Committee Stands 7 to 6 Against Him.

SOME BILLS TO AID SAN FRANCISCO

Newlands Proposes That the Government Guarantee Bonds of the City.

WASHINGTON, D. C., May 2.—It is believed that the senate committee on privileges and elections stands seven to six in favor of the general proposition that Apostle Smoot is not a proper man to be senator.

The division is said to be as follows: Against Smoot: Burrows, Depew, Dubois, Pettus, Bailey, Overman, Frazier; for Smoot, Foraker, Beveridge, Dillingham, Hopkins, Knox, Dolliver. Smoot's opponents are divided among themselves on the question of whether he shall be excluded or expelled. The next committee meeting will be Friday, when it is likely there will be more than one report.

The president next Friday will send to congress Commissioner Garfield's report on the oil industry with a special message of comment.

Newlands introduced a resolution in the senate today providing that the ways and means committee of the house and finance committee of the senate, jointly consider plans for extending financial aid in the restoration of San Francisco. It asks that the joint committee report on the advisability and practicability of the national government's furnishing such aid either by guaranteeing loans at a low rate of interest or by the promotion and organization of a great financial corporation, state or national. It provides for the appointment by the president of a national commission composed of men experienced in exposition building. Newlands explained that although he had been engaged in interesting New York financiers in the project of rebuilding, no final conclusion had been reached. He thought that guaranteeing a hundred million in bonds would accomplish the object. Hopkins asked the distinction there is

RESENT PROPOSED ABANDONMENT OF CHINATOWN

How To Raise Money For Rebuilding of City Is Still Agitating the Business Men of San Francisco—The Plan of Asking the Government To Guarantee Municipal Bonds Is Still Urged.

SAN FRANCISCO, Calif., May 2.—Some plan by which the federal government may lend its credit for the rebuilding of the city still has strong advocates. At a conference last night of General Greeley, Secretary Metcalf, Mayor Schmitz, ex-Mayor Phelan, and Dr. Devine, a plan was presented in detail to Metcalf in order that the secretary may lay it before the president when he returns to Washington.

Unaided credit San Francisco will require fifteen or more years to rebuild; with government aid it can be rebuilt in a quarter of that time. While probably there will be much opposition in Washington, the supporters of the plan are determined to secure a fair hearing before congress and they are hopeful that the desired aid will be secured.

Emergency Payments from Banks.

City's Credit Unlimited.

W. H. Crocker, of the Crocker-Woolworth bank has returned from the east, where he saw many leading financiers. He reports unlimited faith in the future of San Francisco backed by unlimited credit. Eastern banks offer to purchase all San Francisco securities for sale and furnish all needed cash. The California promotion committee is receiving many letters from eastern people asking for details of the situation and opportunities to locate here. All express the belief that great chances for business success are presented. A report from Stockton says

between aiding the private interests of Frisco and loaning money to farmers whose crops had failed. Newlands contended that if the government could spend two hundred millions to free Cuba and almost twice that to civilize the Philippines, it should be capable of extending temporary aid in rebuilding a necessary gateway to the Pacific.

Perkins Presents Claims.

Perkins presented to the senate a telegram from Governor Pardee addressed to the California delegation in congress asking that body whether it would, in California's great need, pass the following claims: Five per cent of the land claims aggregating a million; war of the rebellion claims, four millions; Indian war claims \$660,000. It was referred to the committee on claims.

The senate agreed to a resolution directing the interstate commerce commission to send to the senate its findings of fact and its conclusions relative to its investigation of the oil and coal-carrying roads.

Shonts sent to congress through the secretary of war a request for \$26,000,000 to continue the construction of the isthmian canal for the coming fiscal year. He says the estimate is based on the supposition that congress desires the lock type of canal.
