view to discharging them from further practice. It is said to be a foregone conclusion that the two men will be removed.

Many of the charges against Oppenheim are that he "squared" cases in his court, one of them being that he let off the son of an influential man who had by reckless driving in an automobile, knocked another man down and injured him.

All last night the police of San Francisco have been temporarily abolished and the officers are all ordered to "remain on duty every day in the fight against crime and criminals."

"Blue Laws" Next
Every civic organization of men or women, all women's clubs and the newspapers are discussing the vice situation to the exclusion of almost anything else. The San Francisco Examiner features an article under a three column head by Annie Laurie, who says prohibiting dance halls, the saloon man would not let the saloon be regulated, but insisted upon dictating politics and running "wide open" in every city in the land. She goes on:

"If we don't close up San Francisco, if we don't close the crooked gambling places, black parties, closed about the disorderly and disgraceful dance halls and keep them shut, break up the gangs and get rid of the gangsters; clean out the police courts and revolutionize the police court methods, get honest men in the place of Oppenheim and Sullivan, who have disgraced their high calling and the position of authority and power which each of them hold, get through with winking at corruption and smiling at sharp practices of a dozen different kinds—we're going to have just exactly what we need, a moral indignation as in sweeping every city in the east off its feet, and going to an extreme which we don't want and do not need to have here in San Francisco."

"Easy Money and Craft."
"Can't we learn anything except by actual effort, black parties and hard feeling experience?"
"How long is it going to take us to realize that the days of easy money in graft here in San Francisco are over?"

The public dance hall is said at the bottom of most of the crookedness in this city and work that is being done through up to the very top," says she.

"We've got to make our girls forget that we ever allowed them to dance with strangers and become the stranger's own uniform."

"These war time parties were wonderful things and we women have achieved wonderful results; but they left us with an aftermath of careless, irresponsible living that is nothing short of appalling."
"Mary and Kate and Emma became used to the idea of going to public dances and having strangers—and they can't get over it."

"We Must Turn Back."
"Tom, Dick and Harry got used to being entertained and amused and made much of in the land of mischief, and they can't get over it. The craze for dancing is all right—the madness for public dancing is not at all right."

"We all knew it five years ago. Any girl who went to a public dance and met strangers who were not well, what's the use? We all know what she was considered."
"Today half the nice girls in decent, respectable homes look longingly at the bright lights of the public dance halls."

"We have got to get back to common sense about boys and girls. Human nature is no different today than it was a hundred years ago or a thousand years ago, and we have let down all the bars put up for the protection of youth and ignorance and put them up again. That's all."

Delay Foreseen In
Movement Of Marines
From San Domingo

Washington, D. C., Dec. 27.—It will be several months at least before actual withdrawal of American marines from the Dominican republic will begin under the provisions of the proclamation issued at San Domingo Christmas eve by direction of president Wilson, secretary Daniels said today. Mr. Daniels conferred today with state department officers with regard to the membership of the commission to be appointed to revise the laws and frame such new statutes as may be necessary to enable the Dominican government to govern their country.

Rear admiral Thomas Snowden, the naval governor of San Domingo, will appoint the commission upon recommendation from Washington.

After the Dominican congress has approved the new statutes and places them in effect, the withdrawal of American forces will be started, Mr. Daniels said.

FARMERS SAVE
CROPS BY BIG
ANIMAL HUNT

Snappe, N. H., Dec. 27.—The farmers of this countryside have rid their lands and environs of a plague of animal menaces to next season's crops in a new manner. Calling the spirit of competition and the joy of the hunt to their aid they organized the men of the town into two teams of hunters. The result was a week's hunt that brought down a big bag of squirrels and other small game, gave the hunters a good time and for the farmers prepared the way for the next planting.

The clean-up of the countryside was accomplished on a competitive basis that allowed so many points for each animal killed. Squirrels, hedgehogs, foxes, skunks and rabbits each had their point values and each had many members in the aggressive bag that totaled 24,280 points at the week's close.

El J. Glasgow, the fish and game warden and captain of the team that won with a count of 1,500 and under the conditions of the contest were given a dinner at which the animals killed were tossed into the pot to provide the feast.

Rabbit stew has been the piece de resistance at family tables here since.

Samuel C. The other petition was filed by Barrett Lampert, who asked that his own children, Esther and Don Lampert, be declared dependent. The petition alleges that the mother neglects her children to spend most of her time in the Tabernacle of David, that she refuses to recognize her husband and that she is unwilling and unable to care for her children.

Japanese Ship Line Calls
Halt In Construction

Tokyo, Japan, Dec. 27.—(Correspondence of the Associated Press.)—Owing to continued shipping depression and to the fact that the ten German ships have been allotted to Japan, Nippon Yusen Kaisha has abandoned its program for the construction of 20,000 tons of new ships with the exception of about 10,000 already built or ordered. Under the program the company has already acquired 14 freighters, and has raised about 100,000 tons. Six 7,000-ton freighters are being built and will be delivered next year, as well as two passenger steamers. It is expected that the German ships will be operated by the Nippon Yusen Kaisha under arrangements with the Japanese government.

League Asked To Probe
Slave Trading In Angola

London, Eng., Dec. 27.—Charges that there has been a resurgence of slave trade practices over wide areas in Angola, a Portuguese possession in West Africa, have been presented to the assembly of the league of nations, by the Anti-Slavery and Aborigines Protection society. These charges are contained in the copy of a memorial presented to the British government including evidence from Portuguese and other sources concerning alleged slave trading.

The society appealed to the league of nations to take cognizance of these charges and, if possible, secure an exhaustive inquiry into the whole system of Portuguese labor in West Africa.

Steamer Loses Propellor
At Sea; Appeals For Aid

London, Eng., Dec. 27.—A message received by Lloyd's wireless station at Valencia on Saturday from the American steamer Hutchinson saying: "We lost propeller, latitude 48° north, 10°35' west, and need immediate tow." This position would locate the vessel about 375 miles southwest of Brest.

The steamer Docteur sent a wireless dispatch to the Lizard station on Sunday saying: "Have been searching for Hutchinson all night and position is unknown."

The Hutchinson is a steamer of 3,178 tons and plying between New Orleans and Antwerp. She was on her winter voyage when she encountered her mishap.

HUGE ELECTRO
DEVELOPMENT
IS PROPOSED

Washington, D. C., Dec. 27.—Applications for permits looking toward development of more than 12,000,000 horsepower, sufficient to supply 25 cities the size of Chicago, have been filed under the federal water power act with the federal power commission up to December 13, the commission has announced.

In completion of the contemplated plans, the commission estimates, will advance water power development by more than 40 percent, and will involve an investment of \$2,000,000,000.

The projects range from a small horsepower plant for a colony of summer cottages in Wyoming, to storage of the waters of the upper Colorado and its tributaries in a huge reservoir and the development from more than 2,000,000 horsepower by utilization of the water in a drop of 100 feet.

A point of construction prohibited in airplane work. Kinks in the wood are also shown up, as is the electric bracer coils are inspected by X-ray and the plates show the insulation of the coil to disintegrate, and where the wire will eventually break."

Philadelphia, Pa., Dec. 27.—An up to the minute application of X-rays is used in airplane construction to show up defective materials, workmanship and weak metal castings, which would otherwise escape the observation of an inspector, according to John R. Shearer, of Cornell, in speaking here on recent advances in the production and application of X-rays.

BALL TO MAKE
UP FOR LACK
OF CEREMONY

Phoenix, Ariz., Dec. 27.—Though Gov. Campbell, in all probability, will have little ceremony at the time of beginning of his new term of office, this will be made up for at the inaugural ball, the first event of the sort in Phoenix since territorial days. There had been hope that the ball could be held January 2, the first day of the new term, but this was found impossible, in view of the incomplete state of the Phoenix auditorium, the only structure in the city large enough. Now, with flooring secured, there is assured by the contractor that the building will be complete enough to turn over for decoration on January 16, and the ball will be held on Friday, January 14.

The committee in charge has contracted for decorations and music to cost about \$1000. To meet the expenses, tickets will be sold at \$10 a couple, with allotment to all counties of the state and with a limitation on the number to be sold. Gov. and Mrs. Campbell will be the only guests.

Last year Gov. Campbell's official family joined in the presentation to him of a shogun. This Christmas he was given a watch with gold and platinum chain.

The governor's Christmas mainly was spent in a visit to all sick soldiers now in Phoenix, distributed through a half-dozen sanitariums and hospitals.

Rome, Italy, Dec. 27.—Approval having been given by the Dutch chamber to the bill providing establishment of a permanent minister at the Vatican, the Holy See soon will appoint a nuncio at The Hague. No papal representative has been at the Dutch capital since diplomatic relations were interrupted in 1880, when the Dutch foreign minister refused to give the pope to the second peace conference at The Hague.
