BUICK

VALVE-IN-HEAD MOTOR CARS.

THERE are no stancher friends or admirers of all things Buick than the youngsters everywhere. Every schoolboy knows the Buick as far away as the eye can see, and hardly a day passes in the life of a Buick owner that some boy doesn't shout a hearty "Hello, Buick!" in friendly greeting.

Urged on by their endless curiosity and their natural instinct to know the "why" of all things mechanical, all boys quickly learn that the Buick Valve-in-Head motor is supreme for power and for all the other factors which make for motoring satisfaction.

Nine out of ten boys, if asked to name their preference among motor cars, would choose the Buick, we honestly believe.
