The Lynden Gimlet

When Bernard C. De Long scatters that \$50 worth of merchandise Saturday morning to the assembled crowd in front of the Farmers Mercantile Company, we hope he hits us with a suit of clothes.

We will be in the front row. De Long.

Mighty few of us bond-holders left around Lynden but what own cars now. All except P. J. Van Hemert and Hans Berthussen.

But Hans should worry—his hired man has an auto, and takes him out riding.

The Gimlet is waiting with interest for someone to catch something bigger than Dr. McLeod's 32-pound shiner.

D. J. De Hoogh has a five-acre buckwheat patch, and all the bees in the county are spending their afternoons out there. It is worth a trip there to see the flock of them. De Hoogh says the bee-keepers of the county ought to send him a few cans of honey as a bonus, and we agree with him.

Colonel Abner Podsnap, who believes that most voters don't know enough to pound sand in a rat-hole, says that at the election in Lynden, they'll do their pounding by machinery now.

Walter Summers left his Ford standing in front of the depot on Sunday afternoon, and when he went to get it, he found that it had wandered away.

But on Monday, it was back at the same place waiting for Walter. How's that for an intelligent henry?

I've ridden in touring cars de luxe, I've ridden in limousines; I've seen the glacial peaks, and geysers boil; but still I think a better ride and happier the scenes—the car that takes the workers home from toil.

Here business man and labor man commingle in the thought of home and kids, of love and wife dear. Now tell me what could grander be than such things fairly bought by labor well performed and conscience clear?

Anticipation's burning in the eyes of half the throng. Draws near the hour that's best of all the day. And though the car is jolly and the way is very long, 'tis short when thoughts of home light up the way.

Yes, the car that takes us home is a joyous fairyland, though its joints and bangings seem to have no end. If of course you're a bachelor you will not understand a thing I've said—but ask the married men.

CARD OF THANKS We desire to express our sincere thanks for the kindness and sympathy shown us in our recent bereavement by our kind friends and neighbors, and also for the beautiful floral offerings received.

MRS. MAAIKE KORTLEVER and family. MRS. PETER KORTLEVER and family.

TWICE PROVEN If you suffer backache, sleepless nights, tired, dull days and distressing, urinary disorders, don't experiment. Read this twice-told testimony. Its evidence from this locality, doubly proven:

B. J. Fritz, painting contractor, 11th and Broadway, Mt. Vernon, Wash. says: "I have always been strong for Doan's Kidney Pills and as a rule I keep a box on hand all the time. Whenever my back feels stiff or lame and my kidneys get out of order, a few Doan's soon remedy the trouble. I can't recommend a more reliable medicine for kidney trouble than Doan's Kidney Pills."

(Statement given July 25, 1916) On April 20, 1920, Mr. Fritz said: "Since endorsing Doan's Kidney Pills in 1916 I used a couple boxes for an attack of lame back caused by a cold setting in my kidneys, but Doan's banished this lameness in a hurry. I confirm every word of my former statement."

Who Pays For It?

If you do not have a De Laval Separator YOU are paying for one. If you buy a De Laval, ship cream and keep the skim milk on your farm where it belongs, your DE LAVAL will pay for itself.

Mr. N. P. Sorenson, president of the Whatcom County Dairy-men's Association, has just had us install a No. 17 De Laval and is now on the road to greater profits from his dairy.

Monday L. C. Brendle, Everson R3, followed by getting a No. 17 De Laval; then came Leonard Lowery, Everson R3, and bought a No. 15.

Besides these were Mr. P. Zwashka of Everson, who is now using a No. 15 De Laval; Leonard Lensen a No. 12; and Wm. Fisher a No. 12.

These machines have all been installed just recently and are now paying for themselves. If you are still giving away your skim milk, COME IN TODAY, and let us install a De Laval Separator on your farm.

EASY TERMS—So the machine will pay for itself.
