

SUGGESTIONS for BRIDE

TO THE BRIDE!

Conservation is the keynote of prosperity. Conserve your resources by properly utilizing your gas range and water heater. Do not use any more gas than is necessary. Make the greatest use possible of the oven of your range whenever it is lighted.

Do not use the Giant burner on your range when a smaller one will do the work. Don't forget the simmer burner will keep a large kettle boiling after it has been brought to the boiling point. Don't light the gas until you want it and turn it out as soon as you are through with it.

Make It a Baby Grand Piano

For that Winsome Bride over whom you have puzzled your head as to an appropriate gift.

Nothing a young girl of refinement and culture will appreciate more, nothing she will have her heart more set on, than a Baby Grand Piano.

It is the one rich and enduring gift of sentiment.

Here with us you have the most artistic assortment of Grand Pianos to select from, the most expensive and artistic—then you may select the more moderately priced.

An inspection is respectfully invited.

Some Timely Advice

For The June Bride

And Also for Brides of the Past

Here Are A Few Suggestions Concerning

Keep your ice box reasonably full of ice. It will keep your perishable food longer and better and thus save money and avoid the possible danger of illness from eating partly spoiled food. Remember that ice is cheaper than high priced meats, milk, cream and vegetables. Do not put anything hot in the refrigerator; let it cool off first.

ICE

—Use your ice pick sparingly—a pitcher of water kept in your refrigerator for drinking purposes will prove satisfactory and save ice. Remember that every time you open your ice box hot air comes in. See that the doors fit snug and tight; it will save ice and give better refrigeration.

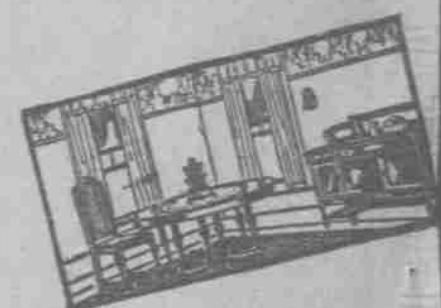

Keep your refrigerator clean and sweet. It will keep out harmful germs and you will enjoy the satisfaction of knowing that your perishable food is absolutely clean.

Yours for Good Health
