BWARE OF CHEAPNESS.

Moscow's city council advertised for bids on standard sewer pipe of certain specifications, and received three bids, from responsible firms, with less than \$130 difference between the highest and the lowest. Fortunately the lowest bid was submitted by a Moscow firm, well known and entirely responsible.

But there was a bid which did not comply with the specifications, for a new kind of sewer pipe of which the people know nothing as to its merits, its durability or its ability to meet the requirements. The bid was submitted by a man signing himself "C. H. Bullen, Secretary" but does not say "secretary of what," dated at Moscow, without any letterhead or anything to indicate whom he represents. This bid is for a sewer pipe that would be an experiment here, and neither the man submitting it or the firm he is supposed to represent, are known. True, his bid is \$3,400 below the next lowest bid, for standard, fire tested and glazed sewer pipe complying in every respect with the specifications, but will it be a saving to use this pipe?

Moscow tax papers have a painful recollection of a "great saving" that was to have been made in paving by using a cheap, inferior and unknown paving. It was a costly experiment and the people are shy of trying another. The council should not let the contract for this cheaper pipe until it is certain that it will meet the requirements in every respect.

WELCOME THE VISITORS.

Moscow will be hostess this week to 100 young men from 11 high schools of the state, who come here for a basketball tournament. These are the flower of young manhood from the high schools of Idaho and next year or the year following they will be students in some institution of higher learning. We want them to be students of the University of Idaho.

It is not only a duty and a pleasure, but it is sound business for the citizens of Moscow to entertain these young men in such a manner that they will like Moscow better than any other place they have been and they will want to return here for four years of university work. It means much to these young men to get them interested in securing a higher education, the kind that can be secured here, in the greatest institution of the state, and excelled by none in the west.

We want these young men to come here to attend the university. It is to their interest to do so. Let every man who can spare the time make it a point to see and talk with them and show them the advantage of completing their education here. It will pay us and it will certainly pay these young men, who will be the greatest beneficiaries of all.

Anna Case, whose beautiful voice will be heard in concert Friday night at the Auditorium theatre in Spokane, is one of the world's greatest Prima Donnas and a member of the New York Metropolitan Opera company. This young woman possesses a lyric soprano of lark-like sweetness and sings each note with ease and grace. The recreations of her matchless voice are among the best known and most prized of all Edison enthusiasts. There are only two ways in which one can become familiar with and enjoy this singer's art.

ANNA CASE RECITALS TO BE GIVEN IN MOSCOW

The first way is to hear her sing. The second way is to hear recreations of her singing on the New Edison—The Phonograph with a soul. That you may have this pleasure, Hodgins' Drug and Book Company have arranged for an Anna Case recital, to be held in their music rooms, Saturday afternoon, March 22 at 3 o'clock. The program at this recital will contain recreations of some of the best numbers that Miss Case will sing in Spokane on Friday night.

A cordial invitation to be present is given to all music lovers. Watch for the program which will appear in the issue of The Star-Mirror, Friday evening.

* CONTRIBUTION BOX *

Don't Experiment.

Editor Star-Mirror: Will you give me space to call attention of the taxpayers and the city council to the danger of trying an experiment in completing the sewer? The bids last night were all very close together for standard sewer pipe, the kind mentioned in the specifications, there being less than \$130 between the highest and the lowest bids, showing that the city is getting a good offer. But

IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to the kidney trouble.

The kidneys are the most important organs of the body. They are the filters of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim.

Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals that the kidneys need help.

You should use GOLD MEDAL Haaren Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Go to your druggist today and get a box of GOLD MEDAL Haaren Oil Capsules. In twenty-four hours you should feel health and vigor returning.

After you feel somewhat improved continue to take one or two capsules each day, so as to keep the first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

"It's good shopping to buy the best"*says Bobby*

—and when it comes to corn flakes, you shouldn't be satisfied with ordinary corn flakes but you should ask for

Post Toasties

a much lower bid was made for a new kind of sewer pipe of which we know nothing, and which we know is not the standard, because it is not generally used. It is said the city would save about \$3400 by using this pipe in preference to the tested and glazed sewer pipe that we know will last a life time. What I want to ask is: "Can we afford to experiment on a \$75,000 or \$80,000 contract to save \$3400?"

We taxpayers remember how we were stung for about \$40,000 when an effort was made to save on paving. When you think of trying concrete sewer pipe, of which we know nothing, just think "Dollarway" and you will decide that we want no more experiments. Is our city council willing to duplicate that costly blunder? Can we afford to try a new kind of pipe that has not been tested and has not been standardized, for the outlet of our entire sewer system, the pipe through which every bit of sewerage from Moscow must run, for the prospect of saving \$3400 on a \$75,000 contract? I think not.

Over at Colfax many years ago they

had an economic council that tried to save money by putting in wire wrapped wooden pipe to convey the water from springs near Elberton to Colfax, a distance of 14 miles. The pipe was laid at a cost of \$55,000, and saved about \$20,000 over the cost of iron pipe. But in a very few years the pipe line began to go to pieces and it cost several thousand dollars

wishes to announce to those who are going to have monuments erected before Decoration Day

To place their orders as early as convenient in order to get their work and avoid any delay. My stock of monuments is very complete at this time and at the most reasonable prices. We also carve U. S. Service Emblems for soldiers. Would invite you to call at my store and select the work you wish to purchase.

per year for a number of years, to keep it in repair and then, like the "wonderful one horse shay" it went to pieces all at once. had to be taken up and iron pipe laid. Colfax lost over \$75,000 on this experiment. It tried to save \$20,000 and lost \$75,000

BABY BEEF

Some more U. of I. Yearling Prime Beef, equally as good as the "Queen of Diamonds," for your Sunday dinner. Order early to insure a choice cut.

**IT RAISES THE DOUGH**

Successful baking is assured when Crescent is used, because it raises first when moisture is added in the mixing bowl, and then again when heat is applied. The result of this double raise is deliciously light, wholesome, and easily digested breads, cakes and biscuits.

Crescent has been the established standard baking powder for a quarter of a century on the Pacific Coast. No better formula has been produced. The Crescent Cook Book is very helpful. Write the Crescent Mfg. Co., Seattle, for a copy. Grocers sell Crescent Baking Powder.
