

## Local and Personal.

Anna Dunn, of American ridge, went to Spokane Thursday to visit till after the Fourth.

A. F. Weeks and Emory Bellomy returned Monday from a trip into the timber on the upper Clearwater.

Chauncey Wallace, the Moscow jeweler, accompanied by his family, were in Troy Wednesday afternoon.

Dr. Woodard will leave the first of July for his homestead on the Clearwater and will be out of town a month.

The News is indebted to Senator Heyburn for a fine map of Idaho, the latest edition of the state. The work is up to date.

The Smith Implement Co. received a car load of binding twine and are now ready to supply the wants of the farmers of this section.

All children wishing to ride on the liberty car on the Fourth are asked to be at the Odd Fellows hall at 9 o'clock on the morning of July 4th.

Alfred Christie came in Monday from Bovill where he has been assisting in the painting of Bovill's hotel. He is of the opinion that Bovill is one of the prettiest spots in the county.

Miss Alice Anderson, one of Troy's estimable young ladies, was married in Spokane on the 17 to Mr. Fred Berthell, of Spokane. The groom is a bookkeeper, and is now a resident of Spokane.

The Swedish population of Troy and vicinity observed "Midsummer Day," Monday by taking a day off and enjoying a picnic in the grove near the school house. There was a good attendance with plenty of refreshments and eatables.

We want you to read the article on home trading published in another column of the News. When the writer says that a good town increases the value of every acre of land tributary he states a fact that ought to set every farmer to thinking.

Prof. Alvah Smith, after going to Nampa, discovered that the new location was not just what he was looking for and ordered his household goods reshipped to Troy to await further orders. He and his family left for the east on the next train and will spend some time in their old home in Michigan.

Troy is once more assuming the usual appearance of a great wood yard, there now being several thousand cords piled in the yards at Duthie's and at the roller mills. The indications are that the price will remain high during the entire season, with prospects bright for a top price during the coming fall and winter. There is every indication of another fuel famine when the snow of next winter hits the country.

The M. E. Sunday school of American ridge had a picnic Saturday at the Bethel grove, and a most excellent time is reported. Sunday school from lower American ridge came up and joined in the fun. Also assisted with the singing. Miss Tempa Gray entertained the crowd with some half dozen excellent recitations, while Rev. Carick's little son and daughter gave a dialogue that was great, and enjoyed immensely by the audience. Altogether it was one of the most enjoyable picnics so far given by the school.

The old dilapidated foot bridge leading to the depot has been torn out, and will no longer be an eye sore to Troy citizens.

W. M. Duthie has undertaken the work of sprinkling the streets during summer. He put the wagon on the first of the week.

Anna Driscoll, who has been in Spokane for some time under a doctor's care, returned to her home on American ridge Thursday.

Deputy Sheriff J. W. Lieuellen and family of Moscow passed through Troy the first of the week on their way to the timber for a month's outing.

The Troy merchants report trade excellent. Well, Troy has earned the reputation of being the best trading point in the county and there is a reason for the excellent business being done here.

Give the home merchant the benefit of the doubt if you don't know where to buy anything needed. There ought to be a whole lot of difference to induce anyone to send their money away from home.

J. W. Jones, the livery man has just added a very fine carriage to his livery equipment. When pulled by his big blacks he has a turn-out that will compare with the best found in any of the towns of this county.

Mark Davis, the druggist who has been employed by C. V. Johnson for some time, has made arrangements to open up a drug store in the new town of Bovill. Work on a new store building is now under way.

There was a very enthusiastic meeting at the school house Friday evening and the sentiment was unanimously in favor of a new brick school building. It was shown to be a positive necessity to meet the increasing demands of our town.

Hugh Bovill, the proud father of a new town bearing his name, was in Troy Saturday. He said things were on the hum and the indications good for a rapid growth at the new town. Bovill will, the News predicts, make the best town along the new railroad.

And there was another "million dollar rain" in Troy and the surrounding country Saturday night. It poured down good and hard, soaking the ground. If there was any question about a bumper crop for Potlatch for 1907 this last rain ought to remove all the doubt.

E. Erickson, the Kippen saw mill man, formerly a citizen of Troy, has been found guilty of dumping saw dust into a creek. He was fined \$100 and costs, and may appeal the case. Erickson contends that the saw dust was dumped into nothing but a dry gulch, which sometimes fills with water which carries the saw dust into running creeks.

The three year old daughter of Mr. and Mrs. Dan Green was quite badly burned Friday by backing into a wash boiler containing a little boiling water. There were some clothes in the boiler, which together with the fact that there was but little water in the boiler, probably saved the little girl's life. She sustained a painful, but not a serious burn however.

### Best On Earth.

The Potlatch is the best agricultural district on earth. The News makes this assertion advisedly, and challenge successful contradiction. Where is the section that can boast of more

fertile soil, or that can show an equal record for big crops of grain, grasses, vegetables, fruits and berries? Where is the district that has ever raised bigger and better potatoes, cabbage, beans, and a hundred other good things? Where is the country that is more free from frost, bugs and destructive insects? Where the country that has never known a severe storm, and where life and property has suffered no loss as is the case here in this favored spot of creation? Truly the Potlatch is the best country on earth, and in truth may be called the "Cream of Creation."

### Married.

On Wednesday, June 19, Helmer Amundson of Taylor, Wisconsin, was united in marriage to Miss Marie Solbakke, at the home of the bride's parents north of Troy. Miss Anna Bergseth of Moscow acted as bridesmaid and the bride's brother, Oscar H. Solbakke as best man. On Thursday Mr. Amundson and bride left for Wisconsin where they will make their home. The bride is well known here where she has a wide circle of friends who extend to their best wishes. Miss Anna Olson of Hooper, Wash., and Fred Carlson and sister of Moscow were among those present at the wedding.

### HE FIRED THE STICK.

"I have fired the walking-stick I've carried over 40 years, on account of a sore that resisted every kind of treatment, until I tried Bucklen's Arnica Salve that has healed the sore and made me a happy man," writes John Garret, of North Mills, N. C. Guaranteed for Piles, Burns, etc., by C. V. Johnson druggist, 25c.

### Prose Vs. Poetry.

"April," remarked the sentimental maid, "is my favorite month. I wish it would last forever."  
"Same here," rejoined the practical young man. "I have a note coming due the first of May."
