Chattanooga Inter-state Fair

Reports from Chattanooga indicate that the inter state fair which opens in that city one next Monday will be well worth the time of any one interested in education and agricultural development.

The Chattanooga fair this year is one a part with the largest agricultural and live stock expositions of the nation, and some unusual exhibits along these lines are promised.

The Millions Dollar live stock show will, of course, be of principal interest and second to it will be the magnificent milk demonstration put on by the United States government under the direction of Miss Madge Rees, the eminent dairy expert.

All of the other departments which have been of such unusual interest in the past will be repeated, while the entertainment features are the most elaborate ever presented in this section of the south.

The racing is attracting unusual interest this year because of the very large entries which have been received the Chattanooga fair having as many entries as any in the south, even though some of the southern fairs are on the grand circuit.

There will be four days racing, and each will have a program of three races, thereby guaranteeing at least nine or more exciting events every afternoon.

"Victory at St. Mihiel" the \$25,000 pyrotechnic spectacle, will be of great interest, especially to every man who has been in the service, as it will be a vivid reminder of his experience on the other side.

Fourteen of the greatest vaudeville acts in America will furnish free acts before the grand stand, while the World at Home will entertain the pleasure seekers on the midway.

There is no extra charge for grand stand seats during the afternoon, and the admission to the grounds will be the same as in former years, fifty cents, and without war tax being added, so every one may go to Chattanooga knowing that they are going to get more than their money's worth with a mighty good time while they are getting it.

Pelham News

Henry Pocus, of Tatesville, passed through our city Tuesday enroute to Nashville.

Elder Bailly Brooks has returned from Capitol Hill, near Decherd where he has just closed a very successful meeting.

How Telephone Subscribers Save Money

Under the Government regulations every subscriber, when away, can telephone back home at a considerable saving in rates and any other person may effect the same saving in calling him by putting in a STATION to STATION call in daytime or an evening or night call at night.

This is only possible where the person being called HAS A TELEPHONE in his house or place of business. The PERSON to PERSON rates ALWAYS apply where the person called HAS NO TELEPHONE.

The saving effected by the different classes of calls to a SUBSCRIBERS STATION vary from 20 percent to 75, per cent for instance:—

When a PERSON to PERSON rate is \$1.25 the STATION to STATION rate is \$1.00 the EVENING rate after 8:30 is 50 and the NIGHT rate after midnight is 25.

In local calls the saving is approximately 50 per cent, for example:—

The PERSON to PERSON rate between Tracy City and Coalmont or Tracy City and Monteagle is 10 cts, the STATION to STATION rate, possible to subscribers is 5 cts.

The PERSON to PERSON rate between Altamont and Tracy City is 15 cts and 5 cts war tax, making 20 cts in all, while the STATION to STATION rate, possible to subscribers is only 10 cts.

The cost of telephone rental is easily saved by subscribers who average one call a day from local pay zones or three to six calls a month from long distance points.

A telephone in your house puts you in instant touch with the community you live in and is one of the greatest comforts for your family when you are away from home. In case of sickness, fire or accident it enables you to instantly summon relief or help, and it keeps the burglars away. When you subscribe for a telephone you lend support to an industry of first importance to your home and hometown, and go on record as a citizen who has the welfare of his community at heart.

If not already a subscriber, put in your order for a telephone today. You will save money in the end and add to the happiness of your home. Call up Central from the nearest telephone and ask to have our man come out and install an instrument in your house.

Yours with service
The Dixie Telephone Company.

Mrs. W. H. Boulton, of Nashville, is here on a few days visit to her sister, Mrs. Joe Sisk.
