VOLUME I.

MOSCOW, LATAH COUNTY, IDAHO, THURSDAY, OCTOBER 26, 1911

NUMBER 25

GIANTS WENT TO PIECES—THE SCORE, 13 TO 2

Athletics Scored Seven Times In One Inning—End of World's Championship Series.

BATTING ORDER.

New York—Devore, lf; Doyle, 2b; Snodgrass or Murray, rf; Merkle, 1b; Herzog, 3b; Fletcher, ss; Meyers, c; Ames, p.

Philadelphia—Lord, lf; Oldring, cf; Collins, 2b; Baker, 3b; Murphy, rf; Melnlis, 1b; Barry, ss; Thomas, c; Bender, p.

UMPRIES.

Behind Bat—Klem.
On Bases—Dineen.
Outfield—Connolly and Brennan.

THE SCORE.

New York—R. 2, H. 4, E. 3.
Philadelphia—R. 13, H. 13, E. 5.
New York1 0 0 0 0 0 1—2
Philadelphia ...0 0 1 4 0 1 7 0 *—13

SHIBE PARK, Philadelphia, Oct. 26.—The Athletics are again the world's champions, defeating the Giants today in a one-sided game to the tune of 13 to 2. This gives Philadelphia four games of the world's series, and with it the championship. The Nationals were simply slaughtered. They went down in one of the most disastrous defeats in the history of big baseball. All the craft and cunning of such great pitchers as Ames, Wiltse and Marquand, failed to stay the onslaught of the men behind Pitcher Bender, while he held the Giants helpless until the ninth when they were given a run for charity's sake.

The Giants scored in the first inning, Philadelphia failed. The second inning was a blank for both teams. In

the third, Lord hit a two-bagger, scoring Thomas. In the fourth inning Baker started things with a single and before the side was retired four had crossed the fourth sack. Score four to one. Both blanked in the fifth. The sixth was another blank for New York, while the Athletics started the fireworks that turned the score into a certain victory for them. They made seven runs in this inning. During the seventh Bender held the Giants hitless. In turn the Athletics fairly galloped around the bases. Lord, Oldring, Collins and Baker got across the plate; then Barry torn off a two-bagger, scoring Murphy. Ames was yanked out of the box and Marquand put in to stop the slaughter. It didn't stop. He made a wild pitch and both Davis and Barry romped in. Apparently confused Myers started an argument with the umpire, claiming three out. Umpire Connolly fired him from the game.

PHILADELPHIA, Oct. 26.—Pitcher Coombs is seriously ill from injuries received in yesterday's game. It is now given out that an operation will not be necessary. He was hurt when he caught his foot in the pitcher's box while delivering the ball in the sixth inning, sustaining internal injuries. Despite the intense pain he stuck to his post until the tenth when he gave up.

PHILADELPHIA, Oct. 26.—A report credited to Umpire Klem, gained circulation here after yesterday's game to the effect that in the run which gave the game to New York, Captain Doyle of the Giants did not touch the home plate. The report says that had the Athletics protested he would have called Doyle out; that Doyle, in making the slide, missed the sack. When the report was called to the attention of Umpire Klem he said that there was nothing to it; that Doyle did not touch the plate.

MEXICAN REBELS ARE AT GATES OF CAPITAL

MEXICO, Oct. 26.—With the Zapatista rebel army within four miles of the city an engagement between them and the national troops is hourly expected. The rebels number between 2000 and 3000.

Mexico is facing another big crisis. The rebels are already in control of three states and other states are ready to follow, they assert.

The capitol is practically defenseless.

A big crowd gathered today at the city hall and shouted for the rebels whom Madero claims he will have whipped in a few days after his inauguration to the presidency on Nov. 5. If the Zapatistas overthrow the federals the inauguration probably will not be held. Wire communication was severed this morning.

\$200,000 STATE FUNDS TO LOAN AT 6 PER CENT

BOISE, Oct. 26.—(Special to The Star-Mirror)—There is now in the hands of the state treasurer \$200,000 in state funds now available for loans on farm mortgages at six per cent. Within sixty days there will be added to this another two hundred thousand dollars, a total of \$400,000. This money is to be divided among the counties of the state, but at this date there are but three applications from Latah county. The state land board wants to place a just proportion of this cheap money in Latah county. If the farmers want it they should get busy at once.

Here is an opportunity to relieve any money stringency that may exist in this section. Latah county farmers ought to borrow as much as the state will place here, thus turning loose a lot of local money that will be forced to hunt borrowers in competition with the six per cent money of the state. Easier money will tend to liven up things in all lines. By all means do not let this cheap money get away. Other sections are ready to take it. The state is looking for long time loans, but will accept short ones. The farmers should see that this news is circulated over the country at once. Use the phone.

No Light Bread There.

TACOMA, Oct. 26.—Following the exposure frauds in short weights in the bread loaves of this city the city council has drawn up ironclad ordinances covering weights and measures, which it will soon pass on. The stiffest of penalties are provided.

Give Him His Steel.

NEW YORK, Oct. 26.—The directors of the United States steel corporation today recommended the cancellation of their lease on the iron ore properties of the Great Northern railroad, which would run until Jan. 1, 1915.

LATAH COUNTY APPLES HOLD WORLD'S RECORD

The following letter from R. H. Rice, secretary of the National Apple show of Spokane, contains so much of interest to the general public that we take the liberty of publishing it. When we consider that what Mr. Rice says about our apples and the loss we are sustaining because of past indifference, there ought to be cause for serious thinking on the part of our citizens. The letter in full follows:

"Spokane, Wn., Oct. 24, 1911. Mr. P. L. Orcutt, Editor Star-Mirror, Moscow, Idaho. Dear Mr. Orcutt: Since you were up here several weeks ago we have had nothing in the shape of information about what Latah or Moscow propose to do in the matter of exhibits at the National Apple show.

"I note occasionally in your paper your efforts to induce the business men and growers to wake up to the importance of this opportunity, and I do not know whether you can do much more than this, but the situation now confronting us is as follows:

"We are receiving actual carload entries and we cannot hold space for any probable exhibits if in doing so we shut out growers who are making bonafide entries. If you have any growers down there who can put in individual carloads they must get their entries in right away to hold space. You understand, of course, that in order to compete for prizes a carload must be grown in one orchard only. Several growers cannot combine in putting in a car, unless they put it in for exhibition and not for competition. If some of your growers wish to do this, we will be glad to give you space, but, as stated before, it could not compete for prizes.

"I believe there are a number of growers in Latah county who could put in carload exhibits. Owing to the shape of our building we cannot allow over 525 boxes as a carload exhibit. This makes it easier for the exhibitors and may help out some of those fellows who feel they cannot put in 630 boxes. You may advise them that 525 will be enough.

"Latah county has the world's record for the best keeping apples, as

you are doubtless aware, and each succeeding year that the county fails to put in an exhibit here loses for you an advertising opportunity that cannot be duplicated. All other sections which have long keeping apples and highly colored such as yours, grasp every opportunity to keep the fact before the public, while Latah county with the world's record on the apples, shown by Judge Forney for the past three years, passes up the chance. As a result, any other section with the same kind of land as you have is being sold at prices far beyond anything realized by you people.

"I mention these things because I want Latah county properly represented. You should not only have carload entries, but Latah county should put in a general district display. For this we could give a space (similar to all others) 16 feet frontage by 8 feet depth, and you may put in any number of variety or varieties, arranged in boxes, barrels or on shelves and decorated as you wish. You may distribute literature and, of course, have a representative in charge to tell of the resources of your county, etc. To make such an exhibit it does not require over 50 one layer boxes, and I believe you have enough public-spirited growers who would contribute the apples if the business men would defray the expense. The expense would be that of shipping the fruit to Spokane, placing it on exhibition and buying one season ticket for the man in charge. This later is a requirement we make of our exhibitors. It costs \$1.50.

"If your commercial body will take hold of this, advise me at once and I will continue to reserve space for at least one car, and also for a district display, but we must know right away what we can expect.

"Some of our bankers have been taking up the situation, and I enclose herewith a letter from Mr. Payne of the First National Bank of Moscow. It may serve as a little tip on the situation and help you to get started.

"Yours very truly,
"NATIONAL APPLE SHOW,
"By Ren H. Rice, Secy."

WOULD FREE GEMMILL ON "HABES CORPUS"

An attempt to secure the release of E. J. Gemmill, from the custody of the sheriff of Latah county has resulted in the issuance of a writ of habeas corpus by the state supreme court.

Gemmill is under arrest under the Idaho law prohibiting the sending of public printing out of the state. The state's charge is that Gemmill, who is Latah's assessor, had tax sales certificates printed in Spokane. District

Attorney Suppiger is prosecuting the case, assisted by Morgan and Morgan. G. G. Pickett defends.

The supreme court will hear the case in Lewiston in a few days, and it will then be determined if Gemmill, who has been bound over for trial in the district court, will be released from the custody of the sheriff. The constitutionality of the printing law is the question the supreme court will determine.

IN NEW POSTOFFICE AFTER NEXT SUNDAY

The federal building will be ready for occupancy next Sunday, and after that date the post office will be at home in its new quarters.

All that remains to be done is to give the last touches to the varnish on the handsome woodwork, to put the furniture in place, and to clean the floors.

The basement and first floors will be devoted to the post office. In the

basement are rest rooms for the employees, the furnace room, handsome marble toilets, and a shower-bath for the carriers. The first floor has the lobby, the general office, and offices for the postmaster and the money order and registry clerks. The furniture is modern in every regard, and everything is arranged for the handling of Moscow's mail with the greatest possible comfort and speed.

Go On Into Oregon.

KLAMATH, Ore., Oct. 26.—More Great Northern construction through central Oregon has been ordered according to the announcement made

here today. The contract has been awarded for 30 miles of road south from Bend. This line, it is said, is to be eventually continued along the projected route of Klamath Falls.

POWERS MAY TAKE HAND IN CHINA—EMPEROR FLEES

TOKIO, Oct. 26.—International complications are feared in China as the result of the discovery that German army officers have been conducting the Chinese expeditionary forces under the pretext of being attaches.

The situation is grave. If true it will result in international trouble, Japan is intolerant of the alleged action.

While no official announcement is made it is stated that the Japanese government is fully informed on the subject and that communications regarding the matter have been forwarded to London and Berlin.

It is hinted that the Japanese mobilization at Kiushu may have been caused by the possibilities of Germany's activity.

Keen interest in what Britain will do if the charge is confirmed is being manifested here. Germany and England are both bitter over the Chinese trade.

It is regarded as not impossible that the ultimate result will be the dismemberment of China.

SAN FRANCISCO, Oct. 26.—According to Hong Kong dispatches there is unmistakable panic among the ruling families of China. The outbreak at Peking has demoralized them. The Manchu royal princes with the child emperor and many high officials are in flight from the capitol to Yit Haw, 150

miles away. Cables confirm the reported surrender of Imperial Admiral Sah on the Kangfse river, and tell of reported rebel victories in southeastern states.

It is reported there are plots afoot to assassinate General Yen Tehang, whose army of 20,000 was badly defeated by the rebels Tuesday. It is now learned that his troops are honeycombed with rebels.

A large body of Imperialists troops in the province of Quichow mutinied and joined the rebels, gaining complete control of the state. Sian Fu and Fu Chow in Sain Si province are reported captured.

SHANGHAI, Oct. 26.—It is reported, but not confirmed that the revolutionists have seized Canton after a hard fight in which the casualties were heavy. It is reported that the Chinese emperor is preparing to go to Mukden to place himself under Japanese protection.

To Attack Peking.

SHANGHAI, Oct. 26.—It is reported here that General Li Yen Hung and his rebel army are preparing to attack Peking, and will advance on the city immediately. With the defeat of the Imperial forces under Yen Tehangs the road was opened and there is nothing to bar the advance of the revolutionists.

EXPLODING GUN MAY KILL HELMER HELLERUD

As the result of the careless inspection of a gun Helmer Hellerud of Park, lies at the point of death in the Carithers' hospital in this city.

The young man attempted to shoot at a target, but his revolver failed to go off. Turning the barrel toward himself he "broke" the gun and in the action it exploded.

The bullet entered the left side of the abdomen, barely missing the stomach, and lodged in his body. He was brought by automobile to

Moscow and taken to the Inland hospital where Dr. Carithers operated and removed the ball.

Young Hellerud's condition is regarded by Dr. Carithers as very serious, and it is not known whether he will recover.

The boy is 25 years of age, and is a son of Sterner Hellerud, who about a year ago was also the victim of a serious accident when, in jumping to the ground from his wagon, he ran a tine of a fork in his eyeball.

GOVERNMENT ATTACKS GIGANTIC STEEL TRUST

WASHINGTON, D. C., Oct. 26.—The department of justice today filed a suit to dissolve the steel trust. This is under the Sherman anti-trust law. The suit is filed at Trenton, N. J. The

government charges that the steel trust is the parent of all other trusts, intimating that in this the government believes it is striking at the head of the trust system in this country.

ONLY JUROR SICK, MAY GO; PANEL EXHAUSTED

HALL OF RECORDS, Oct. 26.—With the initial panel exhausted and only four possibilities left as jurors secured, the McNamara trial was resumed today, Clarence Darrow taking up the examination of E. L. Esther, a transfer man, the last of the first panel. Manning, who was passed by both sides is sick and may have to withdraw. He was looked upon as the only one of the four who would be finally chosen.

State Gets Advantage.

The defense today is still wrothy over Bordwell's action in allowing the state's challenge against Walter Coward who believed that gas destroy-

ed the Times. They say that Coward's opinion was parallel to that of McKee, whom the defense challenged because he believed that dynamite caused the explosion and the judge would not allow the challenge.

Esseley was finally excused and Judge Bordwell reserved his decision until tomorrow on the matter of challenge. Court was suddenly adjourned because the original panel is exhausted. The court decided to call a new venire of forty, and directed the sheriff to have them in court tomorrow. He would not borrow veniremen from other superior courts, saying it was not fair justice to the veniremen.
