No official complaint of the condition of our minister or of our naval officers during the struggle has been presented to this government, and it is a matter of regret that so many of our own people should have given ear to unofficial charges and complaints that manifestly had their origin in rival countries and wish to pervert the relations of the United States with Chile. It is to be regretted that the reply of the secretary for foreign affairs of the provisional government was couched in an offensive tone. To this no response has been made.
