Admission, - 25 & 50 Cts.

THE NATIONAL CAPITOL

An Interesting Discussion on Dolph's bill to exclude Correspondents.

A Bill Presented to Subsidize a Bi-monthly Steamship line.

Lively Fight over a bill to tax Lard preparations--Gossip.

WASHINGTON, March 12.—The outcome of Dolph's secret session investigation has not been foreshadowed very clearly yet, but the opinion is beginning to prevail that when the committee makes its report on the fruitless result of its examination of senators and employees of the senate, the whole matter will be dropped. Dolph's footing has been very slippery for some time, and it appears now that he will not have a majority line in the following proportion of the senate to back him, when the resolution to punish newspaper correspondents for contempt comes to a final vote. The outcome of the matter will probably be a discussion with open doors of the proposition to discontinue practice of considering nominations in secret session.

Ingall's proposition to appoint a committee of conference, to bring about an amicable agreement with newspaper correspondents would have authority to forbid newspapers of the country to refrain from publishing any particular class of news. Several senators will present the argument in the senate that it is safe to trust to the discrimination of newspapers as to what is proper to publish. A senator who is much interested in the subject said to a reporter today: "In the whole course of my experience I have not seen a fact published concerning our executive proceedings disclosure of which could not do the slightest harm. Frequently there have been discussions in secret session, publication of which might have done harm to persons whose nominations were under consideration, but I have never seen them repeated in the press. I think we will be perfectly safe in opening the doors during the discussion of nominations, with provision that where necessity demands it, the doors may be closed."

The House today passed senate bill appropriating \$600 for sand bars in Milwaukee harbor; also bill granting right of way through Sisseton and Walperton Indian reservation in Dakota to the Chicago, Milwaukee and St. Paul railway; also bill extending the time of payment to purchasers of land from Omaha Indians in Nebraska.

The resolution was adopted providing for the final vote on the Oklahoma bill at 4 p. m. tomorrow. The bill was then taken up and a long discussion ensued over the proposed amendments prohibiting the sale of intoxicating liquors in Oklahoma and providing for high license. Finally an amendment prohibiting the introduction of intoxicating liquors into the territory until after the adjournment of the first session of the territorial legislature, was adopted. An amendment providing that none of the lands embraced in the territory should inure to the benefit of railroads except the right of way heretofore granted was also adopted. Adjourned.

The senate today, concurred in the house resolution providing for an investigation of immigration matters, including a selection by the treasury department of Redfish Island as immigration station in place of Castle Garden.

Resolutions to exclude from record interpolations were made by Call in a report of a discussion with Chandler. Adopted 36 to 4; four democrats voted in the affirmative.

The educational bill was next taken up, George making a speech in its support. It was agreed that the debate on the bill shall end March 20. An amendment to the bill offered by Plumb, providing that all votes taken in secret session shall be made public at the close of each day's session.

A resolution was adopted declaring that it is competent for the senate to elect a president pro tem, who shall hold office during all future absences of the vice-president. Adjourned.

The Pan-American congress committee on "communication on the Atlantic" to-day presented their report to the conference. The committee recommends the establishment of a subsidized fast bi-monthly passage, mail and freight steamship service between the United States and Rio de Janeiro, Montevideo and Buenos Ayres, and an auxiliary bi-monthly freight line. The contracting governments are to contribute aid to the fast something like the following proportion: The United States 60 per cent., Argentine Republic 15 per cent., Uruguay 5 per cent. Contracts for service are to be solicited by advertisement in papers in each contracting country, and in the awards due consideration is to be given to existing contracts with Brazilian lines. In consideration of higher aid to be paid by the United States the contracting parties are to accept only vessels constructed in this country. The committee also recommends to the governments interested the encouragement of direct cable lines to connect the countries interested with good telegraphic services at equitable rates.

Representative Butterworth of Ohio, and Mason of Illinois, made arguments before the agricultural committee of the house today on proposed legislation of taxing lard companies, and bringing them under operations of the internal revenue law. Butterworth spoke in favor of the bill, and Mason opposed both the Butterworth bill and the measure introduced by Representative Conger.

UNFAVORABLE REPORTS.
WASHINGTON, March 12.—Committee of foreign relations reported to the senate today the petition of the Little League assembly of Arizona, asking the government to take steps for the acquisition of such Mexican land adjoining territory as may be necessary, to give to the territory a deep water harbor on the Gulf of California. The committee recommended that the matter be indefinitely postponed and that action was taken and the reason for this adverse decision is found in the letter of Secretary Blaine accompanying the petition in which he replies to a verbal enquiry of the chair-

man of the committee, as to the possibility of complying with the request of the legislative assembly. The secretary says that the acquisition of the Mexican territory is directly opposed to the spirit of the Mexican constitution and sentiment of Mexican people. That any legislative or executive effort to bring it about would result in the inevitable overthrow of the ruling party in that country. He says that the United States is bound in honor not to attempt to attain thecession of Mexico to this country. He instanced as a proof of the feeling that exists in Mexico concerning this question, the attitude of the Mexican government on the proposition of certain persons to acquire possession of a portion of Lower Mexico and he enclosed notes of a conversation which he had with the Mexican minister on the subject.

Ballot Box Investigation.
WASHINGTON, March 12.—The ballot box investigation committee which has been dormant for several weeks will meet on Saturday next, when Col. Sands, of Cincinnati, will give testimony. Col. Sands is expected to testify that he heard that Gov. Campbell, while representative in congress, had called on President Cleveland and requested him to have the democratic leaders suspend discussion on the tariff bill in order to allow Mr. Campbell to have his ballot box bill passed. Mr. Kurtz, private secretary to Governor Foraker, testified that Col. Sands had assured him that Mr. Campbell had done this. Representative Mason, chairman of the committee, expects to close the case when Col. Sands has testified.

WORKING SLOWLY.
The Inter-state Commerce Investigation not yet completed.

WASHINGTON, March 12.—Senator Culom, chairman of the inter-state commerce committee, said today that the committee was proceeding very slowly in setting up a report on the investigation last summer in relations between American and Canadian railways and their effect on rates of transportation in this country. "I've reached no conclusion yet," said Mr. Culom. "I am going ahead with the report as rapidly as possible, and I think when it is put together it will be a very valuable collection of statistical and other information. I cannot tell when the committee will be ready to report to the Senate."

New Appointments.
WASHINGTON, March 12.—Ex-congressman John B. Weber, of Buffalo, N. Y., was today appointed commissioner of emigration at New York city. Col. James O'Brien was appointed assistant commissioner.

Burke Backs Down.

TACOMA, March 11.—The fight between Dempsey and Burke did not come off. Cleary and Dempsey boxed four rounds. The affair was very tame, Cleary being no match for Dempsey who would not hurt him. Burke refused to fight because Morgan would not give him \$100 to stand before Dempsey six rounds. Morgan offered \$50.

A Railway Under Water.
CHICAGO, Ill., March 12.—The tracks of the Illinois Central railway at Ulin, Ill., were submerged yesterday to a depth of about five feet by a water spout. No trains have come in on that road since yesterday afternoon. The rainfall at Douglas was also very heavy. The Ohio river has risen three-tenths of a foot since yesterday, but it is falling at Paducah, and if there is no more rain the river will not rise above the 20-foot mark here.

Consolidating Base Ball Teams.
CLEVELAND, O., March 12.—J. P. O'Neill, one of the directors of the Pittsburgh league ball club, arrived here this afternoon and had a long consultation with the Cleveland league club. It is rumored that O'Neill is here for the purpose of trying to effect a consolidation of the Cleveland and Pittsburgh teams. If the scheme is carried out, players who are now under contract with Pittsburgh will all come to Cleveland.

The Body Found.
CHICAGO, March 12.—The body of Roland Leach, the missing New York traveling man, was found about 2 o'clock this afternoon underneath a scow in the river at the foot of Market street, by officers who were dragging the river. The face was discolored and there was a black and blue spot beneath his eye. His gold ring was on his finger.

Declared a Dividend.
NEW YORK, March 12.—A dividend of 3 1/2 per cent was today declared on St. Paul preferred stock.

Eighty-Eight Killed.
LONDON, March 12.—It is now definitely learned that 88 miners perished in the Marsa mine disaster.

Broker Suspended.
NEW YORK, March 12.—Chas. N. Foster, of Henry Jones & Co., was today suspended from the privilege of the Stock Exchange for six months, for offering New England stock down to 43 1/4 at a time when another broker was bidding 43 1/2 for stock.

The Money Market.
NEW YORK, March 12.—Money closed at 3 1/2 per cent, lowest rate. The highest rate was 4 1/2. Exchange closed steady. Posted rates: 4.82 1/2 (4.86); actual rates: 4.85 (4.88) for 60 days; 4.86 (4.85) for demand. Governments closed steady. Currency 66, 116 bid; 48, coupon 123 bid; 45 1/2, coupon 103 1/2 bid.

Chicago Produce.
CHICAGO, March 12.—Wheat receipts, 49 cars; shipments, 15,048 bushels. Corn receipts, 347 cars; shipments, 237,455. Oats receipts, 135 cars; shipments, 124,024. 1:15 p. m.: Closing, wheat—March 77 1/2, May 78 1/2, July 79 1/2. Corn—28 1/2, 29 1/2, 30 1/2, 31 1/2. Oats—March 29 1/2, May 30 1/2, July 31 1/2. Pork—\$10.02 1/2, May 10.07 1/2, July 10.27 1/2. Lard—March 86.05, May 86.10, July 86.15. Short-ribs—March 84.95, May 85.05, July 85.05. July 5.07 1/2.

Restricted Liberty.
LONDON, March 12.—The government will shortly issue a decree restricting the liberty of the press, whose utterances have been very embarrassing to the ministry and the cause of much of the public disorder which has prevailed.

Reducing Expenses of the Trial.
LOSANGELES, March 12.—The Irish newspaper report that the officials of the government who were summoned to London to give evidence on behalf of the Times before the Parnell commission have received a circular calling upon them to refund to the proprietors of that paper any money which they were paid while in London exceeding 4s per day, besides third class expenses. They are allowed to make repayments by installments, and threatened with dismissal should they refuse to comply.

THE INCORPORATION BILL

Some of Its Main Provisions and the Discussion They Provoked.

The Tide Lands Men are Very Jubilant Over Their Victory of Tuesday.

Various Measures Introduced--Ellensburg to Have a State Normal School.

Special to the Herald:

OLYMPIA, March 12.—The senate when it met this morning resumed the reading of the municipal corporation bill and the reading occupied the entire morning session. A provision in the bill allowing cities of the second class 10,000 to 20,000 to levy and collect property tax was changed, so far as school tax is concerned. That was stricken out. A lively fight ensued over sections 16 and 17 chapter six of the bill which provided that indebtedness of cities should not exceed the amount of funds invested. Wilson's amendment that the council of cities shall not create or audit liabilities in excess of one and one-half of the amount of taxable property unless authorized by a three-fifths vote of all qualified electors in the town, was adopted as a substitute for section 16. Section 20 was amended to read that city councils may expend from the general fund such sums as they may deem necessary for repairs of streets.

On Nelson's motion, city councils of cities are authorized to appropriate a sum of money not exceeding one-fourth of one mill of taxable property for the establishing of a public library.

OLYMPIA, March 12.—Watt made a worthy effort today in the senate to pass the Cheney normal school bill, but the fates were against him, as there were enough votes which caused him to meet Metcalf.

Before it was announced Watt gave notice that he would move to reconsider the vote by which the bill was lost. Third reading: By Judiciary committee relative to the costs in convictions for felony before superior courts, etc., passed. By committee on organization of cities. Passed.

By Bill, protection of discharged employees. Killed.

By Grubb, locating a normal school at Cheney. Killed.

Representative Moultray has resigned as a member of the appointment committee and Speaker Feighan has appointed Judson of Whatcom to succeed him.

The house today adopted the report of the finance committee, recommending that a provision requiring three of the trustees of the soldiers' home to be veterans and two national guardsmen, be stricken out.

The house has taken up Representative Hughes' revenue and taxation bill this morning and listened to the reading of it for three hours. Further consideration was deferred until tomorrow morning.

There will be a long fight on the bill, and it is said that several days will be spent in the consolidation of it. The tide lands men were all on deck early in the house this morning congratulating each other upon their victory and complimenting the opposition for the gallant fight they made. Monday, who with Speaker Feighan, led the opposition, has made many friends by the graceful manner in which he accepted the inevitable.

It was found the opposition would make an effort to reconsider the vote. The bill, having been once considered, was not subject to another reconsideration. The tide lands did not know what to do, and it was the unexpected that they were down and out. After yesterday's journal had been read Robertson declared that his amendment to the title of the bill declaring it an act to deprive the State of Washington of its tide lands and declaring an emergency, "had not been stated."

Speaker Feighan was inclined to the belief that the journal should set forth the amendment offered. Geoghegan was in the chair last night, and explained that he ruled the motion out of order, and that settled it. The bill was then ordered reported to the senate immediately. It will probably be taken up by that body before the end of the week. The bill will undoubtedly pass the senate without any amendments. It is probable that not even a scratch of a pen will be made to it. Fears are being entertained that if it is returned to the house for concurrence in an amendment, trouble may arise which will prove disastrous to the bill.

The school land bill was reported on by the joint committee on school lands, and was passed in the house this afternoon. It was amended by the house a week or so ago. The house committee on education held a meeting this evening and decided to report favorably on Wilson's bill establishing a normal school at Ellensburg.

MURDER OR SUICIDE.

PORTLAND, Ore., March 12.—Considerable feeling has been stirred up in this city over the testimony taken at the coroner's inquest over the remains of George Becker, who died suddenly Sunday morning, the 2d instant. Becker drank from a bottle supposed to contain quinine and whisky on Saturday night preceding his death, and early next morning his mother, Mrs. Sheridan, heard him vomiting. She went into his room and saw immediately that he was suffering from poisoning. She sent for a physician, but before he arrived Becker was dead. The post mortem examination showed a large quantity of strychnine in the stomach. At the coroner's inquest, his mother testified that her husband, Thomas Sheridan, hated his stepson, Becker, and threatened to give him a dose to fix him. She testified to other matters with the evident purpose of fixing the crime of murder on Sheridan. The coroner's jury refused to charge Sheridan with the crime, and rendered a verdict to the effect that he could not learn how the fatal dose was administered to Becker. Mrs. Sheridan still maintains that her husband poisoned Becker, but the evidence does not point that way, and the whole affair is shrouded in mystery. An Evening Telegram reporter today discovered that Becker, a few weeks ago bought a package of "Rough on Rats." The same box was discovered, with the contents half gone. Mrs. Sheridan, however, claims that she used the contents for poisoning rats. It has been ascertained that Mrs. Sheridan is a woman of rather loose character and

has been associating intimately with unknown to her husband. Becker was a young man of sensitive and nervous nature, and it is intimated by friends as soon as he learned of the doings of mother, for whom he had a warm affection, he killed himself with the stuff under duress. His mother says she asked her son before he died if he had taken any poison, and that he had not done so. There is no doubt but that Becker was killed by poison, and a question which the detectives are trying to ascertain is was it murder, suicide or accident.

LOXON, March 12.—The Daily Telegram says that Lord Randolph Churchill when cooler will admit that the address he applied to Pigott were more forceful than polished, and rather spoiled by powerful philippic. The Chronicle expresses a similar opinion, and says that the Times was disgraced by rant.

The Times says Lord Randolph Churchill in an endeavor to pay off old scores has perpetrated another of those blunders which he contrived to squander the great opportunities a wide popularity placed at his command.

The Standard comments on Lord Randolph Churchill's speech delivered in Commons last night as follows: "If Lord Randolph Churchill thinks it worth his while to sacrifice his career for the sake of entertaining a jaded public with common vulgarities that is his business. The Government is not a penny the wiser at his latest freak."

THE OTHER SIDE.
Despite the sneers and contemptuous references of Conservative organs to Lord Randolph Churchill's attack of the Government last night there is abundant evidence that the Tories were hit hard and still feel the effects of the shafts of the Tory demagogue leader. The comparative small majority by which Caine's motion was rejected is another source of annoyance, mortification and apprehension, and altogether ministerialists are in an unhappy frame of mind in the contemplation of the fact that they have lost ground.

In view of this state of affairs the ministry is already casting about for some means of recovering popularity which the party has forfeited by its course since the opening of the session, and it is stated that the government will attempt to achieve that end by bringing in a bill placing office on the free list. Although the Government's course has greatly increased the chances of the Liberals in many constituencies hitherto controlled by Conservatives, the effect of Lord Randolph Churchill's speech in the Tory stronghold represented by him has been much like that of a boomerang. To say that Lord Randolph's constituents are furious after his last night's performance is putting it mildly. Scarcely one can be found among them who does not condemn his utterances in the most vigorous English which they can command, and ready the suggestion is rife to hold a meeting to denounce him, though political managers will hardly permit such an extreme course.

The St. James's Gazette says: "Randolph Churchill has administered a final and fatal dose to that lingering invalid. His political reputation's closing scene was witnessed last night. His speech was a funeral oration."

A Widow Wronged.
SPOKANE FALLS, Wash., March 12.—Mrs. Rose Smith, a young widow who is the proprietress of a lodging house here, was on the warpath last night. She went into the Buzzard saloon, and drawing a pretty good mounted pistol, threatened to clean out the place. No one dared tackle her until the police was called on, when the weapon was taken from her. The woman broke down and refused to give any satisfaction when called on for an explanation. It has since been discovered that she had a lover who was a bartender, and it is claimed that he seduced her under promise of marriage. Meeting him later he stabbed him with a penknife in three places before it could be taken from her.

Deserves Lynching.
MOOREFIELD, Neb., March 12.—Dr. C. B. Blair is under arrest charged with manslaughter for brutally mutilating a woman named Mrs. Tucker, whom he was attending during confinement. He is intoxicated and used a common kitchen knife. He cut off one of the child's arms and cut the woman so badly that she died on the third day after the operation. There were several gashes in her back, one of which cut the cords of her lungs. People are intensely excited and the doctor is under strong guard to prevent lynching.

The Report Doubted.
SAN FRANCISCO, March 12.—Some canners here have little faith in the authenticity of the report that English canneries are trying to buy all the canneries on Columbia river. Columbia canneries as a matter of fact have sunk to second importance during the past three or four years and if the English, as asserted, want to control canned salmon trade they would hardly begin by acquiring property along the Columbia river when better ones might be had in Alaska.

No Change in Rates.
SAN FRANCISCO, March 12.—According to the statements made inside and placards hung outside of the various rail offices in this city there is no change in the condition of affairs, rates to New York remaining at \$50, and to Chicago and St. Louis at \$40.

They Made Their Bed.

Special to the Herald
NEW YORK, March 12.—Warden Kerting of the Ludlow street jail and Deputy Sheriff McTriggle were arrested to-day on charges having accepted bribes from prisoners for various privileges. They were released on \$10,000 bail later in the day. Kerting resigned his position.

Opium Seizure.
SAN FRANCISCO, March 12.—The custom house officials yesterday found forty-five lead boxes of opium in the fire room of the steamship Santa Cruz, which arrived Monday night from Nantimo and Port Townsend.

Killed by the Care.
KANSAS CITY, Mo., March 12.—Ray David McGraw, pastor of the Baptist church at Ararat, Mo., was killed by a train on the Missouri Pacific Monday night from Nantimo and Port Townsend.

Killed by the Care.
KANSAS CITY, Mo., March 12.—Ray David McGraw, pastor of the Baptist church at Ararat, Mo., was killed by a train on the Missouri Pacific Monday night from Nantimo and Port Townsend.
