw bookies that are learning the ropes. Eighty-seven of these chaps arrived at the base a week ago and in another week will be in readiness to be sent to the front to fill the gaps and vacancies caused by sickness and misfortune among the infantry ranks.

Uncle Sam Seizes Relics Of Villa's Columbus Raid

Deming, N. M., March 28.—Uncle Sam stepped in and spoiled a fine display of souvenirs from the Columbus raid which Morris Nordhaus was taking east in a packing case.

He had gathered a number of saddles, blankets, pistols and other relics of the raid and planned to show them in Kansas City, Chicago and other eastern cities. When he reached Kansas City, government agents met him at the train and informed him that the government considered his souvenirs as the property of the United States.

The goods were seized after Nordhaus offered to give bond for the safe return of the articles he was taking east for his display.

\$8,611,502 AVAILABLE FOR ARMY IN VILLA CAMPAIGN

Washington, D. C., March 28.—The sum of \$8,611,502 will be immediately at the disposition of the war department for the pursuit of Villa, congress having rushed through an emergency appropriation to that effect.

The money will be available for the purchase of aeroplanes, motor trucks and all needed supplies, as well as for the equipment of the additional troops which the army is allowed to recruit.

BORDER TO HAVE RADIO STATIONS

High Power Plants May Be Installed at El Paso and Fort Huachuca.

Washington, D. C., March 28.—High power radio stations may be built along the border to provide for continuous communication, night and day. The army now has a 250 kilowatt station at San Antonio, and the construction of two more, one at El Paso, and one at Fort Huachuca, Ariz., has been recommended. It is possible that some army plant elsewhere in the United States may be moved to the border for this purpose.

With the high power stations it would be possible for officers to reach the field troops far south in Mexico at any time. The low power field equipment would not be able, however, to reach the border stations except under favorable conditions.

The San Antonio plant is now able to talk with Omaha, direct. No excitement in Mexico. Official reports from consultants in Mexico again today dwell on the lack of popular excitement there over the entry of American troops. Consul Leitcher at Chihuahua city, sent the following:

Gov. Enriquez published yesterday (March 28) an address to Chihuahua citizens recounting circumstances of the Columbus incident and the American expedition consequent thereupon and calling upon their patriotism to remain calm and give the Mexican government the fullest support in the present crisis. This address, in my opinion, will have a favorable effect locally, in view of frequent reports regarding conditions there.

Under these circumstances, it appears most regrettable that border news agencies should continue to impute to the Mexican government, here, the commission of the foregoing facts.

No Muzzling of Mexican Troops. The following paragraphs of an official message from Boglias also was made public:

"I have investigated statements telegraphed from here to the effect that there has been concentration of Mexican troops at Agua Prieta, opposite Douglas. I found 400 men at Agua Prieta, but no artillery. I found all trench wires removed, no troops in any trench, and no troops on any side of Agua Prieta."

However, there are 1800 at Colubona, 18 miles south. Gen. Calles invites all citizens to go and make a personal investigation of this matter. Colubona county at present is very quiet.

"A few United States troops, even a squad, in our outlying camps and towns, would absolutely insure peace therein under present conditions."

STATION MAY BE BUILT AT FORT BLISS, BELIEF

A high powered radio station may be erected at Fort Bliss for communicating between the American troops in Mexico and the fort. Three months ago an officer of the signal corps was here and made an inspection of conditions at the fort, and in El Paso with a view to establishing a powerful wireless station at the fort. It is understood that this recommendation favored the erection of such a plant in El Paso.

The present radio plants in use for communicating between the border and the front in Mexico are said to be too small to carry the volume of business made necessary by the operations in Mexico.

The original plan of using the old federal wireless station near Washington park has been abandoned. The equipment is not of the same design as that now in use by the army field wireless and the only thing that would be used about the old plant would be the high towers. These, however, are not suitably located for the use of the army and it is doubtful if any part of the plant will be used by the army.

AIRPLANE MAKERS WANT TO AID WAR DEPARTMENT

Washington, D. C., March 28.—Airplane manufacturers are expressing a desire to cooperate with the government in developing satisfactory war planes, secretary of war Baker said today. Baker said that some such plan would be adopted. Plans needed by Gen. Pershing would be supplied as soon as possible, the secretary said.

The Aero club of America has offered the war department two of the latest type of airplanes at \$1 each. The nominal figure was placed on the machines because an outright gift would be illegal.

FELL PRIBBING COLLEBUS RAID

Confers With Deputy Collector, Commandant and Other Officers There.

Columbus, N. M., March 28.—United States senator Albert B. Fall arrived here this morning and went into conference with deputy customs collector Lee Birge, who was on duty at his office on the night of the raid and who has been making statements from civilians here regarding what happened on that night.

After having a conference with deputy collector Birge, senator Fall went to the headquarters of Maj. William J. Sample, the commandant here and, after staying a short time, left in an automobile for Hachita, N. M.

Senator Fall denied that he is making an investigation for congressional action, or that he is looking into the military administration of the cavalry troops on the night of the raid.

"I am here for information and I am always glad to get information from whatever source," said the New Mexico senator.

Before leaving for Hachita, senator Fall returned to the custom office and had another conference with Birge and, when he left, he carried a bundle of papers and reports with him. He will go from Hachita to Deming and from there return to El Paso.

TOWERMAN DOZES; TWO TRAINS CRASH

at Elyria Memorial hospital. Charles Nelson died on a train on the way from Toronto, and L. Thomas of Philadelphia, were killed in the wreck.

The body of one Tremen, badly crushed, was found on top of the boiler of one of the engines. The bodies of the three trainmen involved in the wreck escaped with scratches and bruises.

C. C. Robinson, Toledo, engineer of the westbound Century, crawled unharmed, from under his engine after it had plunged 400 feet along the ties. His fireman, Walter J. Tolson, and the conductor, M. V. Burke, Buffalo, also were hurt.

Search was being made for the bodies of two express messengers, expected to be found among express car wreckage piled 20 feet high.

Official Story of Wreck. D. C. Moore, general manager of the New York Central lines at Cleveland, gives this story of the wreck as it was given him by his subordinate, who read it at a dock:

"The engineer of the first section of train No. 34 was stopped at Amherst by a signal. It did not stop, but the second section should have stopped because of the automatic signal or by the signal of a flagman on the first section."

"The second section ran into the end coach of the first section. The wreckage from both sections went over on the westbound high speed track. It had 40 passengers. The next car ahead of the coach was a club Pullman car. The cars ahead of the coach and club car were sleepers.

"Nobody in them was hurt."

S. P. CONDUCTOR DIES SUDDENLY

Death came quickly to A. E. Yates, a passenger conductor on the western division of the Southern Pacific railroad Tuesday night in his room in a local hotel. Yates died following a stroke of apoplexy soon after he reached his room, after returning from his run Tuesday night.

Conductor Yates was about 50 years old. His body will be sent tonight to Tucson, Ariz., his former home, where relatives reside.

Soon after he reached his room Tuesday night, Mr. Yates became alternately ill. He summoned assistance and Dr. I. J. Bush was sent for but Yates died before the physician arrived.

JOHN J. WATSON DIES WHILE SPENDING NIGHT WITH FRIEND

John J. Watson died suddenly at 330 Wednesday morning at 505 South Stanton street of heart disease. Watson went from his room at the Arlington hotel to spend the night at the home of a friend on South Stanton when he was stricken.

The deceased was 52 years old and was a member of the local Bricklayers' lodge. The body will be taken to the undertaking parlors of Melean, Simmons & Hartford, J. M. Deaver, the coroner, rendered a verdict of death caused by heart disease.

CONFEDERATE VETERANS HAVE CHARGE OF VETERAN'S FUNERAL

Funeral services for John C. Gibbs, a pioneer resident of El Paso, was held Wednesday morning at 11 o'clock from the parlors of McEwen, Simmons & Hartford. Rev. Henry Easter officiated.

The funeral was in charge of the John C. Brown camp of United Confederate Veterans. Mr. Gibbs was 80 years old and had been a resident of El Paso for more than 20 years.

BROTHERHOOD BIBLE CLASS ELECTS OFFICERS FOR YEAR. Officers for the year were elected by the Brotherhood Bible class of the Westminster Presbyterian church Tuesday evening at a meeting of the class held at the home of J. G. Lowman, in Highland Park. The officers chosen were: J. W. Kirkpatrick, president; J. K. Proctor, vice president; B. M. Smith, treasurer; J. D. Morrow, secretary; Jno. A. Cobby, assistant secretary; Bradford Hardie, teacher, and Prof. R. E. Jones, assistant teacher.

Explains Why Coffee Hurts Many. Dr. W. A. Evans, prominent Chicago physician, who edits the "How To Keep Well" columns of the Chicago Tribune, said in that publication, under date of March 7, 1915:— "Coffee is a drug. Those who are addicted to its use are drug addicts. From the standpoint of public hygiene the coffee question is worth while. It is the most widespread form of drug addiction."

Some coffee drinkers go on for years without seeming harm, but with others the telltale effects of the drug, caffeine, in coffee, show in various ills and discomforts, such as headache, biliousness, indigestion, nervousness, sleeplessness and heart disturbance. When the health of a coffee-drinker begins to suffer it's high time to quit the coffee.

Instant Postum is easy and pleasant. Better health usually follows, and a ten days' trial proves. Postum comes in two forms. The original Postum Cereal—must be well-boiled—15c and 25c packages. Instant Postum—a soluble powder—is made in the cup. No boiling required. 30c and 50c tins. The two forms of Postum are equally delicious, and the cost per cup is about the same.
