

A Clean Skin

By EDNA KENT FORBES

A GREAT many women have very beautiful complexions, except for the fact that the pores are a little coarse. Often the pores will be fine and clear except around the nose. But a bad nostril will of course spoil an otherwise nice looking face. For these women, as well as for those who have really bad skin, I recommend my blackhead cleaning powder. First, I will tell how to make it, then how to use it. The formula is as follows:
Wheat or cornstarch, 2 ounces.
Powdered milk, 1 ounce.
Almond meal, 2 ounces.

This powder will clear the pores of all waste matter (not necessarily dirt) which distends them and gives the skin a coarse appearance. The powder itself is astringent and will draw up the pores. It is always excellent for pinching. I have seen this simple powder work wonders on the worst complexion.
A Grateful Friend—It's practically impossible to make wide feet hands into narrow, slender ones. Of course if you are too fat, your hands will reduce as your body does. Often this makes an enormous change in the shape of the fingers.
Miss Marie D. says quite a bit of oil on the scalp if the hair is dry and brittle, particularly before you shampoo. Send me a letter with a self-addressed stamped envelope enclosed, for directions for an excellent hair tonic.
Mickey—I should say that the propriety of your speaking first to the boy, or the boy speaking first, would depend upon whether you already know him or not. Yes, eating less of everything will reduce your weight. But, whether you do not produce so much fat, I can send you a list of those you should eat a marked and self-addressed envelope.
Terribly Worried—You have evidently let yourself get into a bad condition. Stop eating, or eating the wrong sort of foods. Diet, exercise, drink a lot of water, eat wheat cakes to purify the blood.

YE TOWNE GOSSIP

UP OUR WAY.
WHERE THERE'S a steep hill.
THE KIDS got out.
WITH THEIR red wagons.
AND THERE'S a mother.
THAT I know.
AND HER baby.
IS A boy.
OF A few months.
AND HE had a wagon.
WITH A cord.

AND THE baby.
WAS IN the wagon.
AND I said.
"IF YOU like.
"ILL DRAW IT.
AND THE mother said.
"WHY, CERTAINLY.
"YOU'RE VERY kind."
AND WE started.
AND THERE'S a hill.
A LITTLE HILL.
AND IT was rocky.
AND I went over it.
ON LOW.
AND HOWEVER it happened.
I DON'T know.
BUT JUST as the wagon.
CAUGHT UP to me.
I SLEPT.

WOMAN AVOIDS AN OPERATION

Hope Nearly Gone, but Lydia E. Pinkham's Vegetable Compound Saved Her

Star, N. C.—"My monthly spells gave me so much trouble sometimes they would last two weeks. I was treated by two doctors without relief and they both said I would have to have an operation. I had my trouble four years and was unfit to do anything and had given up all hope of ever getting any better. I read about your medicine in the 'Primitive Baptist' paper and decided to try it. I have used Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Liver Pills for about seven months and now I am able to do my work. I shall never forget your medicine and you may publish this if you want to as it is true."—Mrs. J. F. Burgess, Star, N. C.
Here is another woman who adds her testimony to the many whose letters we have already published, proving that Lydia E. Pinkham's Vegetable Compound often restores health to suffering women even after they have given up for that an operation is deemed advisable. Therefore it will surely pay any woman who suffers from such ailments to try it.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.
Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.
Have you a bad taste, coated tongue, poor appetite, a lary, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.
Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.
Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

Picturesque Mexico: Zacatecas

CATHEDRAL in Zacatecas, one of the finest in Mexico. The stonework of the facade gives an example of the exquisite work on some of the churches in Mexico. This beautiful building was begun in 1613 and is not only one of the most magnificent, but is also one of the largest in Mexico. It has three main altars and services is held continuously in the mammoth structure. From its tall towers a wonderful view is had of the hills surrounding.
Due to the richness of the mines in the Zacatecas district, the church in its early days was able to command untold wealth and its furnishings were the wonder of the times. Today, however, much of the costly stuff has disappeared and even the altar rails for the respective offices at the ensuing city election, subject to the Democratic primary. For mayor, Joseph D. Swenney; alderman first ward, W. E. Love and W. C. Harvie; alderman second ward, Wm. Laventure and N. H. Carson; alderman third ward, J. B. Brady and W. F. Robinson; alderman fourth ward, Sam Blumstein and W. L. Finkbeiner; city treasurer, L. M. Turner; city recorder, A. S. J. Ryan.

HOROSCOPE

SATURDAY, JANUARY 8, 1921. MERCURY dominates today in planetary rule, according to astrology. The planet is in a strongly benefic aspect.

The way is read as suggesting tremendous business for publishers, whether they produce books, periodicals or newspapers. New minds will contribute to a year of supreme prosperity.

This should be a favorable rule under which to sign important state documents. One that will bear a signature of president Wilson will become more famous than any since the declaration of war.

Contracts entered into during this direction of the stars should be profitable to all concerned, if they are completed today.

Many signs point to the advisability of the American people taking away from titles to fill the land. The west is in a benefic mood.

Exploitation has the best sort of a leading at this time. Americans are to gain clearness in this branch of enterprise, and a young man will gain sudden fame before the autumn.

Mercury is in an aspect that foretells much stress on personality in public affairs and while the signs are all good for the incoming administration there may be too much character analysis in accord with old standards of journalism, the scene prophetic.

Activity in naval and military affairs is forecast for Great Britain next spring.
Fires will multiply at this time and schools should be especially safeguarded.

HORATIO BRAGG, the millionaire, says luck is nothing but a fiction. Success is for the ones who dare. Or such is Mr. Bragg's conviction. "It is luck on all," says he, "that makes me rich or keeps you under; I rose from wretched poverty, but not through any lucky number."

THERE'S no such thing as luck at all. If our man has to serve his brother. While greatness lies within the other. Luck means a chance to turn. For good or ill, for grief or pleasure. We get exactly what we earn. Wise effort is the only measure."

JUST A WILD GUESS. Perhaps it is true that money never makes a man great, but it has caused people to forget many a man's littleness.

NOT INCLINED TO EXPLAIN. The average man is perfectly willing, after he has made a lucky mistake, to have it referred to as "a stroke of genius."

EVEN ON THE LORD'S DAY. A fanatic is a fool who wants other people to help him suffer the consequences of his folly.

Secrets Of The Movies Revealed

Q. How is the so-called "soft focus" or "velvet focus" effect secured?
A. Arthur Todd, a cameraman on the Pacific coast, calls his invention the "velvet focus." It consists of a square of fine glass placed over the camera lens upon which is sprayed a solution of glycerine and water. Todd also secures the soft artistic effects by photographing through a chemical treated screen. Soft effects of this nature are also secured by having a lens just a trifle out of focus and also by the photographing through early film.

Q. What famous character actor began his theatrical career when he was eleven years old on a stage hand at 25 cents per night?
A. Lon Cheney, who began his stage career in spirit of the Protestants of his family in his home town of Colorado Springs, Colo.

Q. Who is the beautiful moving picture actress who recently refused a fortune because the terms of the will required her to give up motion picture work?
A. Irene Rich, who probably figured that her face was her fortune and that she did not need any additional fortune.

Q. What prominent author has a niece who makes her screen debut in the picture "Volunteer Oblige"?
A. Gertrude Atherton's niece, Her name is Jane Hatherton.

Q. Does Warren G. Harding have the right to be a senator and an elected president at the same time?
A. It would not be possible for a man to be senator and a president of the United States at the same time. At this time Mr. Harding is only president-elect. The name of president being held by president Wilson, whose term of office will not expire until March 4, 1921. By that time Mr. Harding's term as senator will also have expired.

Q. I saw in a guidebook to Niagara Falls the statement that in the year 1649 the falls ran dry. Please inform me the reason of this.
A. The winter of 1649-1650 was extraordinarily severe in this country. Heavy ice formed in Lake Erie. When it was broken in during the latter part of March, the winds swept the ice into the entrance of the Niagara river at Buffalo, where it jammed in and melted, completely blocking the outlet of Lake Erie, with the result that on March 29, 1649, the falls of Niagara were practically dry.

Q. Who suggested the observance of Arbor day, and how generally is it celebrated?
A. B. G. Northrup, while secretary of the Connecticut board of education in 1872, directed an arbor planting of trees under state direction. J. Sterling Morton was probably the first, however, to propose the setting
