Too late!  
Too late!!

If I had only saved my money

COULD HAVE ACCEPTED THIS OFFER AND SPENT MY REMAINING DAYS IN COMFORT. IT IS TOO LATE! TOO LATE!

This man did not save his money, thinking a chance to use it would never come. When a splendid opportunity came he had no money and doomed himself to live in poverty for the rest his life—blaming himself every remaining moment for his folly and drawn out misery.

YOU will one day have such an opportunity. Take heed. Start saving NOW. Come in and talk it over today.

McCain A Candidate. Special to Independent.  
Little Rock, Dec. 18.—An unexpected development in state politics was the resignation Wednesday afternoon of Henry C. McCain as Deputy State Auditor and Insurance Commissioner, effective at once. Auditor Coffman had no intimation of his intention until the resignation was handed him.

But this was not the greatest surprise, which followed when Mr. McCain announced that he is a candidate for State Auditor and Insurance Commissioner to succeed John M. Oathout, deceased. Mr. Coffman is also a candidate for the office, and until the entry of Mr. McCain, it was thought he would be unopposed. Mr. McCain has been Deputy Insurance Commissioner for a year, and is now serving his second term as alderman from the First Ward in the Little Rock City Council. He is the son of the late Judge McCain, one of Little Rock's most prominent attorneys.

## WHAT WE OWE TO WOMEN

Ever They Have Been the Makers of the Home and Providers of Comfort.

Social progress with primitive woman was stimulated and encouraged by their relation to home life, to dress and to manners. We have already alluded to the women as the authors of the home or shelter. It is the female bird that makes the nest, the female mammal that digs the burrow for her young and the female bee that makes the honeycomb as a home for hers. The human female more than all the rest created her home. But not only is this true, but she differentiated the home, and all parts of the most elaborate establishment were instituted by her or on her account. The first homes were cheerless caves. Fire could not be made in them because of the smoke, so woman sought out a cave with an opening in the rear, or a rock shelter with a high curved roof. When she became a dweller in a tent she searched for the oldest wood, learned the mysteries of the fuel problem and even invented the coral to induce the wind to draw a little of the smoke therefrom and to increase her comfort.

To the women of the household we are indebted for the oven, the chimney and the chimney corner, the kitchen, the dining room, the family room, the separate bed chamber. It has been a wonderful evolution, resulting in comfort, taste and morality. —Chris T. Mason, "Woman's Part in Primitive Civilization."

Bunting Thoroughly Tested. In very truth a modern bath-shed does, in modern phrasing, carry some bunting. About \$150,000 is spent by the United States navy for flags each year. Every case of bunting costs the government \$500; every roll costs \$11.25. The bunting comes from Massachusetts. Every piece is subjected to the most severe test. It must weigh five pounds to every forty yards and stand the weight test of seventy pounds to two square inches. It is steeped in salt water for six hours and then exposed to the sun for the same period of time. If after this treatment it continues to be bunting of a distinguishable color it is pronounced fit for service.
