WE ARE RESPONSIBLE FOR CRIME.

"To the trained observer of life it is obvious that criminals are not on the whole to blame for their vicious career.

"For twenty-five years, as a police reporter in New York, I saw all the wickedness of depraved human nature," says Jacob Riis in the May Delineator. "I saw a seemingly unending procession of young rascals—so the police had stamped them and the record on the station house blot-bore them out—poing from the slums through the wicked-gate of the Tombs to the prison and to the gallows, and it was a sight to discourage any one whose horizon was limited by our earth-life. The chill of it abides with me yet. But behind it all I made out also what it was that had deprived their poor human nature, and that the responsibility lay with us who let it be, who neglect of the neighbor that had fallen among thieves was to blame for it all. The world is no worse than we make it. We also can make it good."

Woe for what? "Woe unto who putteth the bottle to neighbor's lips." Who said? Whose threat is it that hangs such a character? Who has heard it thundered in his from early childhood? Who would it have any effect if knew the author of it, or you grown so callous that don't believe it? Whether not we have believed it before we are surely convinced of this stage of the game, and suffering it as well. It is a statement, and be it remembered that this whole patriotic munity is a measure of responsibility and suffering for the woe fills the heart of Prescott. too bad that we could not, would not be urged to our in this matter until we receive a shock that well-nigh unbalances the whole community.
