

## CIVIL DOCKET IS SET FOR 2 WEEKS

THE COMING WEEK IN CIRCUIT COURT TO BE TAKEN UP WITH MINOR CRIMINAL CASES.

Docketing of Cases Yesterday Means That Another Panel of the Petit Jury Will Be Used This Court Term

The coming week in circuit court will be devoted exclusively to the hearing of minor criminal cases that have grown out of grand jury indictments and justice hearings recently. The grand jury for this term of court will reconvene on Monday, and unless the unexpected happens, it will not be in session long, but there are some matters that probably will be taken up by this body to defer early final adjournment.

Circuit Judge Cotham yesterday morning arranged a docket for the hearing of civil actions for the two weeks of June beginning June 3, which means that the third panel of the petit jury will most likely be called. The docket is as follows:

Monday, June 8, 1914:

## SCHOOL CONTRACT IS NOW ACCEPTED

HARTMAN CONSTRUCTION CO. OF ST. LOUIS WILL BUILD THE HIGH SCHOOL.

The Mistake in the Bid of Something Like \$11,000 Will Be Just That Much Saving to the Taxpayers.

The G. Hartman Construction company of St. Louis, which was the lowest bidder on the high school building in the estimates that were opened by the school board last Monday night, and which company received the award, will build the building, carrying out its contract.

Soon after the award was made it was discovered by the Hartman company that a mistake in its estimate of something more than \$11,000 had been made, and the company then entered into negotiations for the giving back of the contract, if the \$2,000 required as a guarantee of good faith in the bidding, could be returned to the company.

The school directors naturally would not consent to any such arrangement as a return of the certified check that had been deposited. It was stated that the Hartman company then negotiated with the second lowest bidders, Brock, of this city, but that nothing resulted from that negotiation.

"The Hartman company has agreed to take the contract and to give us a good job according to the specifications," said Mr. Claude Marsh, secretary of the school board, yesterday, "and the incident is closed. I believe the saving has been a material one to the school board, and thereby of course the taxpayers of the school district."

## UNITED RAILROADS WAS PLUNDERED

SENSATIONAL REPORT IS MADE BY THE CALIFORNIA RAILROAD COMMISSION.

San Francisco, Cal., May 23.—Asserting that its order was made necessary by the "plundering" of the United Railroads of San Francisco of upward of a million dollars by the corporation's former president, Patrick Calhoun, on the authorization of directors and stockholders, the California Railroad Commission gave reluctant consent today to the borrowing of more money by the United Railroads for the purchase of rolling stock.

The commission instructed the company to report each move made in carrying out the order, advised that dividends should be suspended until outstanding indebtedness is met and announced that because the same stockholders who had authorized the diversion of funds still were in control, it hereafter will supervise the financial operations of the management.

In an opinion accompanying its order the commission says its auditor found that in August, 1912, the directors of the United Railroads had adopted a blanket resolution approving all previous expenditures of money by Calhoun, of whatever nature, and authorizing him to make any further disbursements he "might consider for the best interests of the company."

This same action was taken later at a stockholder's meeting. Following this, Calhoun in 1913 withdrew \$1,096,000, ostensibly for investment in shares of the Solano Irrigated farms, a land selling project which afterward collapsed. The commission says, however, it has no proof that the money ever went into the Solano project.

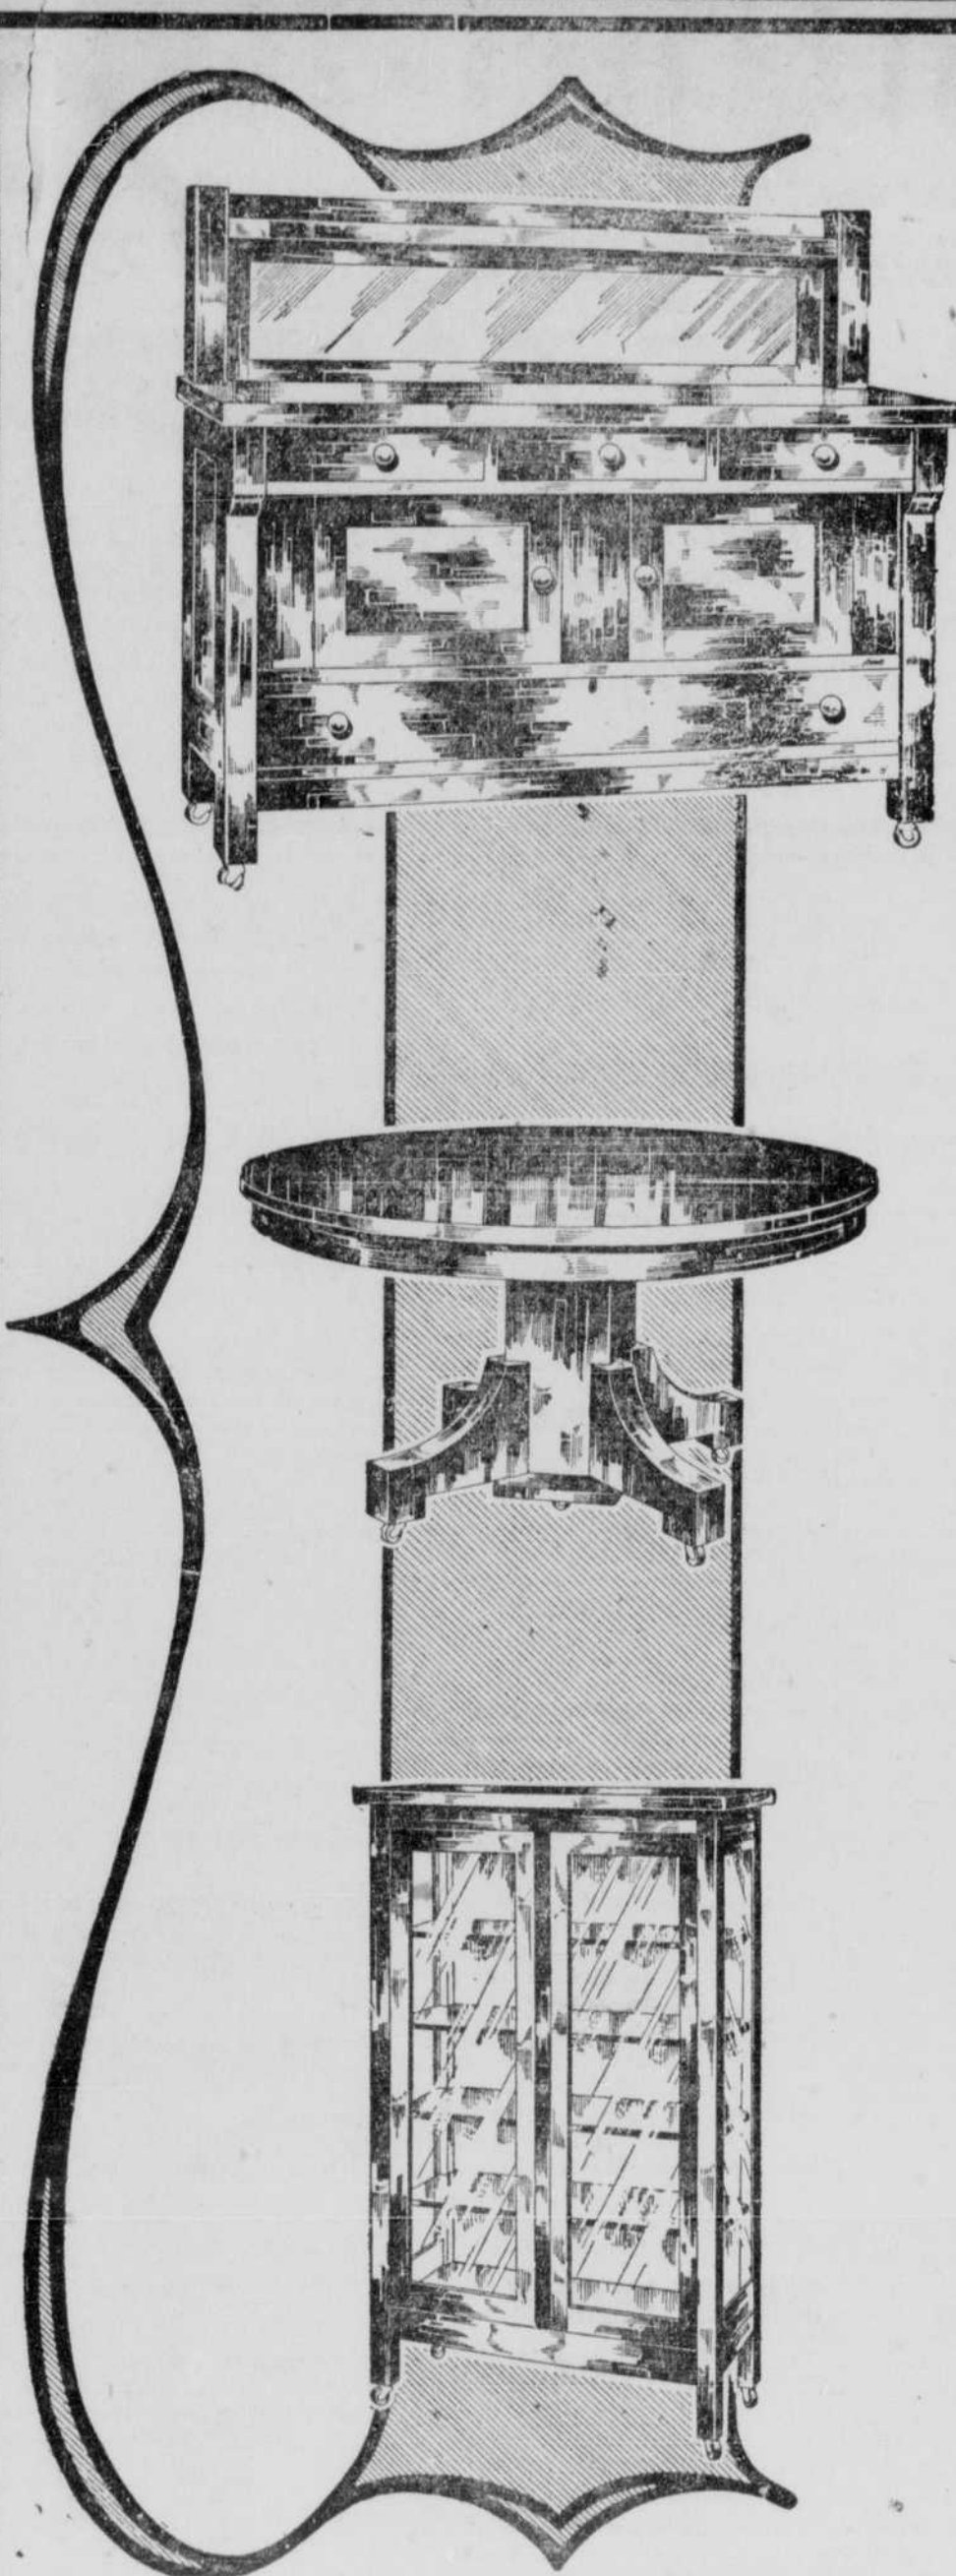

All that the United Railroads show for the \$1,096,000 is Calhoun's promissory note, which was listed in its assets at \$1 by Jesse Lillenthal, who succeeded him as president.
