

## WHAT WILL HE DO ABOUT CRUM?

CHARLESTON'S COLLECTOR.

THE PRESIDENT'S ACTION AN INTERESTING QUESTION.

Crum Has Been Serving Nearly Four Years as the President's Appointee Without Pay—Puts in His Voucher Regularly—The President's Intention Said to Be Not to Withdraw the Negro's Nomination Because of His Color, but if the Senate Again Rejects His Confirmation a New Name Will Be Sent In.

By R. M. Lerner.

Washington, Nov. 16.—As the assembling of Congress approaches, the question arises in political circles, "What action does the President intend to take in the now famous Crum case?"

Dr. Crum is the negro who has so frequently been nominated Collector of the port of Charleston, but has never been confirmed by the Senate. The President insists in putting it up to the Senate to either confirm or reject Crum, and in the meantime Crum is holding down the office, but serving without pay. The Controller of the Treasury has decided that Crum is not allowed to draw salary until he is confirmed.

For nearly four years Crum has been performing the duties of Collector at the port of Charleston, under a series of continuous appointments made by President Roosevelt. Regularly, Collector Crum, in his quarterly estimates for salary, submitted to the Secretary of the Treasury, has inserted the amount of his own salary. With equal regularity the accounting officers of the Treasury have stricken out that item, so that up to date Crum has not drawn a cent of salary for such duties as he may have performed.

When Crum was first appointed the fees of the office entitled the collector to a salary of about \$1,700 per annum. This year the transactions at that port fell off, so that under ordinary conditions the collector's salary would be about \$1,300.

It is understood by those who profess to be familiar with the President's intentions regarding this extraordinary case, that he does not propose withdrawing the nomination of Crum simply because of his color. If the Senate rejects his confirmation, a new name will be sent to the Senate. When the Crum case was last considered by the Senate Committee on Commerce, it was reported favorably by a strict party vote. The Democrats succeeded in preventing a vote at the close of the session, and Crum was at once given a recess appointment, under which he is now administering the office, confident that he will eventually be compensated in full for his services, by special act or otherwise.

**Condition of Thompson.**

New York, Nov. 16.—Former Gov. Hugh Smith Thompson of South Carolina, who has been critically ill at his home in this city, was still alive today. Mr. Thompson is suffering from asthma growing out of an attack of grip last March.

This afternoon the attending physicians announced that ex-Governor Thompson's condition had improved.

Attending physicians stated to-night that the condition of Mr. Thompson has not improved, and they entertain no hope for his recovery.

**OBITUARY.**

**Mrs. A. L. Register.**

After an illness which lasted for several months and which has confined her to her bed for the last six weeks, Mrs. A. L. Register died yesterday morning at the residence of her daughter, Mrs. L. E. Robinson, No. 201 Thirtieth street, west. She was a native of North Carolina and was the widow of George R. Register. She had resided in Savannah for the last eighteen years.

Mrs. Register was a member of the Baptist Church. All of her immediate family were at her bedside during her last moments. She is survived by a daughter and six sons, Messrs. S. W. and M. G. Register of Jacksonville, Fla., Messrs. G. W., J. E., J. C. and R. P. Register of Savannah, and Mrs. L. E. Robinson.

The funeral will take place this afternoon at 4 o'clock from the residence of Mrs. Robinson. The interment will be in Laurel Grove Cemetery. Rev. E. F. Morgan of Grace Church will conduct the services. The pallbearers will be Messrs. Paul Beavers, B. L. Bugge, J. E. McMillan, A. J. Floyd, A. Arley, S. R. Haniss and Frank Whaley.

**Mrs. Ernest Schuster.**

Mrs. Ernest Schuster, aged 62 years, died yesterday morning at her home, No. 222 Waldburg street, east, after a brief illness. A husband and three children, Misses Annie and Elizabeth Schuster and Mr. Herman Schuster, survive her. Miss Annie Schuster was in New York with the news of the death of her mother reached her. She is expected this morning.

Mrs. Schuster was a devout member of the Episcopal Church, and had been a resident of Savannah for many years. The funeral arrangements will be made until the arrival of her daughter.

**George Hawkins.**

Mr. George Hawkins died last night at 6 o'clock at his residence, No. 401 Jones street, east. He had been ill for a year and a stroke of paralysis was the cause of his death. He leaves a wife.

Mr. Hawkins was 71 years old and was born in Ireland, but had been a resident of Savannah for twenty-two years, forty years of which he has been in the employ of the late Mr. Abraham Minis. He served four years in the Confederate army as a member of the Tenth Georgia Cavalry, Company F, First Georgia Regiment, under the command of Capt. Davenport.

The funeral will take place from his residence Friday.

**Elder C. A. Hall, Grayville, Tenn.**

Nashville, Tenn., Nov. 16.—Elder C. A. Hall, for several years a Seventh Day Adventist missionary to the island of Jamaica, is dead at Grayville, Tenn., a Seventh Day Adventist settlement. He was 57 years of age and a native of Vermont.

**Mrs. Clara Conway, Memphis.**

Memphis, Tenn., Nov. 16.—Mrs. Clara Conway, one of the best known women educators in the South, is dead, after an illness of several days.

## SOCIETY WAS IN FORCE AT THE HORSE SHOW.

How the Events Were Decided in the Big Arena.

New York, Nov. 16.—The crowd at the horse show in Madison Square Garden to-day was the largest of the present meeting. In the afternoon nearly all the boxes were filled with fashionably dressed women, and 10,000 persons witnessed the exhibition.

The evening attendance was the largest and most brilliant so far this week. The attraction was the Waldorf-Astoria cup for gig horses, and to see this event society arrived early. The boxes were well filled and the gowns of the women proved one of the leading attractions to the thousands who thronged the balconies.

The most important prize awarded this week, the challenge cup, went to Mr. Jordan's black hackney stallion, Gentleman John. As this horse won the cup last year, to-day's victory gives Mr. Jordan permanent possession of the trophy.

Lord Brilliant, Mrs. John Gerken's chestnut gelding, one of last year's blue ribbon winners, won first honors in the class for horses attached to runabouts over Mrs. J. B. M. Grosvenor's horse, Elevation, and Alfred G. Vanderbilt's Lady Katherine, out of a field of twenty competitors. An interesting event was the four-in-hand contest between Mrs. Grosvenor and Miss Ella S. Ross of England, which was won by the former.

The Corinthian class of jumpers was won by Mrs. Thomas Hitchcock, Jr., with Kingsman.

Eben D. Jordan has won the most prizes this week. His horses have taken ten blue ribbons, three seconds and one third.

## THREE MET DEATH BY INHALING GAS.

In One of the Cases Only Was There Evidence of Suicide.

New York, Nov. 16.—Three persons are dead and another is at a hospital in a serious condition as a result of inhaling illuminating gas to-day. In only one case was there anything to indicate that the victim had invited death.

After eking out a wretched existence for several months past, ill, unable to work and dependent upon the charity of her neighbors, Mrs. Rosa Rosenberg locked herself into her little basement room in the rear of an East Side tenement, opened half a dozen gas jets and lay down to die. Her body was found by the janitress of the building.

Frederick Brandt, who called himself a "professor of astrology," turned on the gas by accident in his lodging in West Forty-second street and lost his life.

Accidental disconnections of a tube from the gas stove in his room on East Thirty-seventh street is supposed to have been responsible for the death of William Coffey, a roofer. Coffey had been dead for hours when his body was found.

Mrs. Mary Higgins, a domestic, was overcome by gas fumes in a furnished room in the East Side. She is now at a hospital and will probably recover, but her condition is critical.

## NEGRO BOY HANGED IN CONNECTICUT.

Paid the Penalty for Murder He Committed in August.

Wethersfield, Conn., Nov. 17.—Joseph Watson, the 18-year-old colored boy who murdered Henry Osborne of Hartford, last August, paid the penalty for his crime this morning when he was put to death by hanging on the gallows in the state prison. The drop was sprung at 12:09 o'clock and at 12:15 Dr. Fox, the prison physician, declared him dead.

The reflex muscular action shown by Watson after the drop was sprung was remarkable. While suspended in the air and apparently after his neck had been broken, he clasped his hands, then drew them apart and finally let them drop to his side.

Shortly before midnight the sacrament was administered to the condemned boy and later he knelt in prayer with his spiritual adviser, the Rev. A. A. Crook, of Hartford.

## UP GO THE PRICES OF BUILDING MATERIALS.

Birmingham, Ala., Nov. 16.—The Southern Yellow Pine, Sash, Door and Blind Manufacturers' Association held a lengthy executive meeting here to-day, the result of which will be, it is understood, an advance in the prices of building supplies manufactured by the firms within the association.

## THE VALUE OF CHARCOAL.

How People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onion and other odorous vegetables. Charcoal effectually cleans and improves the complexion, it whitens the teeth and has a purifying action on the skin, and is eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the germ of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges, the active ingredient of which is the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them. They cost but 25 cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

## WILL BE FEW CONTESTED SEATS

SOUTHERN REPUBLICANS

WHO WENT THROUGH THE FORM OF RUNNING FOR CONGRESS.

Will Have Little Chance for the \$2,000 Allowed in Contested Elections—Few Contests Likely to Be Entertained on Account of the Large Republican Majority in the House—Cabinet Makers, Tariff Revisionists and "Trust Busters" Are Getting Busy.

By R. M. Lerner.

Washington, Nov. 16.—The large Republican majority in the next House of Representatives is apt to have a disappointing effect upon Southern Republicans, who went through the form of running for Congress, in order to lay claim to the \$2,000 allowed in each contest. If the Republican margin in the next House had been very narrow, it is probable that some of the Southern contested election cases would be decided against the Democratic member-elect. As the Republicans have more majority than Speaker Cannon knows what to do with, it is not probable that one-half of the contests contemplated will be entertained.

It is an old game the Southern Republicans have been playing successfully for a number of years, under inspiration, it is believed, from crafty political lawyers at Washington. Since the close of the Civil War there has hardly been a Congress without a contested election case from the Charleston district. The Republican contestants have rarely been able to convince a Republican House of the justice of these chronic contests, but they are made just the same, every two years, because of that tempting allowance of \$2,000.

President Roosevelt may have to revive his explanation bureau. The cabinet makers are busy reconstructing his cabinet for him, and the tariff revisionists, led by Representative Babcock, are demanding an extra session of Congress immediately after inauguration. The trust busters are also active with announcements that Attorney General Moody is sitting up late at nights preparing to "run amuck" of the beef trust, the railroad trust and any other old trust in sight.

In the meantime it is understood the President proposes to withhold any observations he has to make as to his future policy for his forthcoming message to Congress. He hopes to complete his message before starting for the St. Louis Exposition, and to that end he will labor during the coming two weeks.

## BRECKINRIDGE SUFFERS STROKE OF PARALYSIS.

His Condition Serious but Not Necessarily Critical.

Lexington, Ky., Nov. 16.—Col. W. C. P. Breckinridge, former congressman from the Ashland district, and one of the best known orators and lawyers in the South, was stricken with paralysis at his law office this morning, and is seriously ill.

Some weeks ago while in Marquette, Mich., trying a law case, Col. Breckinridge contracted a severe cold, and upon his return to Lexington he suffered the second illness of his life. He had never recovered from that illness, and had attended to little business, though going to his office every morning.

This morning, while seated at his desk, he was stricken with paralysis. His stenographer hurriedly summoned his son, Desha Breckinridge, and physicians. They worked over Col. Breckinridge in his office for several hours, after which he was removed in an ambulance to his residence. An examination by physicians showed the right side paralyzed. To-night he is slightly improved, though he is not yet able to speak. Physicians pronounce his condition serious, but not immediately critical. Should he suffer another paralytic stroke, however, it is feared the result would prove fatal.

## CONDUCTOR INDICTED FOR RESPONSIBILITY.

He Must Answer for the Wreck Near Newmarket, Tenn.

Knoxville, Tenn., Nov. 16.—W. B. Caldwell of this city, who at the time admitted his responsibility for the terrible wreck on the Southern Railroad near Newmarket, Tenn., early in August, in which sixty-two lives were lost, has been indicted by the grand jury of Jefferson county, Tennessee, for criminal negligence. The indictment was returned at Dandridge to-day.

Caldwell was conductor on the west-bound passenger train, which overran its orders to meet the east-bound passenger at Newmarket and crashed into the east-bound train a few miles west of Newmarket. His engineer, the only other employee who could have been held responsible, was buried beneath his engine in the crash.

The penalty for criminal negligence in this state is imprisonment for from two to ten years.

## CLYDE LINER ALGONQUIN WAS IN A COLLISION.

Jacksonville, Fla., Nov. 16.—The Clyde liner Algonquin arrived here this morning, slightly listed to starboard because of the shifting of her cargo during Sunday's storm, and with a slight rip in her side made by the bowsprit of an unknown schooner, which she encountered. The schooner was without lights and hove up in front of the Algonquin when the storm was at its height. It was almost impossible to avoid a collision, as both vessels were rolling on heavy seas.

## MILLS SHORTHANDED.

Fall River, Mass., Nov. 16.—There was no practical change in the mill situation to-day. The mills generally started up short handed, as on Monday and Tuesday, and a number of them continued to run during the forenoon. The manufacturers claim to have made slight gains over the first two days of the week, but these claims are not admitted by the labor leaders.

Two men were arrested to-night for stoning mill overseers, as the latter were leaving the mills. Neither assailant was charged with any crime, but they were promptly pointed out by strikers in the crowds about the gates.

## Make Your Own Ice Cream.

There has just been filed in all the grocery stores, a new preparation called

**Jell-O Ice Cream POWDER**

which is meeting with great favor, as it enables everyone to make ice cream in their own home with very little trouble. Everything in the package for making two quarts of delicious ice cream. If your grocery store supply you send 50c. for two packages, by mail, Vanille, Chocolate, Strawberry and Vanilla. Address: The Genesee Pure Food Co., Box 295, Le Roy, N.Y.

## BANDITS CAPTURED.

Men Who Held Up the Bank at Cody Taken by Officers.

Omaha, Neb., Nov. 16.—A special from Cheyenne, Wyo., says the robbers who held up and killed Cashier Middaugh of the Cody National Bank and made their escape with a considerable sum of money, have been captured in Northern Wyoming. No details have yet been received.

## Only One Captured.

Kansas City, Mo., Nov. 16.—A special to the Times from Cody, Wyo., says: According to news received by telephone from Thermopolis, only one man has been captured. This was the larger of the two men who robbed the Thermopolis saloon. The captured man appears to fill the description of the one who shot Middaugh in the attempted bank robbery in Cody.

The capture was made about three and a quarter miles above the mouth of Owl creek, in the Big Horn valley, a few miles from Thermopolis. The officers came cautiously upon the ruffian and succeeded in getting the drop upon him before he was aware of their presence, and upon being questioned as to the identity and whereabouts of his partner, he refused to utter a single word; in fact, he has remained silent ever since he was captured.

Upon his person were found a revolver and some money that are known to be the same as that taken from Edwards' saloon yesterday.

## CHEERED ATTITUDE OF FALL RIVER WORKMEN.

Federation of Labor Glad They Will Not Give In.

San Francisco, Nov. 16.—At the opening of the third day's session of the American Federation of Labor convention a telegram alleging the complete failure of the attempt of the operators to open up the Fall River mills was read to the delegates. The announcement was received with cheers.

A stormy session was held, in which a factional fight regarding the seating of John Mangan, a delegate from the Florists and Gardeners Union, among the Chicago delegates, was averted. The Credentials Committee failed to report on the status of William Schardt, president of the Chicago federation. When a delegate threatened to bring the matter to a focus and have it threshed out on the floor of the convention it was side-tracked by making it a special order of business for to-morrow.

It is also expected that consideration of the Fall River situation will be begun at this time.

## HONOR GRADUATES FOR SECOND LIEUTENANCIES.

Washington, Nov. 16.—The War Department to-day announced the following honor graduates nominated for appointment as second lieutenant in the army by the authorities of the military schools:

Virginia Military Institute, Lexington, Va., Ralph Howard Claggett, as principal; D. Cecil Pearson, as alternate.

South Carolina Military Academy, Citadel, Charleston, S. C., Charles Manly Drummond, as principal; George Walker White, as alternate.

## DIED OF THE DISEASE HE WAS STUDYING.

Mexico City, Nov. 16.—Information has reached here that Dr. Zalzo Gochi has died at Merida of yellow fever.

He was commissioned to study that disease by the Italian government and died a martyr to his science.

## Farewell to Liberty Bell.

St. Louis, Nov. 16.—Special farewell exercises in honor of the Liberty Bell, which for several months has been on exhibition in the Pennsylvania building at the World's Fair, were held to-day, at the conclusion of which the honored relic was started on its trip back to Philadelphia.

A throng of World's Fair sightseers attended the exercises.

Mayor John Weaver of Philadelphia, Mayor Wells of St. Louis, President of the exposition company, Henry Clay of the special Liberty Bell Committee from Philadelphia, Vice President-elect Fairbanks and Speaker Cannon made addresses.

## BIG ARMIES AND NAVIES ARE ENOUGH TO GIVE DEVILS JOY

Dr. Dabney's Address Upon His Installation as President of the University of Cincinnati.

Cincinnati, Nov. 16.—Dr. Charles W. Dabney was to-day inaugurated president of the University of Cincinnati. Mr. Dabney in his inaugural address, discussed "Democracy and the School."

"Let us cast out of our minds all half-hearted arguments for the free education of all the people. It is true that it pays a community to educate all its youth, but the public school is not a charity institution. School houses and schoolmasters are cheaper than jails and soldiers; but we do not found the public school on any such ground as this. Such arguments for free schools are little less than an insult to a free people. The true democracy is something nobler than a policeman guarding and protecting our property and our rights. The democracy establishes its public schools to train new citizens, and to fit them for self-government, and when it shall have done its duty in this respect there will be no need of policemen and soldiers."

"A democracy spending hundreds of millions for warships and so forth for armies and navies is enough to give devils joy. If we spent one-fourth of this treasure in schools and missions, the whole world would soon be ours in bonds of love, and there would be no need of these engines of death and destruction."

"Men have, indeed, a right to govern themselves, but without education men have not the capacity. Suffrage is not a natural right, but a privilege assigned to those who qualify themselves for its proper exercise in accordance with a standard fixed by the state."

"Democracy means self government; self government necessitates universal education and universal education can only be accomplished by free public schools under the control of all the people."

The speaker concluded with a reference to Japan as "an example of what education can do for a people."

## JAPANESE DESTROYERS HAD A LOOK AROUND.

Continued from First Page.

fied themselves that the destroyer Rastoropy had been sunk, and departed.

## MIDSHIPMAN A HERO AT PORT ARTHUR.

He Torpedoed a Japanese Torpedo Boat Destroyer.

Che Foo, Nov. 16, Evening.—The Port Arthur newspaper Novikoff of Nov. 11, copies of which were brought to Che Foo this morning by the Russian torpedo destroyer Rastoropy, prints brief details of a daring exploit which resulted in the sinking of a four-funneled Japanese torpedo boat destroyer.

Japanese torpedo boats and one destroyer were engaged in removing mines, mostly their own, from Tache bay on Nov. 3. Midshipman Dimitrieff conceived the idea that he could torpedo the Japanese boats under cover of darkness as the latter were very busy and enjoying a fancied security. It was the very audacity of the plan, the Novikoff says, that made it successful.

Securing a steam launch from the battleship Retvizan, carrying a torpedo tube and accompanied by half a dozen silent volunteers, Midshipman Dimitrieff, in the dense darkness, slipped out of the harbor and succeeded in evading the Japanese searchlights.

Circling around the Japanese boats with the launch moving at top speed, the midshipman came within striking distance from the seaward side and launched his projectile. It sped through the destroyer. There was a sudden explosion and the destroyer sank immediately.

The launch then sped towards the harbor, but was not pursued, the Japanese evidently having not observed the launch, and thinking that the destroyer had struck one of their own mines.

Midshipman Dimitrieff is the hero of the day at Port Arthur, according to the paper.

## SAYS ALL THE FORTS ARE IN RUSSIANS' HANDS.

Che Foo, Nov. 16.—Commander Pelen of the Rastoropy, in an interview on his adventurous voyage, said:

"I left Port Arthur at midnight in a blinding snowstorm. The boat was navigated through all the dangers of floating mines without a mishap. On reaching the open sea we saw a Japanese cruiser and some torpedo boats in the distance, but we were steaming rapidly through the storm with lights extinguished and passed them unnoticed. We reached Che Foo without mishap of any kind."

The commander of the torpedo boat destroyer was optimistic with reference to Port Arthur. He declared that all the forts remained in Russian hands, and that the garrison was confident and in good spirits.

## MORE RUSSIAN SHIPS SAIL FOR THE EAST.

Libau, Russia, Nov. 16.—The second division of the Russian second Pacific squadron sailed to-day. It consists of the cruisers Oleg and Izumrud, the auxiliary cruisers Kuban, Terek and Orel; the cruisers Rion and Dnieper, (formerly the St. Petersburg and Smolensk), and the torpedo boat destroyers Liany, Reztzy, Gromki, Grozny and Pozorlivy.

The division is expected to overtake Rear Admiral Volskerski's division by way of the Sues canal.

## RUSSIAN TROOPS CONTINUE TO ARRIVE.

Mukden, Nov. 16.—It has been generally quiet along the Russian line to-day, varied by occasional artillery exchanges. There have been fewer skirmishes for some days past. Reinforcements continue to arrive, and one whole regiment was received in a single day.

There is reason to believe that important developments will transpire shortly and that possibly there will be heavy fighting.

## RUSSIANS AND AFGHANS NOW HAVE TROUBLE.

London, Nov. 16.—A dispatch to the Pall Mall Gazette from Moscow says a telegram received there from Baku announces that trouble has occurred between Russians and Afghans at Kushku. The Afghans, it is added, exploded a Russian magazine and many soldiers were killed.

The foreign office has heard nothing about the reported trouble at Kushku.

## Foreigners All Well.

Che Foo, Nov. 16, 6:45 p. m.—A private stationer from Port Arthur reports that the Associated Press to publish a statement to the effect that all the foreigners there are well, and that none of them has received any wounds during the fighting.

## CATARRH FROM BABYHOOD.

A Beautiful Little Girl Saved From a Life of Suffering by Pe-ru-na.

Doctored With Best Physicians for Three Years Without Benefit.

Pe-ru-na Cures a Case of Catarrh of Long Standing.

NEGLECTED COLDS LEAD TO CATARRH. NEGLECTED CATARRH BECOMES CHRONIC.

Mrs. George Van Dusen, Mohawk, Herkimer Co., N. Y., writes: "Having derived so much benefit from your grand medicine I felt as if I must write to you and tell you what a great help it has been to us. My little daughter when but two months old took a severe cold and it settled in her head and continued to get worse, and in a few months terminated in the worst case of catarrh that has ever been known in this part of the state."

"After doctoring with the best doctors for three years and receiving no benefit, we were persuaded to try a widely advertised catarrh cure, and at first we thought it was helping her, but after using twenty or more bottles she was as bad as ever."

"As a last resort we began Peruna, and she is now nine years old, and for the first time has been the healthiest child you ever saw. The catarrh has entirely disappeared. No discharge nor odor at all, but we keep the precious bottle in the house, and at the first appearance of cold with any of us we immediately take Peruna. We know there is nothing like it. In our estimation it is priceless."—Mrs. George Van Dusen.

ONE of the greatest foes with which every family has to contend is our changeable climate. To protect the family from colds and coughs is always a serious problem, and often impossible.

Sooner or later it is the inevitable fate of every one to catch cold. Care in avoiding exposure and the use of proper clothing will protect from the frequency and perhaps the severity of colds, but with the greatest of precautions they will come. This is a settled fact of human experience.

One is liable to catch cold in any season. Everybody must expect to be overtaken by colds, and colds are the forerunners of many other ailments. Perhaps it will be wet feet, or a draught, or damp clothes, or it may be one of a thousand other little mishaps, but no one is shrewd enough to always avoid the inevitable catching cold.

Pe-ru-na Contains no Narcotics. One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates the catarrh by removing the cause of it. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature. Address Dr. S. B. Hartman, President of The Hart
