

BEAUTIFUL WOMAN
Is Always a Well Woman
You Should Not Overlook One Word
of this Letter

Long Beach, Wash.—"I have taken
Pierce's Favorite Prescription off and
since 1910—do not take it all the time
I am never without it—and when I feel
a little under the weather it is my medi-
cine. I started to take it first for tired-
ness and loss of appetite. I received
wonderful results from the first bot-
tle that I never want to be without it,
and I gladly recommend it to the young as
well as the old. Young women in prime
of life need all their energies; they may
keep away from the blues and that tired
feeling by using Dr. Pierce's Favorite
Prescription. I think it is the best of all
medicines. Women who are getting on in
years need a good medicine. The little
pills which they had not noticed
in past years are developing into
real sickness, and they feel that dis-
courage and tired condition more than any
other. I beg you, women, to take my
advice, get a bottle of Dr. Pierce's Favorite
Prescription. You will bless the day
you read my letter." Mrs. A. W. Quinn,
You should obtain this famous Pres-
cription now at your nearest drug store
in tablets or liquid, or write Dr. Pierce,
President Invalids' Hotel in Buffalo,
N. Y., for free medical advice.

The Ruling Passion.
A number of darkies were unload-
ing a boat with a cargo of anvils, for
which they received 2 cents for each
anvil carried ashore.

Jose—Capt'n, if I carry two anvils
at a time how much do I get?
Captain—Two cents each, boy.

As Jose started down the plank it
broke and he fell into the river with
the two heavy anvils. When he came
to the surface he cried: "Captain, if
you-all don't throw me a rope I've
gwin' to drop these here anvils an'
lose mah fo' cents!"—Judge.

SHIPS COLLIDE IN FOREIGN WATERS

THIRTEEN LIVES LOST WHEN STEAMER IS DAMAGED BY VES- SEL OFF COAST OF SCOTLAND

Damaged Vessel Goes to Bottom When
Rammed by Liner Coming
to Rescue Americans
on Board

Belfast—Damaged by one vessel in
a dense fog off the southwest coast of
Scotland and then sunk by another
coming to its aid was the fate early
Sunday morning of the Laird line
steamer Rowan, plying between Glas-
gow and Dublin. Thirteen of the Row-
an's crew and three passengers are
missing. Two passengers died after
being rescued by vessels which re-
sponded to the wireless S. O. S. call.

An official statement says that the
Rowan carried ninety-three persons,
including the crew, seventy-seven of
whom are accounted for by the four
vessels which went to the Rowan's
assistance.

Aboard the Rowan was the Ameri-
can Southern Synopacted orchestra,
composed largely of colored players,
who had been touring this side of the
water since 1919.

One of the men who died after being
taken out of the sea was Pete Robin-
son, the drummer of the orchestra.

The accident was due to a double
collision in the North channel off
Corsewall point. The Rowan first col-
lided with the American steamer Vest
Camak, both of them being damaged.

The West Camak stood by with fore-
peak full of water, meanwhile sending
out wireless for aid. The Clan Liner,
Clan Malcolm, responded, but in the
confusion due to the heavy fog ran
into the disabled Rowan, which sank
immediately.

The West Camak helped in the res-
cue work, afterward putting into Glas-
gow with twenty-six survivors. Cap-
tain Donald Brown of Glasgow is re-
ported to have gone down with the
Rowan. Three other vessels also an-
swered the call and completed the
work of rescue as far as was possible.

The Clan Malcolm, which rammed
the Rowan amidships, was injured only
slightly.

The synopacted orchestra, which
went to London in June, 1919, gave
performances there and vicinity until
two months ago, when they made a
tour of Scotland.

Large Mushrooms Found

Paris—Two mannoth mushrooms,
enough to "smother" all the steaks
available in a hind quarter of beef,
have just been found in France. Four
feet in diameter and weighing between
nine and ten pounds, the first one was
found on an estate in Saint Germain.
The species is edible and is known po-
pularly in the district as the "death's
head" mushroom. The other known as
the "bearded puffball," has been picked
at Bourneuf. It weighs close to nine
pounds and has a "flap" diameter of
twenty inches.

Airplane Takes Two Lives

were flying over the Lynn marshes
crashed.

To Repeat Address

New York—Arrangements for mass
meetings at New York, Chicago and
San Francisco, at which President
Harding's address over the body of the
unknown soldier in Arlington cemetery
will be made audible by use of giantic
amplifiers, have been completed by
the American Legion. On the evening
of the same day a mass meeting will
be held at New York to urge realiza-
tion of the limitation of armaments
program before the international con-
ference which opens in Washington.

PLAN SUGGESTED FOR UNEMPLOYED

SECRETARY HOOVER SUBMITS PLAN FOR SECURING WORK FOR UNEMPLOYED OF NATION

Various Irrigation Projects of West
Would Furnish Work For
Thousands it is Stat-
ed in Report

Washington—Resolutions adopted
by the national conference on unem-
ployment suggesting steps for the
economic betterment of the country
were transmitted to President Harding
Wednesday by Secretary Hoover, chair-
man of the conference. The conference's
conclusions after a survey of
the nation's business and employment
problems were expected to form a
guide for the administration's future
policy. As several of the conference's
resolutions suggest congressional action,
it was thought these might be called
to the attention of congress by the
president.

Recommendation that Secretary
Hoover select a representative commit-
tee from the various elements interest-
ed in construction, to coordinate com-
munity action for improvement in the
building industry, was made in the re-
port of the committee on construction
industries.

The report declared the construction
problem was one for local action
by governors and mayors in coopera-
tion with such a committee.

Discussing the financing of construc-
tion, the report held that long term
bank deposits and the savings accounts
should be used primarily for long term
loan purposes, and should not be in-
termingled with speculative and com-
mercial business.

The report added that excessive fin-
ancing charges for building have not
been exceptional.

While the committee found that
there had been substantial reductions
in the costs of many construction ma-
terials, lower prices for some materi-
als had not yet been brought about in
keeping with the trend of wholesale
prices, and in many instances retailers
had not yet followed the reduction of
manufacturers and wholesalers. The
report says this is a subject to be taken
up locally in each community.

On the subject of wages, the com-
mittee said:

"The cost of living, rentals and work-
ing conditions differ in various com-
munities. Where fair wage reductions
have not been made, construction is
held up. Such conditions should be
dealt with fairly and frankly between
employer and workmen and reasonable
readjustments promptly made."

U. S. May Send Aid to Russia

Washington—Confirmation of reports
that an agreement had been reached
between the American relief adminis-
tration and the soviet authorities
whereby food may be sent into Russia
by relatives of the stricken people was
received Sunday by Secretary Hoover,
chairman of the relief organization. Under
the plan anyone may remit funds by
mail only, to the relief adminis-
tration in New York, Washington or
London in sums of \$10 or multiples
of that amount, accompanied by the
name and address of the beneficiary. The
administration office at Moscow will
be notified of the remittance and if
the person or group to be aided can-
not be found the funds will be return-
ed. The relief administration specifies,
however, that it will deduct one-fourth
of the food purchased from such re-
mittances and place it in a general
canteen for destitute children.

Murdered But Alive

Nashville, Tenn.—Theodore Murray
was a spectator at his own funeral
here recently. After being identified
by telegraphic information as a man
murdered Friday at Poplar Bluff, Mo.,
Murray walked into his home here
Tuesday. An envelope with Murray's
name and address scribbled on the back
of it was found upon the dead man's
body. How it came into the pocket
of the slain man, in connection with
whose death three men are held, re-
mains a mystery.

LEADING STATESMEN COMING TO CAPITOL

EYES OF THE WORLD ARE TURN- ED ON WASHINGTON TO SEE WHO WILL BE DELEGATES

Great Britain, France and Italy Have
Announced Their Delegation to
Parley on Limitation to be
Held in Washington

From Great Britain, France and Italy
Thursday came either official or au-
thoritative announcements regarding
their delegations to the limitation of
armaments conference in Washington
next month.

Evidence of increased European in-
terest in the conference and of the
importance attached to its discussions
was seen in the decision of Lloyd
George to attend personally, contrary
to expectations, and in the official
announcement that Premier Briand
would head France's delegation. Italy
named three of its most prominent
statesmen, and announced plans for
the sending of army, navy and aerial
advisers.

Britain was cheered by the report
that Lloyd George was going to Wash-
ington. It was reported King George
had influenced the premier to reach
this decision. The appointment of
Lord Lee as another of the British
delegates was also confirmed.

Following is a list of the delegations,
certain or tentative:

Great Britain (probable)—David
Lloyd George, premier, probable; Ar-
thur James Balfour, appointed; Lord
Lee, appointed; George Pearce, Aus-
tralia, appointed; W. F. Massey, pre-
mier of New Zealand, and Sir Robert
Borden, Canada. One of the latter will
probably be appointed. The British
delegation will have six members.

France (official)—Premier Aristide
Briand, Rene Viviani, former premier;
Admiral Sarraut, Ambassador Jusser-
and.

Italy (probable)—Dr. Schanzer, Ro-
landi Ricci, ambassador to Washing-
ton; Albertini Media, delegate to league
of nations.

Japan has appointed her delegates
as follows: Ambassador Shidehara,
Baron Admiral Katō, Prince Toguwa,
president of the Japanese house of
peers. Others may be appointed.

China's delegation: Dr. W. W. Yen,
chief; Chow Tsetshi, former minister
of finance; Wang Ta Shieh, leader of
the Progressive party; Dr. M. T. Liang,
former foreign minister.

London—Great Britain's representa-
tive at the approaching Washington
conference was given considerable
prominence by Thursday morning's
newspapers here, some of them man-
ifesting belief that Prime Minister Lloyd
George, after all, might go to the meet-
ing. One newspaper went so far as to
say it was probable he would sail on
November 5, and would be absent from
England for six weeks.

The Daily Mail reassured Mr. Lloyd
George would cross the Atlantic if the
negotiations with Ireland were suf-
ficiently advanced.

The majority of the British dele-
gation will leave for America on Novem-
ber 5, it was declared by the Times,
which said that in well informed quar-
ters there were fears that such a late
sailing date might prevent the dele-
gation from attending the opening sit-
ting of the conference.

Import Duties Increased

Washington—German import duties
when paid in paper currency have been
increased from 10 to 20 times the basic
gold rates, according to a cablegram
Thursday to the department of com-
merce from H. W. Adams, its Berlin
representative.

Mello Opposes Bonus

Washington—Granting of a govern-
ment bonus to gold miners, as a means
of protecting the gold reserve of the
country, was opposed by Secretary of
the Treasury Mellon Thursday in a
letter to Senator Oddie, Nevada.

Dirigible Lost in Wreck

Newport News, Va.—A big dirigible

Thursday and probably will be a total

ship when she left the flying station.

TRANSPORTATION TIEUP LOOMS UP

RAILMEN HURL STRIKE THREAT AT EMPLOYERS IF DEMANDS ARE NOT MET PROMPTLY

Workers' Ultimatum Promises Walk-
out October 30 if Negotia-
tions on Wages Are
Not Resumed

Chicago—Rail workers hurled an ul-
timatum at their employers Friday by
deciding to strike October 30 unless
negotiations on wages and working con-
ditions were reopened.

Railroad executives, who met here
Friday, defied the most powerful la-
bor unions in the nation by proceed-
ing with their plans to slash wages in
the face of a strike.

The decision to strike was reached
by heads of the railroad brotherhoods
following days of conferences.

According to the plans mapped out
by the union heads, men on all lines
will not be called out at once. The
nation's transportation system has
been divided into ten groups for strike
purposes.

Workers on the roads comprising
one group will be called out first. Then,
if the management refuses to confer
with the men with a view to bettering
wages and working conditions workers
in the next group will be called out,
and so on down the line until every
one of the two million union workers
have deserted their posts and tied up
the nation's transportation system.

These are the railroad union chiefs
who called the strike and mapped out
the plan:

W. S. Stone, Brotherhood of Loco-
motive Engineers.
L. E. Sheppard, Order of Railway
Conductors.

W. S. Carter, Brotherhood of Loco-
motive Firemen and Engineers.
T. C. Cashen, Switchmen's Union of
North America.

W. G. Lee of the Brotherhood of
Railway Trainmen did not sit in on
the sessions.

The big brotherhoods have the back-
ing of members of the Federated Shop
Crafts who are affiliated with the rail-
way department of the American Fed-
eration of Labor.

The shopmen, of whom Bert M. Jew-
ell is president, were the first to vote
overwhelmingly in favor of a strike,
but held up their decision pending ac-
tion of the brotherhoods.

All union men will act together in
the crisis, it has been decided by their
leaders.

The strike vote was taken in protest
against the 12 per cent cut in
wages which took place on July 1, on
orders of the United States railroad
labor board.

Since then, however, several men
high in the councils of unionism have
stated that they would not use this
powerful club unless another attempt
was made to cut wages.

Things moved rapidly to a head fol-
lowing the news that was given out
by the unemployment conference in
Washington that leaders in the ad-
ministration favor a reduction in wages
so that freight rates may be slashed
in an effort to stimulate stagnant busi-
ness conditions.

Examiners Swamped

Berlin—The right of initiative ac-
corded by the constitution of the Ger-
man republic to private citizens has
produced a crop of petitions to the
reichstag which is threatening to over-
whelm the commission charged with
their examination. More than 10,000
petitions and memorials with sugges-
tions for ameliorating the present con-
ditions are awaiting consideration. They
run the entire gamut of public
affairs, from fiscal reform to the sup-
ply of free dental treatment for all.

Help That Aching Back!

Workingmen's Carelessness.

Of all the accidents to workmen
which occurred in the plants of the
United States Steel corporation, only
about 5 per cent were due to machinery
causes. The others came under the
head of hand labor, and it is claimed
that half of these might have been
prevented by the exercise of a little
care by the workmen. In analyzing
the causes of any group of 100
accidents it has been found that 90
per cent of them might have been pre-
vented by the victims themselves.

MOTHER! OPEN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Your little one will love the "fruity"
taste of "California Fig Syrup" even if
constipated, bilious, irritable, feverish,
or full of cold. A teaspoonful never
fails to cleanse the liver and bowels.
In a few hours you can see for your-
self how thoroughly it works all the
sour bile, and undigested food out of
the bowels and you have a well, play-
ful child again.

Millions of mothers keep "California
Fig Syrup" handy. They know a tea-
spoonful today saves a sick child to-
morrow. Ask your druggist for genu-
ine "California Fig Syrup," which has
directions for babies and children of
all ages printed on bottle. Mother!
You must say "California" or you may
get an imitation fig syrup.—Advertisement.

heard of getting milk from more than
four. Is this a record?
