TAKING THE SCHOOL CENSUS

Principals John Woods and R. E. Stafford Commence the Work

TASK WILL BE A HARD ONE THIS YEAR

CENSUS EXPECTED TO SHOW THAT POPULATION HAS RAPIDLY INCREASED.

Taking the school census. The task of taking the school census in District No. 1 has been delegated this year to John Woods and R. E. Stafford, principals respectively of the Lincoln and Washington public schools, and has already been commenced. "The two principals will work after school hours and on Saturdays until the present school term is closed," County Superintendent Bond said this afternoon. "After that they will devote all their time to the work until the census is taken. "The school census as it is being taken, includes all children of school age between 5 and 21 years and also all children under five years of age. In this way are we able to ascertain the number of all persons, both males and female, single or married under 21 years of age, residing in the city and also in District No. 1. The census is being taken by wards as usual." The census being taken this year is expected to show that the population both in the city and suburbs has materially increased over last year.

A Word of Warning

Don't buy substitutes for Mennen's Borated Talcum Powder. "Just as good" is only a deceit by which a dealer tries to make money out of the superiority and success of Mennen's Powder. There's nothing just as good as Mennen's and users of substitutes and imitations risk skin, complexion and comfort in doing so.

As a protection to health use Mennen's Powder and only Mennen's. Have you tried Mennen's Violet Borated Talcum Toilet Powder? Ladies partial to violet perfume will find Mennen's Violet Powder fragrant with the odor of fresh plucked Parma Violets.
