The Huttig lodge was instituted on June 10th 1905 with 72 charter members and now has 96 members with new ones joining every meeting night which is every Tuesday evening.

This lodge has about \$350 in their treasury outside of fixtures and regalia and was the banner lodge of the state last year in the amount of money given toward the support of the Orphan's Home which certainly speaks well for the members and town considering the short time the local lodge has been organized and that Huttig is only a town of 2,000 inhabitants.

F. C. Wooley, W. H. Wheler and Berry Woods are the past grands of the local lodge and are still residents of Huttig.

Free sample of "Preventics" and a booklet on Colds will be gladly mailed you, on request by Dr. Shoop, Racine, Wis., simply to prove merit. Preventics are Little Cold Cure tablets. No quinine, no laxative, nothing harmful whatever. Preventics prevent colds as the name implies—when taken early or at the "sneeze stage" for a set cold or LaGrippe break it up safely and quickly with Preventics. Sold by Felsenthal Drug Co.

Roadmaster Plummer Resigns.

Roadmaster J. M. Plummer, who has had charge of the El Dorado & Bastrop, the Farmerville Southern and the Little Rock & Monroe railroads since their completion has tendered his resignation but same had not been accepted up to the first of the week. His many friends up and down the line are in hopes that it will not be and that Mr. Plummer will remain in charge.

E. S. Bales Dies at Camden.

The friends of E. S. Bales, who for the past two years has been living at Huttig and Strong were shocked to learn of his death, which occurred at Camden on Sunday, April 21st. Mr. Bales was only

sick five days and his death was wholly unexpected. In March of this year Mr. Bales was married to Miss Nannie McGill of Strong who has our deepest sympathy in her bereavement. He was a member in good standing of Huttig Lodge No. 348, I. O. O. F.

Were Accommodating.

A woman in a neighboring town going from home for the day, locked everything up well and for the grocers benefit wrote on a card: "All out, don't leave anything." This she left on the front door. On her return home she found the house ransacked and all her choicest possessions gone. To the card on the door was added: "Thanks; we haven't left much."

Buttermilk as a Medicine.

Even when it is sourest, if it is still in good condition, buttermilk is a valuable medicinal agent. A refreshing acid, it is always nourishing without being insipid.

The lactic acid which it contains attacks and dissolves every kind of earthy deposit in the blood vessels; keeps the veins and arteries supple and free from matter which might otherwise clog them, and destroys the irritating calcareous deposits that may gather around the joints, as well as any poisonous waste in the muscles. It is not only beneficial to the digestion, but also for tuberculosis and all other pulmonary complaints. It is also a harmless substitute for intoxicants.

Drinking buttermilk freely—two quarts a day would not be too much—is said to preserve the complexion of youth, and as gouty difficulties generally arise from sluggish excretion it is a blessing to all who suffer from such complaints.

Buttermilk not only tones up the

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seen to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

stomach, but furnishes material from which healthy blood may be easily made. It is also easy of assimilation, and in cases where sweet milk would prove objectionable from a medicinal point of view it may safely be given with every assurance of beneficial effect. For creaky, aching, or swollen joints it should be taken frequently, and care should be observed to procure it freshly churned.

The Farmer's Creed.

More than sixty years ago Henry Ward Beecher, the great pulpit orator, gave voice to the following farmer's creed, which possesses lasting qualities:

"We believe in small farms and thorough cultivation.

"We believe that soil loves to eat as well as its owner, and ought, therefore, to be liberally fed.

"We believe in large crops which leaves the land better than they found it—making the farm and the farmer both glad at once.

"We believe in going to the bottom of things, and therefore, in deep plowing and enough of it. All the better with a sub-soil plow.

"We believe that every farm should own a good farmer.

We believe that the best fertilizer for any soil is a spirit of industry, enterprise and intelligence. Without this, lime and gypsum, bones and green manure, marl and guano will be of little use.

"We believe in a good fence, good barns, good farmhouses, good stock, good orchards and enough children to gather the fruit.

"We believe in a clean kitchen, a neat wife in it, a spinning wheel, a clean conscience.

"We firmly disbelieve in farmers that will not improve; in farms that grow poorer every year; in starving cattle, in farmer's boys turning into clerks and merchants; in farmers ashamed of their vocation, or who drink whiskey until honest people are ashamed of them."—Cotton Journal.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart or the Kidneys. Address me, Dr. Shoop, Racine, Wis., Troubles of the Heart, Stomach or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment and not the cause. Weak stomach nerves—the inside nerves—means a weak stomach always. And the heart and kidneys as well have their inside or controlling nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy ever claims to treat the inside nerves. Also bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. MONROE BUSINESS MEN.

Spend Two Hours Here Thursday Afternoon—
Out After Trade.

The third annual excursion of the Monroe business men given under the auspices of the Progressive League and in charge of that prince of jolly good fellows, Col. E. W. Anderson, arrived here at 12 o'clock Thursday noon on schedule time and left for Strong and El Dorado via Felsenthal at 2 o'clock.

The special train consisted of a baggage car two coaches and a dining car and was in charge of Conductor C. K. Thomas of the Iron Mountain.

The party was composed of sixty representatives of the leading business firms of Monroe who were out after business and each distributing advertising matter. If a man visited their train and carried away what was given him in the way of souvenirs he would have looked like an Xmas shopper.

During their stay here the editor heard many words of praise for our school and church buildings, also the public library and comfortable homes. A large number of the party were shown through the plant of the Union Saw Mill Co. and marveled at its completeness.

The train left Monroe at 7 o'clock Thursday morning and the night was spent at El Dorado and went to Ruston over the Arkansas Southern and to Monroe over the V. S. & P. Ry.

Diamonds in a Turkey.

A. E. Culbreath of the Culbreath Logging Co., who has just returned from a trip to Gurdon is authority for a story we have failed to see in print regarding Pike County diamonds. Ed says the sheriff of that county on last Christmas found two genuine first water diamonds in the craw of his Xmas turkey and that nearly all the available land in that neighborhood has been optioned the purchase price of some named as high as \$40,000 for 40 acre tracts. The people who hold the options will not even allow a person upon the ground and rumor has it that over 100 fine diamonds have been found since the first discovery some six months ago when specimens sent to Tiffany of New York were pronounced genuine.

Does Away With Special Stamp.

Postoffice department officials are looking forward with interest to the putting into effect of the law permitting the transmission of letters and packages for special delivery where the necessary 10 cents postage is attached in addition to the ordinary postage. The law will become effective July 1 next, and is intended to do away with the necessity for the usual special delivery stamp. It is believed at the department that a considerable increase of business will result.
